Stavert presided and after having conducted a short devotional service he introduced to the audience Rev. W. M. Kinnawin, the General Secretary for Sabbath Schools and Young Peoples Societies for the Presbyterian Church in Canada. In his address Dr. Kinnawin laid stress on the great worth of early training along religious lines. In order to lay the foundations of strong and noble characters the minds of the young must be stored with truths of scripture. Dr. Kinnawin also spoke to some length about the great progress made by the Presbyterian Church in Canada during the past year or more. In the province of Saskatchewan she had increased in strength three hundred per cent. On every hand throughout the length of Canada the people who were led astray are swinging back to the church of their fathers. The outlook is bright indeed. A short discussion was carried on, dealing with the problems of Sunday School and young people's work. Brief addresses were also given by Rev. R. H. Stavert and Rev. Jos. C. Harrison. Before closing a hearty vote of thanks was tendered by the chairman for his inspiring address and by him suitably acknowledged. The Rally was a splendid success. Those present will take up the work among the young with renewed vigor.

No such thing as LUCK

when you use Quaker Flour

There is no such thing as "luck" in baking when you use a flour that bakes the same every time. Quaker Flour gives uniform results in the oven. Samples are tested every day under actual home conditions in our home-baking kitchen. No flour can bear the Quaker brand unless it comes up to our rigid standards. Women who use Quaker Flour become accustomed to perfect results every time—flaky pastry, delicious cakes and large, light loaves of bread.

Every bag is sold under the guarantee that if for any reason you have trouble with Quaker Flour, the dealer will replace it, or give your money back.
