

Laxative Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results

ANY FAMILY MAY TRY IT FREE

IT is not necessary to take a violent physic for so simple a ailment as constipation. Yet many thoughtless parents give mercury in the form of calomel, and coal-tar in the form of phenol when a natural vegetable compound like Dr. Caldwell's Laxative Syrup Pepsin will do the work equally well and without danger.

People should realize that mercury may salfate and in certain conditions loosen the teeth; that phenolphthalein, by whatever name known and however disguised in candy, may cause dermatitis and other skin eruptions; that salt waters and powders may concentrate the blood, dry up the skin and cause lassitude.

You can take Dr. Caldwell's Syrup Pepsin yourself or give it to a babe in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints. A teaspoonful will relieve you over night even if the constipation has been chronic for years.

Thousands of parents are asking themselves, "Where can I find a trust-worthy laxative that anyone in the family can use when constipated?" I urge you to try my Laxative Syrup Pepsin. It will gladly provide a liberal free sample bottle, sufficient for an adequate test. Write me where to send it. Address: Dr. W. B. Caldwell, 23 Caldwell Building, Toronto, Ont. Do it now!

Dr. Caldwell's Laxative Syrup Pepsin is a compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not cramp or grip. Every draught handles it, and bottles are so generous that the cost amounts to only a cent a dose. You buy it with the understanding that if it does not do as claimed your money will be refunded. The names of all the ingredients are on the package.

Mrs. Geo. Reeve, of Galt, Ont., writes: "Dr. Caldwell's Laxative Syrup Pepsin with good results and is greatly pleased with it; and Mrs. K. Jennings, of Toronto, Ont., finds it very satisfactory. Bring a bottle of Dr. Caldwell's Laxative Syrup Pepsin into your own home and let the family use it for constipation, biliousness, wind, gas, headaches, flatulency, and to break up fevers and colds."

Metal Buffers As Aid For Dancers

LONDON, June 18.—To rid the modern dances of a source of objection—the close proximity of the dancers, which is considered by many to be immoral—it is suggested that the lady dancer should wear a belt with a thin metal rod, having in front three large protruding buttons, shaped somewhat like the buffers of a railway train. At the international meeting of dancing masters which has just been held here to decide upon new

dances, Professor Rossi, a well-known French dancing master, said that he had invented such a device.

The belt is destined to keep the male partner at a slight distance so that the bodies of the dancers do not touch. While dancing the belt is covered with silk ribbons and is neatly "disguised" in the manner of the wearer's dress, and when worn ensures a separation of about three inches.

The invention which is called the "Princess Lilly" belt, has been declared splendid by priests and dancing masters. It remains to see what the dancers themselves think of it.

BASEBALL—A match between Kensington and French River was played at French River last Wednesday which resulted in a victory for Kensington with a score of 15 to 10. Kennedy and Sutherland were the batteries for Kensington, Johnston and Ozen did similar duty for the French River Twirlers. The game was a "swatfest" from start to finish and was remarkable for errors and numbers on the part of practically all the players—but the boys hope to improve as the season advances. French River is scheduled to play at Kensington on Wed. June 20th. The line up was as follows.

Kensington Pitcher—Ray Kennedy, Garfield Johnston Catcher—Geo. Sutherland, Will Ozen 1st Base—J. Pendergast, P. Johnston 2nd Base—Allan Murphy, John Cole 3rd Base—Hubert MacDonald, Ralph Somers Left Field—Thomas Millman, Preston Harding Right Field—Charles Kennedy, Fred McLeod Centre Field—James Folland, John McKenzie Short Stop—Ray Stewart, H.B. NON-SKID traction with PLAIN-TREAD steering ease THE problem of non-skid traction for your rear wheels with plain-tread steering ease on the front wheels is solved by the tread on Dominion Royal Cord Tires. The advantage of interchanging rear tires to the front wheels and vice-versa, thus obtaining longer mileage for the set, is a very real one. It is therefore important that the treads give you a maximum of traction on the rear wheels and no steering trouble on the front wheels. Dominion Royal Cord Tires give you this advantage without the drawback of steering trouble caused by "climbing" on crowned roads or ruts. This is another Dominion Tire extra in value which costs nothing extra in the price. Dominion Tires Built for Canadian roads
