SHERRY-CAVANAGH NUPTIALS

The Church of the Most Holy Redeemer, Charlottetown, was the scene of an interesting wedding on Wednesday, October 10th, at 9 a.m., when Mae Catherine, daughter of Mr. and Mrs. James Cavanagh of Fairview was united in marriage to Joseph Sherry, son of Mr. and Mrs. George Sherry of Fernwood. Rev. Father Baines, O.S.B., performed the ceremony and celebrated the Nuptial Mass. As the bride entered, the church on the arm of her father, Mr. A. Blanchard, who played at the organ, rendered the wedding march, and appropriate selections were sung by Mrs. Arthur Murray. The bride was becomingly attired in a floor length wedding gown of white silk net over satin with bridal veil and a wreath of white blossoms and carried a bouquet of red Tullman roses with white streamers, and maiden-hair fern. The bridegroom wore a blue Queen's blue silk net over satin, with matching vest and carried a bouquet of pink roses with blue streamers and maiden-hair fern. The groom was supported by his brother, Edgar Sherry, who carried a beautiful compact, to the bridesmaid a pair of gold and pearl earrings and to the groomman a gold tie set.

At the conclusion of Mass, the bridal party motored to the Charlottetown Hotel, where an enjoyable dinner was served to the newly-weds, intimate friends and relatives. The table was prettily decorated with two wedding cakes and bouquets of garden flowers. The large number of wedding presents, consisting of silver, cut glass, furniture, cheques, etc., testified to the popularity of the young couple, while previous to their marriage the bride was the guest of honour at a number of showers at which many useful household articles were received. Immediately after dinner Mr. and Mrs. Sherry left on a motor trip through the Maritimes. The bride travelled in a coffee brown suit with fox fur and dark brown accessories. On return a sumptuous dinner was served to immediate relatives at the home of the groom's parents, Mr. and Mrs. George Sherry, Fernwood. The bride and groom will reside in Albany. The Guardian joins with numerous friends in extending hearty felicitations. (Patriot please copy)

U. S. Directive To Eisenhower Revealed

WASHINGTON, Oct. 17 - (AP) - The State Department tonight made public a directive given Gen. Eisenhower last April to treat Germany as a "defeated nation" in order to prevent her from ever again "becoming a threat to the peace of the world."

The directive set up regulations for Gen. Eisenhower in governing the American occupation zone of Germany. In many respects, the order - subject of much speculation during the six months it was kept secret - paralleled the provisions on Germany in the Potsdam Big Three communique. Gen. Eisenhower was instructed to direct his administration towards the decentralization of the political, administrative and economic structure of Germany and the development of local responsibility. One provision instructed him that the control council should facilitate "severance of all governmental and administrative connections between Austria and Germany and the elimination of German economic influences in Austria." "Germany will not be occupied for the purpose of liberation but as a defeated enemy nation," the directive said. It ordered Gen. Eisenhower to "discourage fraternization with the German officials and population" - a provision which has since been relaxed.

The directive gave as the principal Allied objective the prevention of Germany from again threatening world peace, and listed "essential steps" in its accomplishment:

- 1. Elimination of Nazism and militarism in all their forms.
- 2. Immediate apprehension of war criminals for punishment.
- 3. Industrial disarmament and demilitarization of Germany, with continuing controls over Germany's capacity to make war.
- 4. Preparation for an eventual reconstruction of German political life on a democratic basis.

Supplementary Allied objectives listed were:

- 1. To enforce the program of reparations and restitution.
 - 2. To provide relief for the benefit of the countries devastated by German aggression.
 - 3. To insure that prisoners of war and displaced persons of the United Nations be cared for and repatriated.
- Gen. Eisenhower was instructed to take no action which might give Germany a higher standard of living "than that existing in any one of the neighboring United Nations."
- No political activities of any kind were to be permitted unless authorized by Gen. Eisenhower and he was asked to "ensure that your military government does not become committed to any political group."
