CHICK CHICK CHICKS

Any person who would like to order Chicks from me I would like to have their order as early as possible, especially started Chicks. From a few of the leading Hatcheries in the Maritimes I was only able to get 58 per cent of my orders filled last year, due to so many late orders. So please give me a chance this year by ordering early. Write for price lists.

A. H. BRYNTON, Charlottetown, Box 425, Phone No. 2063-L.

Men intending to travel to points outside Canada — Please Read This!

Canadian Customs Officers now have instructions to stop any male civilian in an age group designated under the National Selective Service Mobilization Regulations, from proceeding to a point outside Canada unless he holds written permission from a Mobilization Board to leave Canada.

Seriously Injured On Active Service

YOU CAN SEE THE DIFFERENCE!

A Brighter Smile... In Just ONE Week!

No matter how many tooth pastes you've tried... no matter how good a job you think your present brand is doing... change now to Pepsodent Tooth Paste—and in just one week... see new sparkle in your smile!

You see, Pepsodent... and only Pepsodent... contains Irium—the exclusive cleansing ingredient. And Pepsodent Tooth Paste with Irium removes the film that makes your teeth look dull... brings new brightness to your smile.

So change today to Pepsodent Tooth Paste with Irium... and in just one week... see if your teeth don't feel cleaner, look brighter.

See how Pepsodent Tooth Paste overcomes the natural dullness of your smile. See it twice a day... and see how your teeth brighten.

You can see the difference in just one week!

ALSO THE HILL

by Frances Parkinson Keyes

CHAPTER XXX

"I think you're very insulting," Judith replied. "There's not the slightest resemblance between me and me except—except any idea of quoting the classics in court. Because I shan't be there and it wouldn't do anybody any good."

"And it's the only day you've got for sightseeing? Well, I guess you're right at that. I don't believe it would be any comfort to your father to have you with him. He said as much to me himself."

"I can see now he was right. I thought before he was just trying to save you from an experience that's shattering to him."

"Mr. Racine, I'm not going to stay here and let you message your father left for you before I leave. He said he was going to stay on the boat with Jenness tonight because she was in such a wildly emotional state he didn't like to leave her or take her back to her apartment. He said he was sure about that part myself, but anyway, that's what he said."

"And he said he'd see you tomorrow. Not to give up the insurance right now. He'll just come out to Mrs. Porterfield's as early as you're not here for you if you wanted to have a talk with you alone, and afterwards perhaps you and Jenness and he could all have supper together. Provided of course that Jenness is still free at suppertime. And I suppose the Dickson, Robert Swan, F.-Sgt., Weyburn, Sask.

Seriously Injured Accidentally
Reeves, Richard Leonard, PI-LA, Toronto, Ont.

Killed On Active Service
CANADA
Clarke, Jack Albert, F.-Sgt., London S. E. 5, England.
Mays, Bernard Dennant, LAC, Great Yarmouth, Norfolk, England.

DR. THOMAS' ECLECTRIC OIL

CUTS, BURNS and BRUISES

No wonder the world seems cockeyed to Fritz Loew, above, 41-year-old German soldier captured at Metz, France. How else could it look with him and his fellow "supemen" taking a beating on every front? That's the way he heard it—from Hitler.

Maritime Miners To Take Strike Vote

GLACE BAY, N.S., Feb. 12 (CP) — A strike vote will be taken Feb. 20 among the 14,000 members of the United Mine Workers of America in the Maritimes, Adam Long, 26 secretary-treasurer of the Union, announced tonight.

NAMED AFTER QUEEN ANNE

Five rivers in Virginia were named after Queen Anne of England.

PARAFFIN WARD KNAM

Tests are now being made by South Africa's Department of Agriculture and Forestry to eradicate, by use of paraffin, one of the Union's most harmful weeds, the prickly pear.

GI-L ANSWERS SOME OF YOUR QUESTIONS ABOUT CHEMISTRY

1. WHAT IS INDUSTRIAL CHEMISTRY?

Industrial chemistry is the taking of a relatively small group of basic substances and, by the apparent magic of chemistry, so changing them that they take on new forms and properties which make them useful in the domestic and industrial activities of the nation.

2. CAN YOU GIVE AN INSTANCE OF THIS?

Yes. Let us take salt as an example. Salt is pumped from the earth in the form of brine. Some of this is evaporated and purified for domestic use. Some of it is subjected to electrolysis which splits it up into sodium and chlorine.

3. WHAT PURPOSES DO THESE THINGS SERVE?

From the sodium comes caustic soda which is used in the making of soap, certain explosives, lubricants and "Cellophane". Chlorine is used as a bleach in textile mills and paper mills, in the dry-cleaning industry, metal trades and to purify your drinking water.

4. ARE OTHER CHEMICAL PRODUCTS SO RELATED?

Yes. In many cases where industrial chemicals are made there is a by-product which can be used. In making explosives you produce, as a by-product, dilute sulphuric acid which is used in making fertilizers. The chemical industry hates waste!

5. WHAT DOES THIS MEAN TO THE AVERAGE INDIVIDUAL?

It means that, through chemistry, raw materials are made useful, industry is supplied with chemicals necessary to its progress, processes are simplified and hundreds of new jobs are provided. Any day a new chemical discovery may start a new industry in Canada.

GI-L ANSWERS SOME OF YOUR QUESTIONS ABOUT CHEMISTRY

6. WHAT IS CANADIAN INDUSTRIES LIMITED?

C-I-L is an industrial chemical company. Its work is to produce, where possible from Canadian raw materials, those chemicals necessary to the manufacturing life of Canada. C-I-L has introduced new industries into Canada — such as the making of "Cellophane" and nylon.
