CASCOMPEC NOTES.—The bye-election in this district is over, and Mr. Dalton has been quietly returned to the activities of the political arena to the quiet of his home and business. Whether the fierce contest in the recent election has had anything to do with the series of storms that have followed in its wake is hard to tell; but there must have been some slight misunderstanding between the presidents of the Political Association and the Clerk of the Weather, for the storms began, ere the election was over, so probably imbued too freely of lemon and glycerine that has been distributed around for the "grippe" and was not responsible. The quantity of snow that has fallen recently has made the roads on the ice and land very heavy and travelling by the former is practically suspended. The residence of Francis A. Sweet, Esq., was the scene of a pleasant event on Friday Feb. 1st that being the date of a party given by his daughter Grace. About thirty-five of the young folks assembled and spent a very enjoyable evening. Music was furnished on the harmonica by Messrs. R. H. Bayner and H. Bryan, and vocal solos given by the Misses Lizzie and May Webb, who sang in their usual good style, and also by Mr. H. Bryan. When the wedsma' hours were approaching all repaired to their homes, voting Mr. and Mrs. Sweet a model host and hostess. —Our school is doing good work under the skillful management of the esteemed and popular teacher, Miss Lulu M. Gamble. —La grippe is very prevalent here just now, but we are glad to see Messrs. Silas Gamble and C. W. Clark out again, after their recent severe illness.

IN SOME CASES.

A Single Package of the Pyramid Pile Cure is Sufficient to Cure.

This may seem a broad statement when it is remembered that few diseases are so obstinate to really cure as piles; some physicians going so far as to say that a painful surgical operation is the only permanent cure, but the many and remarkable cures made by the Pyramid Pile Cure in the past few years have proven that surgical operations are no longer necessary, and that it is, by far the safest and most reliable remedy yet discovered for this common and often dangerous trouble.

The harmless acids and healing oils contained in the Pyramid Pile Cure cause the blood vessels to contract to a natural condition and the little tumors are absorbed and the cure is made without pain, inconvenience or detention from business.

Dr. Williams, a prominent official surgeon says: "It is the duty of every surgeon to avoid an operation if possible to cure in any other way and after many trials with the Pyramid Pile Cure I unhesitatingly recommend it in preference to an operation."

Mr. Phil Owens of Omaha writes that after suffering to years from an aggravated case of itching and protruding piles he was cured by a 50 cent box package of the Pyramid Pile Cure purchased from a local druggist, he says: "I fully expected the trouble would return but am happy to say for the past year and a half have been entirely free from the disease and I can not speak too warmly in favor of the Pyramid Pile Cure."

A bill clerk in of the large wholesale houses of St. Louis says: "My occupation as billing clerk was so confining and sedentary that it finally brought on an aggravated attack of rectal trouble, while my physician diagnosed as itching and protruding piles and recommended a salve which he prepared and which gave me some relief for a few hours after using and then the trouble would come back as bad as ever; one of the other clerk advised me to try the Pyramid Pile Cure and now I feel like thanking him every day for recommending it as a single 50 cent package cured me and I have had no trace of piles since, something over six months."

Hundreds of pile sufferers, who had almost decided to undergo the pain and danger of an operation have been astonished to find that the Pyramid Pile Cure which can be purchased at any drug store was far safer, better and more effective than an operation could possibly be.

TO KEEP PLANTS GREEN.

The leaves of all plants kept indoors should be washed every week. Plants take in as much nourishment through their leaves as through the roots and it is impossible for them to do this if the leaves are covered with dust.
