P. E. ISLAND WELCOMES CARDINAL MCGUIGAN

Is Tendered Big Ovation

Yesterday was a red-letter day in the history of Charlottetown, marking as it did the first visit of a Cardinal in the person of an illustrious son of Prince Edward Island, His Eminence James Cardinal McGuigan.

Cardinal McGuigan was given a heart-warming reception, to which he responded at an impressive ceremony in St. Dunstan's Basilica last night which was attended by representatives of every parish of the diocese as well as members of provincial and civic governments, the judiciary and other dignitaries, and a large body of citizens.

His Eminence arrived at the Charlottetown airport at 8:00 p.m. by chartered plane from Moncton. He was accompanied by one of his chancellors, Rev. Mgr. Allen, of Toronto, and Rev. Charles Foy, of Quebec.

He was greeted at the airport by His Honour Lieutenant Governor J. A. Bernard, His Excellency the Most Rev. James Boyle, Bishop of Charlottetown, Premier J. Walter Jones, His Worship Mayor B. F. MacPhee, Hon. Dr. W. J. P. MacMillan, O.B.E., and Mr. H. P. MacPhee, K.C. Accompanying him were his aides-de-camp, Lieut.-Col. F. Fielding, M.M.; Lieut. Robert C. MacMillan, D.S.C.; and Mr. J. G. D.P.C. and Bar.

Increase In Milk Prices Expected

Citizenship Bill Passes Commons

OTTAWA, May 16—(CP)—The new Canadian citizenship bill today was given third and final reading in the Commons. It now goes to the Senate.

Robbers Get \$2,000, Miss Hidden \$20,000

BURNABY, B. C., May 16—(CP)—Three armed bandits escaped with about \$2,000 cash after holding up a branch of the Royal Bank of Canada here today just half an hour before closing time. Burnaby is six miles east of Vancouver.

The men, wearing stockings over their heads as masks, forced bank employees and a few customers who were in the bank at the time to lie on the floor. They missed \$20,000 hidden under papers in a cage near feet from the one they cleaned out.

The hold-up evidently had been carefully planned, and the men were in the bank only a few minutes. They escaped in a car which had been left with motor running.

Fluid Milk Subsidy Off After June 1

OTTAWA, May 16—(AP)—Agriculture Minister Gardiner announced today in the Commons the Government would remove its consumer subsidy on fluid milk June 1 and return control over prices to the Provincial Milk Boards effective that date.

Informed sources said this action was expected to lead to an increase in milk prices to the consumer, who then would be called upon to absorb the increased cost.

In his announcement, Mr. Gardiner said the Government would continue to pay a subsidy of 55 cents 100 pounds to producers of fluid milk from May 1 to Sept. 30 to allow the provincial boards an adequate period within which to make necessary price adjustments.

(A statement from the National Dairy Council of Canada, issued at Ottawa following Mr. Gardiner's announcement, said that "in most instances the action would mean an increase of two cents a quart in price, which consumers will be called upon to pay.")

Mr. Gardiner said: "In order to allow Provincial boards an adequate period within which to make necessary price adjustments, a subsidy of 55 cents per 100 pounds will be paid to producers of fluid milk from May 1 to Sept. 30, 1946. It being understood that this subsidy will be removed completely at the latter date, provided that the United States and the Federal Government have limited to 35 cents in the Agricultural Food Board's subsidy on this date."

He added that further consideration was being given to subsidies on milk entering into cheese and processed milk, and that it was "definitely understood" that if adjustments were made they would be upward as compared with the present summer subsidy.

No further action was considered necessary for the present subsidy on butter, and price increases allowed in the retail price of butter.

Coldwell Has Coat Stolen From Commons

(Special to The Guardian)

OTTAWA, May 16—(CP)—Leader M. J. Coldwell is wondering if Mr. Speaker, Gaspard Fauteux, will post notices in the Parliament Buildings here, "not responsible for coats, hats and other personal property, unless checked at the speaker's office."

During a short period of absence from his office, room 606-608 in the centre block, someone entered the room, took Mr. Coldwell's hat and trench-coat, the latter containing his automobile keys.

Walking up to the building this afternoon in heavy rain, Mr. Coldwell told The Guardian's correspondent that he didn't know who had the decency to take my keys out of the coat pocket and throw them on the floor. Apparently my hat didn't fit him either for it was found some distance down the corridor. But I'm afraid the coat is gone for good.

The theft has been referred to both the House of Commons protective staff and to Royal Canadian Mounted Police in Ottawa.

