

ROBBED WHILE PRAYING.

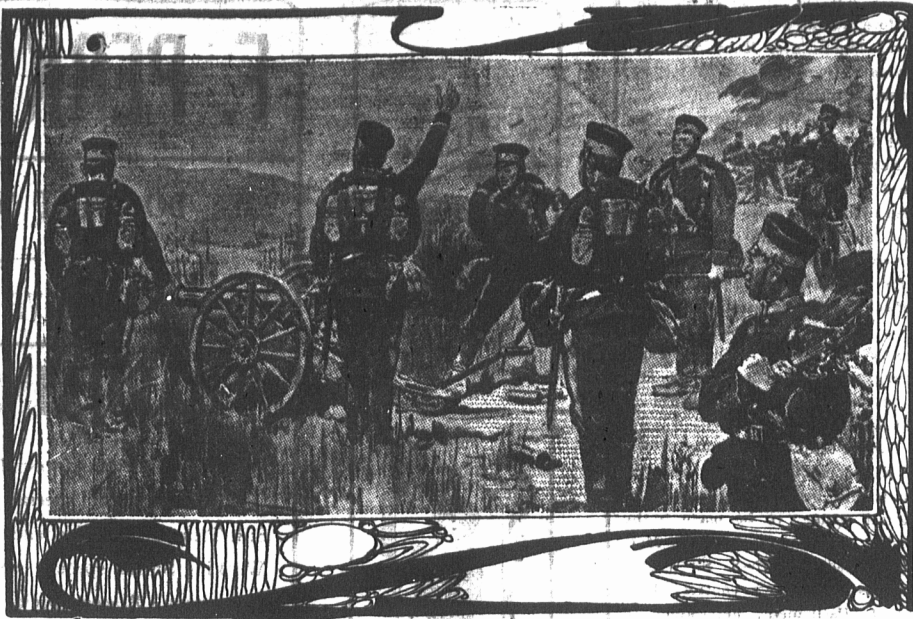

PRINCE GEORGE, June 1.—The little sisters of the poor were robbed today of \$3,000 by a man who represented himself as a plumber. The man went to the institution on Penn avenue where in addition to the home for the aged is being erected by the sisters and represented himself as the sub-contractor for the plumbing work in the building. When the inmates of the home had all gone to the chapel for prayer, the fellow made his way to the office and carried away the \$3,000 which represented the collections made by the sisters to pay for the new building.

IN EVERY HOME.

Dodd's Kidney Pills fast becoming a Household Necessity.

ECONOMY POINT, N. S., May 30th.—(Special).—"I was troubled with Lame Back for twenty-five years, sometimes so severe that I could not turn myself in bed. I accidentally purchased a box of Dodd's Kidney Pills and took them and the result is that my lame back was cured and I had no return of the trouble in nearly ten years."

This is the statement of Geo. S. McLaughlin of this place. Many other people here have similar experiences. That's why Dodd's Kidney Pills find a place in nearly every home in this part of the country. They cure all Kidney Diseases from Backache to Bright's Disease.

THE MODERNIZING OF THE JAPANESE ARMY.

When the great revolution in favor of European ideas and ideals occurred in Japan just following the terrible Shinto rebellion the nation endeavored to absorb huge doses of Occidental wisdom along all lines of mental development. But it was in things military that the Japanese leaders especially craved to rival their Western rivals, and vast sums of money exceeding in amount any treasure spent by a nation of similar size and financial resources were disbursed with lavish hand by the advisers of the Mikado.

Artillery was the great stumbling block of the organizers of the old Japanese armies. The two-armed gentry made good fliers, so far as courage went, and the rank and file soon learned the mechanism of the modern rifle. It was the modern rapid-fire guns and the huge guns of the modern coast defence and marine artillery which caused years of anxiety and study to the Jap leaders. However, at the time of the Japanese-Chinese imbroglio it was already evident that the facile intelligence of the Japs had learned much of modern engineering.

The great truth that the modern machine fighter is first of all an expert mechanic had been comprehended by the Japanese, and, working along these lines, the army of the Mikado is to-day undoubtedly equal to any emergency in the use of intricate and heavy guns. The illustration of our artist shows a detail of Japanese artillerymen drilling with a five-inch rapid-fire gun.

