### SECRET PLANS OF REBELS.

Almost the first news the British public had of the great Zulu uprising of 1879 was the terrible news of the Isandlana massacre, involving the practical extermination of an entire British regiment.

Again, even those on the spot seemed to have little or no inkling beforehand of the projected Matabele rebellion of 1896-7. At a given signal the savages swooped down from their mountain fastnesses upon the outlying farms and settlements, murdering indiscriminately all the whites they could lay hands on—young and old, men, women and children. Luckily a few amongst the first-named escaped, and galloping posthaste to Buluwayo, gave the alarm; otherwise the important post, the center and heart of the new colony, would undoubtedly have been "rushed" and all Mashona laid to waste.

Almost equally unexpected was the first Matabele rising, which broke out in October, 1893. A certain Captain Campbell, the Chartered Company's mounted police, was treacherously slain by a roving band of Lobengula's warriors while attempting to recover some cattle which had been stolen from the Mashonas. This happened on the 16th of the month. On the 18th, as if by a preconcerted arrangement, the entire Matabele army took the field, and the war began which ended a few months later in the overthrow and death of "Lo Ben" and the annexation of his country to the British empire.

The terrible Indian mutiny was heralded as most people are aware, by a mysterious distribution of chupatties, or cakes, which were carried by native runners throughout the length and breadth of the land. Nobody took very much notice at the time of the strange occurrence. But they probably did not know that five centuries previously a similar distribution of cakes in China preceded the uprising which overthrew the Mogul dynasty.

The symbolical sacrificing of white pigs and other pale-colored animals was the first intimation that a great had of Bambatta's uprising last year. And it is worthy of note that the great Maori rebellion which devastated New Zealand in the sixties, was ushered in by a similar series of happenings.

Ghost dancing began the last serious Indian uprising in the United States; that, namely, which ended in the battle of Wounded Knee Creek, fought 29th December, 1890, when the Sioux chief Big Foot and his tribe were exterminated. In 1876, again, a similar ghost dance was intently prophesied by the famous Sitting Bull and his band, who the next day attacked and massacred General Custer and all his command, 335 officers and men.

The great native uprising of the Southwestern tribes under the leadership of the Mahdi, really had its commencement in the killing of a native policeman at Khartoum in May, 1881. But the first the outside world heard of it was when Colonel Hicks and his army of 11,000 men were surrounded in the desert between Khartoum and El Gedi, and utterly annihilated. This, by the way, was probably the biggest thing in the way of a purely native revolt that has been recorded in modern history lasting as it did for a period of seventeen years and involving the deaths of over 2,000,000 people.

The Maroon insurrection in Jamaica, which was marked by similar horrors to those which stained the Sepoy mutiny in India, broke out with appalling suddenness.

One day all was apparently peaceful, the next red men ran rampant all over the island. Men, women and children were burned together in their houses, or murdered as they lay peacefully asleep in their beds. There was no word of warning no chance of escape. Yet it was recalled afterwards how, during the week prior to the outbreak, the blacks had sacrificed white cocks and hens and roasted white pigs alive in the depths of the forest.

In 1804, when the monster Jacques Dessalines, negro dictator of Hayti, willed the massacre of all the whites in the island, he caused a white bull, a white cow, and a white calf to be ceremoniously butchered in front of his palace at court-au-palace. The hideous significance of the revolting rite was not lost upon the savage populace. Twenty-four hours later no European was left alive in Hayti. All had been slaughtered, the women and the little children equally with the men, precisely as had been decreed

**WOULD-YOU-LIKE-TO-READ-THE-STORY OF-THE FURNACE?**

Just how correct principles say it should be constructed?  
Just why no other plan of construction will do?  
Just wherein lies its ability to be easy on fuel, quick in action, simple in operation?

The story is briefly told in a little booklet called "Furnace Facts." It's not an advertisement. No furnace name is mentioned, and you can read the whole story in 5 minutes.

To the party contemplating purchasing a furnace it points out the snags and pitfalls, and shows exactly what to demand of an architect, contractor or dealer, in furnace construction and installation.