"Who didn't you report it to?" this correspondent asked. "They know all the sneak-thieves and criminals in town and would be more likely to get action than the R.C.M.P. who operate locally in criminal matters."

"I did," the C.C.F. leader replied, "but they won't touch it. They tell me they have no jurisdiction to act in any such matter which happen in the Parliament Buildings. It looks as though I'm out of a good service trench-coat."

Members of both House of Commons and Senate protective staffs have been instructed to double their vigilance around the building and to be on hand to arrest if necessary any suspicious characters loitering around the Parliament Buildings. As Mr. Coldwell said, his coat is not safe in your own office in the Parliament Building, where an ear is it safe?"

Dr. Finn Questioned

Dr. D. B. Finn, deputy Minister of Fisheries declined this afternoon either to confirm or deny the report that he is leaving the service of the Canadian Government to accept a new position with an international organization.

Widely known in the Maritime Provinces, he served with the Department at Halifax Fisheries Experiment Station in 1929 and in 1940 was promoted to the post of deputy minister which carries a salary of \$25,000. He also is a member of the fish committees of the Combined Food Board which rules on the allocation of foodstuffs to famine-stricken countries and on the opening of markets to fish-producing countries.

Makes Reply In Feeling Terms

With a heart "filled to overflowing with the joy of the occasion," His Eminence James Cardinal McGuigan spoke eloquently last night in St. Dunstan's Basilica in responding to the addresses and demonstrations of welcome tendered him on this, his first visit to his native Province since his elevation to the Sacred College of Cardinals.

The text of the address by His Eminence follows:

"My Lord Bishop of Charlottetown, Right Reverend and Very Reverend Fathers, dearly beloved in Christ:

"Standing again in this beloved sanctuary of St. Dunstan's Basilica, Charlottetown, clothed with the sacred purple, the highest and most treasured gift within the power of the Holy Father to bestow upon any son of the Catholic Church, my heart is filled to overflowing with the joy of homecoming and with grateful affection to all of you who have given me such a glorious and magnificent welcome. The return of any son of this Island province, to the scene of his boyhood and youth evokes sentiments of gratitude and love well portrayed by the poet when he wrote: 'Breathes there a man with soul so dead Who never to himself hath said, 'This was my own, my native land.'"

"After this wondrous liturgical reception, well may I say like St. Paul: 'You have received me as an angel of God, even as Christ Jesus. For I verily believe that, were it possible, you would pluck out your eyes and give them to me.'"

Rich Memories

"This special occasion of my return to you so soon after my elevation by the Holy Father to the cardinal dignity of a Prince of the Church evokes in my memories of a happy past which crowd my mind and fill my heart. But, to the scene of his boyhood and youth evokes sentiments that clamor for expression within the sanctuary of my heart. Above all others that I feel deepest gratitude to you, my dear brethren, for all that it has meant and done for me during the years that

Seamen On Lakes Vote For Strike

(By The Canadian Press)

MONTREAL, May 16—Harry Davis, acting president of the Canadian Seamen's Union, said here today that seamen on the Great Lakes and Department of Transport vessels have voted overwhelmingly for strike action against the 8-40-hour week.

Mr. Davis said that of the total number of men who balloted, 99.1 per cent voted "yes" to the question: "Are you in favor of strike action to win the eight-hour day?"

"However, we are hopeful that a strike may still be averted," he added. "We are meeting with the operators Monday in Toronto, with a representative of the Federal Department of Labor being present."

The Union's acting president said the number of ballots cast was 3,027, of which 3,019 "yes" votes were cast.

On the basis of the vote, it was decided today to open national strike headquarters in Toronto immediately. Mr. Davis added the balloting had begun April 16 and closed today.

Truman Threatens To Seize Railroads

WASHINGTON, May 16—(AP)—President Truman told a press conference today that he would order the United States railroads taken over by the Government if the labor-management dispute is not settled before the Saturday strike deadline.

He was asked a direct question on this and replied: "Certainly. Representatives of the Engineers' and Trainmen's Unions had notified the White House by telephone earlier in the day that negotiations were being made for a country-wide strike Saturday had broken down."

Says New Zealand Best For Workers

(By The Canadian Press)

HALIFAX, May 16—Hon. David Young, New Zealand's high commissioner in Ottawa, told the Maritime Labor Institute's course for Trades Union officers today that "New Zealand is the best country in the world for workers."

"The economic and social security measure of New Zealand," he said, "guarantees to all the people of the Dominion decent living standards and sufficient income under all reasonable conditions, in sickness and in health."