JAP ARTILLERY IS THE SUPERIOR

Best German and French Weapons Not the Equal

Mikado's Forces Have a Gun Higher and Much More Effective Than the Russians and it is the Invention of One of His Own Officers.

WASHINGTON, D. C., May 21, 1904.—Gen. Kuroki won his battles for Japan at the crossing of the Yalu with a gun. Every dispatch, every report on those three days of fighting so disastrous to the Russians spoke of the superiority the Japanese soldiers demonstrated in the handling of their field artillery. Russian batteries, armed with the best weapons that Krupp and the great gun works of France could turn out, were silenced, driven from their position, destroyed. With a merciless rain of shell and shrapnel the Japanese gunners searched every inch of the Russian lines. They found every nook and cranny that sheltered Russian sharpshooters or Russian reserves. Shaken and broken by the pitiless and accurate fire, the Russian infantry broke before the bayonet charges of the Mikado's diminutive soldiers.

While the Japanese followed the example of the Boers in bringing to the firing line siege guns that outweighed the Russian field batteries, most of their success was yet due to their own field guns, weapons that were generally criticized as of an inferior type when the present war began. The Japanese field gun, like the Japanese soldier, is distinctively a home product, invented by a Japanese officer and cast and turned in Japanese foundries.

Foreign experts criticized the light weight of its shell, about 11 pounds, compared with the general 14 pound and 15 pound types in use in all other armies. It was a rapid firing gun, using fixed ammunition or just such cartridges as one fires in a revolver, yet it had no recoil cylinder. All modern field guns are now equipped with the oil or hydraulic cylinders which take up all the kick from the discharge. A gun with the recoil cylinder does not jump back at all. The old kicking guns had to be re-aimed after every discharge. Recoil cylinder guns can be fired a dozen or more times without being sighted. Moreover a gunner can sit on the trail and feed the big cartridges into the breach as fast as they can be brought up to him.

Instead of a recoil cylinder the Japanese field gun has brakes on its wheels to take up the recoil. The United States army is now discarding guns with brakes for guns with recoil cylinders. So all the experts patriotically explained to Japan the reasons why her new field guns were inferior. But at the Yalu it developed that the experts were mistaken. With brakes in lieu of recoil cylinders it was discovered that these guns worked better than the best brought against them. It turned out that the Japanese artillery experts had developed something new in brakes. They worked so well that the space

THE ILLS OF CHILDHOOD.

Every child in the country needs, at some time or other, a medicine to correct the ills incident to childhood. If Baby's Own Tablets are kept in the house and occasionally given to the little ones they will prevent illness, and make the little ones rugged, strong and cheerful. Mothers should insist on having this medicine because it contains no opiate or harmful drug, and children take the Tablets as readily as they take candy. If you have a neighbor who has used the Tablets ask her and she will tell you what splendid satisfaction they give. Here is what one mother, Mrs. Wm. Sinclair, Hebron, N. B., says: "I have used Baby's Own Tablets with so much satisfaction that I do not feel safe when I have not got a box in the house. I am sure that other mothers will be quite as pleased with them." You can get the Tablets through your druggist or by mail at 25c a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

attached to the trail of most modern field guns, as an additional precaution against recoil, was unnecessary. This made lateral training of the gun much easier.

It developed that the lighter shell and shrapnel did as much damage as the heavier weight projectile. The lighter gun was, of course, much easier for the Japanese to handle and work through rough and mountainous Manchuria. In short it turned out that the Japanese had planned a gun for just the kind of work they had to do; for just the kind of battles they would have to fight; just the gun with which to beat Russian armies.

It is a novelty in cannon for another reason. The gun itself is mounted in a trunnion hoop that is a part of the axle. That helps to prevent "jumping." It also permits high angle fire that is very essential in dropping shells over Manchurian hills and mountains into Russian troops sheltered behind them.

The Japanese field gun is the invention of Major-General Ariska, a distinguished soldier of the Japanese army. It embodies the brains and the originality of modern Japan. It destroys the traditional impression that Nippon is but an imitation of the west in her armies and in her industry.

Church Services.

Changes to be made in church services should be at this office not later than one o'clock Friday afternoon.

