THE FIRES OF ECZEMA

So keen is the suffering of many people who endure the stinging, itching sensation of Eczema that they speak of the skin as being on fire. By its scabbing, healing, and itching, it causes Eczema, St. Rheum, and every form of itching skin disease. It is of inestimable value in every home, and when once introduced becomes a household necessity. Dr. Chase's Ointment is the standard the world over, and has no wor by rival.

Disinfectant Time

The greatest foes to health are those invisible ones science calls germs. They thrive and multiply wherever there is dampness and decay. Such places are common at this season of the year. The free and frequent use of disinfectants will destroy every lurking germ. We can supply everything needed in the line of disinfectants.

THE SALOON OR NO SALOON

Rev. R. W. Stevenson in Central Christian Church

A Forceful Arraignment of the Drink Evil and the Bar, Based on Isaiah 5:20-23 and Habakkuk 2:15.

The Central Christian Church was filled to the doors Sunday evening, prominent temperance workers from other churches being present. Rev. Mr. Stevenson spoke with great earnestness and energy, as follows:

The saloon or no saloon, that is the question. It is one of prime importance at the present time and commanded the attention of the prophets Isaiah and Habakkuk in their day.

The woes in the text are pronounced against the liquor traffic. This evil has more woes pronounced against it than any other one sin mentioned in the Bible. "Woe unto them that are mighty to drink wine; woe to the men of strength that mingle strong drink, and put the bottle to their neighbor's lips." Leading men of every age in the world of thought have written against it. Shakespeare cries out, "Oh that men should put an enemy into their mouths to steal away their brains and transform them into beasts."

Lord Chesterfield in a speech on "The Gin Act, delivered in the House of Lords on Feb. 21st, 1743, tells us that "luxury may be taxed but vice prohibited." He assures them that "it would be as consistent to lay a tax upon a breach of the ten commandments as upon the liquor traffic. The tendency of the Act at that time would only result in the propagation of disease, the suppression of industry and the destruction of mankind."

Is the liquor traffic any more respectable today than in 1743? By no means. I am what I am on this question because I read my Bible, because I understand where a Christian man should be on the question in order to be safe. Whether the stand I have taken on this question is popular or not does not concern me, but I know I am right.

Here are to be found the very best men and women in the community. Were our Lord Jesus Christ and His disciples still on earth I feel sure, they would be found opposing the saloon. I am sorry to say there are those who lay claim to be the successors of the apostles who are not where Christ would surely be. Here are the sober men of the community; here the intelligent, here the men who pay 100 cents to the dollar; here are the men who give time, money and influence to secure good Government; here are the men and women who are interested in the boys and girls of the community; here are the people who are anxious to have an honest ballot box and pure politics and here are the men and women who are anxious for the welfare of our city.

Shall we have the saloon? I am not here to discuss the essential use of spirituous liquors. That feature of the question I am incapable of discussing. That must be left for medical science. My subject is the saloon. Is it a remedy for drunkenness. The large majority of people deprecate drunkenness. A man who takes a glass told me a few days ago that "the man who gets drunk is no man". The consensus of all right thinking men is that "drunkenness must be suppressed". How shall this be accomplished? Is the licensed saloon the solution of this problem? Has the saloon ever been without its drunkards? If so, at what

time and where? The saloon does not in the least restrain drunkenness, but on the other hand fosters and increases the evil. What is the character and history of the saloon? It is an institution where beer, wines and all kinds of spirits may be sold under the protection of the law. A place where liquor is sold for the money there is in it and not for the public good.

Is the saloon a law abiding institution? Is there any person who will claim such a character for it? Has anyone ever known it to be such? If the law forbids the sale of liquor to minors, does the saloon man sell to minors? If the minor has the money he can get the liquor. In this case money makes the mare go.

The law requires that no sale be made after a certain hour. Does the saloon man close his place of business and go home. No, but when he closes his front entrance the back and side doors are opened, blinds drawn and his trade is carried on into the night. The law prohibits the sale of liquor on the Lord's Day. Does the liquor man respect the day and obey the law? No, but he sells on the Lord's Day as well as on every other day. The liquor sellers in Chicago are making an effort to sell day and night. The Lord is not considered in their business. He is respected in every other business except the saloon.

The law says the saloons must be closed on the day of election. Is the law obeyed? No one believes it is. If so, why so many men drunk at the polls and everywhere else? The saloons are opened. During the last election men were drunk and fighting at the polls near where I live. Some were young men and older ones looking on enjoying the bout. That their sons were not in the fight was every evident.

I question that there was ever a drunkard made without the saloon. In the bosom of the family where wife and children are men are not liable to become drunk unless the habit has been formed elsewhere. What does the saloon make of men? It never yet made a sober man, but it makes drunkards and begets quarrels, hunger, nakedness, misery, sickness, filth, laziness, disease, liars, thieves, blackguards, lusts, cruelty, gambling.

LOVE DIES.

Mrs. Ella Wheeler Wilcox says there comes a time in the course of married love when "the thrill goes out of the hand-clasp and the kiss at times, and it is then that husband and wife may be susceptible to other magnetic personalities." The reason for this condition of affairs is often the fault of the husband, but how often is it not due to the wife's nervousness and irritability due to some trouble with the organs peculiarly feminine—the wife under such circumstances feels languid and spiritless—she suffers perhaps from headache and sleeplessness.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

A great deal of sickness may be saved by keeping on hand a copy of Dr. Pierce's thousand-page illustrated book, "The Common Sense Medical Adviser." Sent free, paper-bound, for thirty-one-cent stamps, to pay cost of customs and mailing only, or cloth-bound for fifty stamps. Address, World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Constipation and a bilious attack go hand-in-hand. Dr. Pierce's Pleasant Pellets are a sure and speedy cure for both. Tiny, sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Nothing else is "just as good."