Another speaker, Dr. F. S. Farney, chief of the division of industrial hygiene of the Federal Health Department, urged establishment of efficient medical and health insurance in all factories.

- LONDON, May 16—(CP)—E.P. Macdonell, parliamentary correspondent, today reported that administrative arrangements were being made for bread rationing in Britain, but added that such a step would be taken only as a last resort.
- WASHINGTON, May 16—(CP)—President Truman today told his press conference that the United States was doing more than any other country to cope with the world food shortage.
- LONDON, May 16—(CP Cable)—Arthur Greenwood, Lord of the Seal, said today in an address to the 25th anniversary luncheon of the Canadian Chamber of Commerce in Britain that food perhaps is the "most gnarly situation" faced by the Labor Government and added the thought that "the content across the water" has not fully appreciated its gravity.
- BOSTON, May 16—(AP)—Ice riddled aboard several vessels of the long-haul Boston trailer fleet today as fishermen returned after a 139-day strike, one of the longest in Massachusetts' history. Sailings for the fishing grounds were expected to start by Saturday.
- WASHINGTON, May 16—(AP)—John L. Lewis and United States soft coal operators tonight rejected a Presidential proposal that they submit their dispute to binding arbitration. President Truman immediately canceled a week-end trip to Missouri in order to seek some new method of averting another walkout of soft coal miners when the present truce expires May 25.
- NEW USE FOR TELEVISION—LONDON, May 16—(Reuters)—Soviet scientists are perfecting television sets for examining ships' hulls and objects on the bottom of the sea. Moscow radio said today. A so-called hydro-processor was also being made to enable sea life at a depth of 10 feet or more to be observed and photographed, the broadcast added.

Britain Proposes Union Of All India

(By The Canadian Press)

OTTAWA, May 16—(CP)—British proposals today for an independent union for all India and rejected demands for Moslem states in the northeast and northwest.

The union would link British India and the princely states into a federation for common conduct of foreign affairs, defence and communications and give the Federal Government authority to levy taxes for all three purposes.

The proposals were prepared by the three-man British Cabinet Mission to India after fruitless efforts to bring the major Indian factions into agreement on methods of framing a constitution and achieving political independence. Failure to establish a constitution soon, the mission said, will risk the grave danger of violence, chaos and civil war.

The mission said India "now has the opportunity of complete independence," but added "we hope that the new independent India may choose to be a member of the British Commonwealth of Nations."

The mission refused Moslem demands for Pakistan, creation of a separate state, because "it would not solve the communal minority

Ontario Woman Dies Of Dreaded Disease

HAMILTON, May 16—(CP)—A Hamilton woman died of the dreaded animal disease, anthrax, today. Symptoms of the disease were first noticed by her two other children, who were under observation. Dr. J.H. Davey, Hamilton medical officer of health, said today. Symptoms of one member are "very suspicious."

Dr. Davey said he believed the woman's death yesterday was the result of Hamilton's first case of anthrax in humans. The disease previously had been found at times among cattle in nearby rural areas. It was the first case of the disease at the Hamilton General Hospital.

Dr. Miles G. Brown, hospital superintendent, said the disease is transmitted from the hides or meat of cattle, and it is believed the victim contracted it from infected meat.

GOLDEN JUBILEE RECEPTION

HALIFAX, May 16—(CP)—A golden jubilee reception for Most Rev. J. T. McNally, Roman Catholic Archbishop of Halifax, was held today at Mount St. Vincent Academy. The reception was in honor of the 50th anniversary of his installation and the 33rd anniversary of his episcopal consecration.

Airliner Crashes In Fog; 27 Dead

RICHMOND, Va., May 16—(AP)—A twin-engine airliner crashed in a fog, dropping through the trees and fog for a return landing at today in a pine forest, killing 25 passengers and its crew of two.

The plane, a Viking Air Company "Transport" Air Company plane, N.J. 44-100, was chartered from New York to Atlanta, and was flying into the Henrico County woods at 7:15 p.m. when it crashed in a rain attempt to land.

It exploded and burst into flames. All but two bodies were burned beyond recognition and lay scattered in a relatively small area along the banks of a nearby creek. No Canadians were aboard.

The ship apparently struck in the rain-soaked woods after an attempt to return to the airport. The wreckage was not widely spread and 75-foot trees surrounding the site were untouched. Three of the bodies had been thrown clear across the creek by the onrushing water.

An official of the Airline at Los Angeles said the plane normally was chartered to Atlanta from New York, N.J., and was flying to Houston, Tex., or intermediate points.