PRINCE STREET.—Prayer and Praise Service at 10.15. Rev. G. M. Young at 11 and 7. Strangers welcome. Attentive ushers.

GRACE CHURCH.—Prayer Meeting at 10 a. m. Rev. W. W. Lodge at 11 and 7. Strangers always welcome and provided with comfortable seats.

PRESBYTERIAN.—Zion.—Prayer meeting at 10. Rev. R. H. Setze with at 11 and 7. Sunday School and Bible class at 2.00. St. James.—Prayer meeting at 10. Rev. T. F. Fullerton at 11 and 7. Sunday School and Bible Class at 2.30.

Rev. G. R. White at 11 and 7. Sunday School at 2.30 p. m. All welcome. Visitors provided with seats by courteous ushers.

CHURCH OF CHRIST.—Services at 11 a. m. and 3.45 p. m. CENTRAL CHRISTIAN.—Rev. R. W. Stevenson at 11 and 7. Sunday School at 2.30. Prayer meeting Wednesday night at 8 o'clock. Seats free and unappropriated.

ST. DUNSTON'S CATHEDRAL.—First Mass at 7.30, second Mass at 9 and High Mass at 10.30. Vespers and Benediction at 7 p. m. Catechism at 2 p. m.

Holy Communion—1st Sunday of each month after morning prayer, 2nd Sunday at 8.30 a. m., 3rd day after evening prayer. Sunday School at 2.30 p. m. All seats free and unappropriated. St. Peter's—Rev. Jas. Simpson, M. A. Priest. Incumbent; Rev. T. H. Hunt, D. D. A. S. Priest. Holy Communion (plain) 8 a. m. Holy Communion (choiral) and Service at 11 a. m. Matins (plain) 10.15 a. m. Sunday School at 2.30 p. m. Choral Evensong and Sermon at 7 p. m. Holy Communion every week day at 7.45 a. m. Church and All Saints Chapel open every day from sunrise to sunset for private devotions.

SALVATION ARMY.—Sunday Services at 11.15 and at 7.30 p. m. Week night Service—Monday, Tuesday, Thursday Friday and Saturday at 7.30. SEVENTH DAY ADVENTISTS.—Services at the Tabernacle, Fitzroy street, at 2.30 and at 7 p. m.

MARRIED.

On June 1st at the home of the bride's mother by the Rev. John Sutherland, Donald McLean of West Island and Margaret McLeod, Mount Vernon, Lot 62.

DIED.

In this city June 2, 1904, Margaret Esch, beloved daughter of Bernard and Ann Klugis, in the 21st year of her age. [Funeral from her father's residence, Grant Street, Central, Sunday, 5 o'clock, at 2 p. m.]

A Dorchester, Mass., May 28th, John W. Darrach, infant son of John and Beatrice Darrach aged 1 month.

Caroline Beckingham, beloved wife of the late Henry Casswell of South Rustico P. E. I., on the eve of May 21st inst, in the 70th year of her age. She leaves to mourn four daughters and five sons and a large number of grand children.

NEW THOUGHTS.

Are you growing more attractive as you advance in life?

"Given a healthy body," says Dr. R. V. Pierce, the specialist in women's diseases, of Buffalo, N. Y., "and a healthy mind, and everyone can cultivate and enjoy happiness."

We must eat properly and digest well to be beautiful. It is a fact that any form of dyspepsia may in a few days transform a clear, white skin into a mass of pimples and black spots. A beautiful woman has the beauty of her stomach. Dr. Pierce's Golden Medical Discovery maintains a person's nutrition by enabling one to eat, retain, digest and assimilate the proper nutritious food. It overcomes the gastric irritability and symptoms of indigestion, and thus the person is saved from those symptoms of fever, night-sweats, headache, etc., which are so common. A tonic made up largely of alcohol will shrink the corpuscles of the blood and make them weaker for resistance.

"This is to certify that I have used Doctor Pierce's Golden Medical Discovery, think it's the greatest medicine in the world," writes Mrs. V. M. Young of Weir, Va. "I had dyspepsia in its worst form. I decided to try your medicine. I used five bottles, and now I am doing my own housework. A number of my friends also are using Dr. Pierce's medicine and they recommend it highly. May God bless you in your grand work."

