QUALITY IMPERIAL TOBACCO CO. GUARANTEED

**Great Britain Apathetic Toward Canadian Market**

LONDON, Dec. 12.—The apathy of Great Britain towards its Canadian market has 'beyond all argument, resulted in a most dire economic leakage for the empire,' says F. MacLure 'Sclanders, Commissioner of the St. John N. B. Board of Trade in a letter to A. E. Wildey, publicity officer of the Port of London authority made public here.

Declaring that if the British people want the Canadian market they must go after it and be prepared to pay the price, Mr. Sclanders says the lack of personal touch between Great Britain and Canada has enabled the United States to secure a large share of Canada's business.

The letter follows: "Thanks for your favor of the 1st, and I quite agree that so far as the Great Port of London is concerned, people on this side probably know less of it than they do of Glasgow and Liverpool. Perhaps we do not have enough sailing to and from here and London. Perhaps the shipping interests of London have not fully awakened to the importance—the ever growing importance of Canada's ocean traffic. At any rate, according to my own experience, I would say that too little is known of the Port of London on this side.

"Of course, people everywhere are most interested in things that directly touch them. For instance, what our people here think most of is a line of steamships operating regularly from the Port of St. John. Such steamers constitute, as it were, the thread that strings our little bead to other beads elsewhere.

Particularly during the past few years, leading ports through the world seemed to have awakened in a very thorough sense to the value of good publicity. But, in my respectful opinion, such publicity must be followed up by the personal touch, which in turn, must involve some practical proposition attractive to the other fellow. I would say that the Port of London might find it profitable to have a thoroughly experienced representative spend six months on this side, meeting the right people and getting his finger closely upon the pulse of the whole situation. There has been far too little of this personal touch between the Old Country and Canada. As a result, the United States seems to have no difficulty in securing a large share of Canada's business.

"For instance for the fiscal year ending 31 March, 1928, Canada imported from the United States goods to the value of \$719,443,513. During the same period Canada's imports from the United Kingdom were merely \$185,888,581. For more than one past year our imports from the United States have exceeded \$300,000,000. A material proportion of the commodities represented by these enormous imports could be, undoubtedly manufactured in the Old Country. With your much lower wage scale and the British preference tariff which Canada allows you, it is a positive indictment that the people of the Old Country, with their vaunted commercial and industrial experience

**BIRTHDAY ADDRESS AND PRESENTATION**

Address and presentation to Rt. Rev. Mgr. D. J. Gillis at Indian River.

The venerable priest, lately retired, who has passed his 89th birthday anniversary, was waited upon Sunday afternoon, Dec. 8th, and presented with a grand chair and an address by the parishoners. Benediction of the blessed sacrament was given by the pastor, Rev. R. F. MacDonald. The address was read by Mr. Jas. Pendergast and the presentation was made by Mr. John Murphy.

Right Rev. Monsignor D. J. Gillis, Rev. and dear Monsignor:

In order to put in concrete form a parish wide desire that an act of special reverence be done to openly show the regard in which you are held by the people of Indian River Parish, we are here assembled to tender our felicitations. A great many of present Indian River parishoners were very young and some not even born when you took charge of the spiritual affairs of the parish over forty years ago, and we think we voice the sentiments of all the living members and also those of the dear departed friends, could the lips that are forever stilled reveal the inmost feelings of their hearts while they lived and enjoyed life on this earth.

It is inscribed in Holy Writ "a prophet is not without honor save in his own country," yet when we find out the regard in which your spiritual and personal characteristics are held by eminent people living in different parts of North America, we are made more solid in our belief that we are living in proximity to a great and outstanding personality, —one whose name will live for a long time in the history of Prince Edward Island.

By precept and example you have forwarded the cause of temperance and moderation in all things—of which your long and active life is a grand object lesson to posterity.

Owing to your being an extensive reader and traveller, a student of history, and a close observer during your life time, you have been able on occasions to predict the result of wars, and other great national crises with an almost uncanny precision. Your generosity towards worthy institutions, while not known by the general public, is known by enough people to establish the fact that you follow the biblical injunction, "never let your right hand know what your left hand doeth." Always taking a keen interest in government and things political, you have seen the disjointed and strife torn British colonies north of the 49th parallel N. L., welded into one great British confederation intensely loyal to the Empire, extending from the Atlantic to the Pacific and from the North Pole to the international boundary of the U. S. A.

**To End a Cough In a Hurry, Mix This at Home**

To end a stubborn cough quickly, it is important to soothe and heat the inflamed membranes, get rid of the germs and also to aid the system inwardly to help throw off the trouble.

For these purposes, here is a home-made medicine, far better than anything you could buy at 3 times the cost. From any druggist, get 2 1/2 ounces of Pinex. Pour this into a 10 oz. bottle, and add plain granulated sugar syrup or strained honey to make 16 ounces. This takes but a moment, and makes a remedy so effective that you will never do without, once you have used it. Keeps perfectly, and children like it.

This simple remedy does three necessary things. First, it loosens the germ-laden phlegm. Second, it soothes away the inflammation. Third, it is absorbed into the blood, where it acts directly on the bronchial tubes. This explains why it brings such quick relief, even in the severe bronchial coughs which follow cold epidemics.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles. Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

**Notice Re City Taxes**

Citizens are hereby notified that all City taxes must be paid before December 31st. Those in arrears of taxes after that date will be deprived from voting at the Civic Election to be held in February, 1930. List of all defaulters will be published as soon as possible after December 31st.
