## Cure Children's Colds By External Treatment

MOTHERS WILL FIND NOTHING SO SPEEDILY AND RELIABLE AS OLD TIME "NERVILLE."

It's really a shame to upset a young child's stomach by internal dosing, when external treatment will so promptly break up a cold.

When your boy comes in after play with his feet soaking wet, his throat hoarse and sore, his little chest tight and congested, just apply Nerville. Give him a vigorous rubbing over his throat, and put lots of Nerville on his chest and rub it right in. To make Nerville penetrate more quickly cover his chest and throat with a hot flannel bandage. This treatment WON'T fail. Your boy will be feeling better in half an hour, and you will have the satisfaction of knowing you have ward off perhaps a cold, or grippie, or illness that might have laid him up.

Nerville is mighty good for preventing colds and for breaking up a bad one, too. For general family use it cures all sorts of external aches and pains—you simply can't beat it. Try it for earache, toothache, neuralgia, sciatica, lame back, rheumatism, or lumbago. Wherever there is congestion, inflammation or pain in the joints or muscles, Nerville will cure mighty quick. The large 50¢ family bottle is so economical, so useful, it should be in every home. There is also a small 25¢ size. Dealers anywhere sell Nerville.

WOUNDED IN BATTLE.—The friends of Mr. John O. Davis, who left Charlottetown in January, 1915 for Liverpool, England, his native place, where he enlisted in the Liverpool Pals Regiment, is now in hospital in England, having been wounded in action at the front. His many friends here are hoping to hear soon of his recovery. Mr. Davis, for a time represented the firm of Robert Simpson & Co., Montreal, and was also employed with Mr. J. J. Horaby.

SUCCESSFUL P. E. I. STUDENTS.—Among P. E. Island students who distinguished themselves recently at McGill was Mr. Robert McLaughlin, son of Dr. McLaughlin, formerly of Charlottetown. He captured five gold medals in third year medicine, taking practically all the prizes in sight. Another brilliant student is Mr. Ray Brown son of Mr. E. R. Brown of this City, a student of the first year in medicine. He passed successfully in all subjects, taking honor in zoology.

PRESENTATION TO SOLDIERS.—At a special meeting of the League of the Cross last night, valuable presents were given to seven of the members who had recently joined the ranks of the 105th. The presentation was made on behalf of the League by his Lordship the Bishop who in fitting and eloquent terms complimented the young men of the noble stand they had taken, giving them good fatherly advice as to their conduct and manner of living while wishing them God speed in their undertaking. The recipients were Rev. P. A. McDonald, formerly Spiritual Director of the League and now Chaplain of the 105th. Frank Steele, Emmet Quinn, Walter Trainor, John McKene, Claude Walsh, and Joseph Moran. Each gift was accompanied by a suitable address. The young men replied thanking their brothers for their kindly remembrance. A short musical programme added pleasing variety to the meeting.

IN JUNE.

The fresh green coat on the slope of a hill of a robin's song

That comes from the blossomed trees athrill

With the joys of the summer long;

A flower from under an old stone fence

Came out to meet the light,

The distant curve of the shore-line, marked

By a line of foamy white;

The soft white clouds spread over the sky.

With the azure showing through;

A rose, with the dew drops not yet dry.

In a rainpout mirrored true;

The dance of waves in the sparkling stream.

By the summer breezes curled;

They are only a few of the beautiful things,

In a beautiful, beautiful world—Josephine MacLellan.

## McCormick New Binder

The McCormick New Binder is especially designed and constructed for harvesting conditions on P. E. I., and is made to meet the most exacting condition of the grain crops successfully year after year. The McCormick binder is a very easy running machine. The frame is substantially new built and well braced, another reason why the McCormick binder runs so easy is that the working bearings are in self-aligning boxes fitted with roller bearings, that is why the McCormick binder will run lighter the longer it is used. The McCormick new binder embodies several special features to perfect its work in the field by having a level hot iron platform and reel with double bearing and large range of adjustment, which enables it to handle short or down and tangled grain almost to perfection. The McCormick new binder elevator floats at three points, and therefore has the large capacity required for handling heavy grain. The platform and elevator canvasses are tight and loosened by a simple device on the rollers, the butter on a McCormick new binder is controlled by the driver from the seat, and can be changed for short or long grain without interfering with position, of the twine on the sheaf. Note the steel disc in the point, the needle to prevent wear and the cutting off of twine, The McCormick knoter is one of the simplest knoters made, having only two moving parts—the twine disc and billhook, every knoter is thoroughly tested before being shipped. This fact, together with the simple construction, accounts for the excellent work of the McCormick Knoter in the field. For further information or free Catalogues apply to your nearest McCormick local agent.

## Amatite Roofing

### NEEDS NO PAINTING

Amatite stands alone in the ready roofing world. It is the one roofing you don't have to paint. Once laid, it will last for years without any attention from you. For sidings and steep roofs it is supreme. You could only see how it is made—see the tough, fibrous felt, the dense, non-volatile saturating compound that keeps it water-tight, you would understand our claims. Try some.

### A Roofing Triumph

The durability of Amatite is only one of its fine points. The same structural features which makes it unnecessary to paint Amatite, gives it a distinctive and beautiful appearance. We refer to its sparkling, mineral surface. It improves the appearance of any building. The best buy in the ready roofing market.