Dr. Pierce believes that a tonic made with alcohol will shrink the red blood corpuscles and make the system weak for resistance; that is why he avoided the use of any alcohol or narcotics in his "Medical Discovery," which contains the pure extract from roots and herbs without a particle of alcohol. Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for dyspepsia or debility. Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

DOMINION COAL DROPPED.

BOSTON, June 1.—Dominion Coal declined on the Boston Market today to 55, a drop of ten points since yesterday. The weakness was due to the Steel strike at Sydney.

NARROW ESCAPE.

MONCTON, N. B., May 31.—A touring automobile containing Henry F. Henstis, a leading citizen of Providence, R. I.; Mrs. H. Henstis and two companions, had a narrow escape on the trip from St. John to Moncton last night. Just after passing the bridge at Boundary Creek, the structure, which had been in a dangerous condition for some time, collapsed with a terrible crash. Had it fallen before the car got across, probably fatal results would have ensued.

Weeks & Co., are selling more hats than ever—up-to-date styles, square dealing, good hats, the reason. 3 d w t f

REFUSED LIFE INSURANCE ON ACCOUNT OF BRIGHT'S DISEASE.

Mr. William F. Montgomery, the Largest Coal Merchant of Albany, N. Y., Was Refused Life Insurance on Account of Bright's Disease, but After Taking Warner's Safe Cure Was Accepted and Now Has His Policy.

Mr. WILLIAM F. MONTGOMERY, of Albany.

Mr. Montgomery is a living testimonial of what this great medicine will do for any man or woman who has kidney or bladder trouble.

"Instead of writing this letter I wish it were possible for me to see and talk with all those who are suffering from kidney troubles. I could tell them in one brief interview what your medicine has done for me, what I know it will do for them. I enjoyed vigorous good health up to a year ago, when overwork seemed to undermine my constitution. I paid little attention to the matter until it was brought home to me forcibly at an insurance examination. I failed to secure my policy, and after consulting the doctor who made the examination I became aware of my disease.

"Of course, I was alarmed and had repeated tests made of the urine for albumen, and the horror of the thing grew upon me when the doctors all pronounced the case Bright's Disease. Complications of the stomach set in, and although I doctored with well-known specialists I grew rapidly worse. This condition of affairs continued until last November. At that time my strength had diminished, and it seemed to me that I could not get well unless some relief was soon found. It was at this stage that interested friends brought to my attention Warner's Safe Cure. Cases were cited where it had accomplished good results. There being no objections, and all hope having been despaired of, I procured the first bottle. After a few days there were some encouraging indications. The slight improvement noted continued and grew and in a month albumen was entirely eliminated from the urine. I gained rapidly in strength and health and am now in perfect condition. My life insurance has been granted me and I feel that I owe my health and life to Warner's Safe Cure."

Yours truly, W. M. F. MONTGOMERY, 53 Hamilton st. Albany, N. Y., Jan. 10, 1904.

Warner's Safe Cure has been used by leading doctors, and prescribed in their practice, and sold by druggists everywhere, for over 30 years, as the certain cure for all diseases of kidneys, liver, bladder and blood that cures and leaves no dangerous after effects. One dollar a bottle. If your druggist does not have it in stock, send direct to us.

REFUSE SUBSTITUTES AND IMITATIONS. They are worthless and often exceedingly dangerous. Ask for Warner's Safe Cure; it will cure you.

WARNER'S SAFE PILLS move the bowels gently and at a speedy cure.

TRIAL BOTTLE FREE.

To convince every sufferer from diseases of the kidneys, liver, bladder and blood, that Warner's Safe Cure will cure them, a trial bottle will be sent absolutely free, post-paid. Also free doctor's advice, and a medical booklet which tells all about these diseases, with a prescription for each, and contains many of the thousands of testimonials received daily from grateful patients who have been cured by Safe Cure. All you have to do is write Warner's Safe Cure Co., 44 Lombard St., Toronto, Ont., and mention name of this paper. The genuineness of this offer is guaranteed by the publisher.

Attractive Woolens

—FOR—

Spring and Summer

As in the past so now we are showing some of the newest creations in suitings and trouserings that are put on the market.

If you favor us with your order you can depend on getting a graceful, comfortable and well finished garment at a moderate cost.
