loss as well as a disappointment to a great many people.

In consulting a business man of one of our largest stores some time ago, he explained to me that if the automobiles had been prohibited to run in this country, our city stores would have all gone bankrupt, but as it is at the present time, our stores are progressing, simply because over half of the merchandise is sold to the people of a distance who, as I have mentioned before, take a Saturday evening ride to the City, meeting their friends and getting all their necessary articles.

It is not a very wise plan to try to follow our border friends in all respects, because we all know that in some countries of the world a day of rest and prayer seems to be something of the past, and as far as Christianity is concerned, it is considered nothing more or less than an amusement. Before closing I want to say that I am not writing from my view of mind, I may be right and I may be wrong, but I ask that the question be thoroughly looked into before being tried out and if the opposite side proves the winning side, why then we will spend our evenings at home with our families and do our shopping through the mail order houses, and secure better results from cheaper investments.

RURAL MAIL CARRIERS

Sir,—Would you allow me space in your valuable paper to discuss the complaints of our Rural Mail Carriers and the way they are paid by our Dominion Government.

There is not an official working for the Government today, that is as poorly paid as our Rural Mail Carriers for the services they give.

They have been trying to get a bill through the House of Commons at Ottawa for an increase in pay and a change in the service to drive the Mail by the mile and do away with this tendering business at the same as in the United States. They those officials pay so much a mile and their equipment found for them.

This tendering for a Mail Route is not a fair deal, for you have, to tender for four years. Things change a lot in four years, or even in two. For instance, horse feed has more than doubled this last four years, equipment of all kinds has advanced in price.

The Postmaster General would not think much about spending thousands of dollars on our Mail Routes, but let the Rural Carrier want a raise in pay it is a different thing. The Post Office Department is a paying department and there is no need of grinding their employees down to the last cent.

If our members at Ottawa were any good they would take a hold of this matter and help those men out. They should just stop to consider for a moment what those men are going through serving those long Mail Routes, especially during the winter season and spring, the cold and hardships those men have to endure, mud axle deep during the spring season.

Our Island Province is the worst in the Dominion, as we have no improved highways, the rest of the Provinces, practically no grade. Everybody knows our roads have been almost impassable this last three weeks, and will be so for a good long time to come. But we all want our daily mail, and those carriers should be well paid for it.

The members have a lot of talk about property in the great Dominion of ours. If there was less money spent in banquets and big times at Ottawa among the big mucks, they would have been more money for this kind of work.

If this bill was to increase the members salaries or the Senators or some of the big Mucky Mucks, the members would all vote for it to a man. If they are so interested in the prosperity of this Dominion they must remember that putting money in the pockets of the wealthy is not going to make prosperity. The King Government will boast about better to have had the three cents postage on and give the money to the Civil Service men that are so underpaid.

This Mail tender business might have been all right some years ago, but as times go on things change. The world is getting faster all the time. What was all right fifteen years ago won't do today, and hasn't the Mail service as much right to a change as other things?

Take the Railway men some fifteen or twenty years ago. A section man would get about one dollar and twenty five cents a day. What does he get today?

If any one cares to talk on the subject through your paper let us hear what he has to say.

ENCOURAGING IMMIGRANTS

Sir,—After reading in the multifarious editions which are circulated throughout Prince Edward Island, the articles which have bearing directly and indirectly upon emigration to this country from England by a certain fraction who do not seem to know sufficient about "The Old Country."

I am apt to wonder how long the unenlightened are to be left to wander about in their helpless condition of oblivious ignorance, with regard to this subject. The impression which a reader naturally gets, is that immigrants merely have to come up to a certain point, and then, by port of reception, having a farm and capital presented to them, are helped by the Government and Settlement Boards to the Road which leads to fabulous wealth. In a nutshell they graduate from beggary to a luxurious environment.

Now, to the all unsuspecting, trusting emigrant who is a product of the Anti-fur trade, the pioneer element who invaded this tract of red soil, and spruce fir, it would seem that upon dodging in and out among the many glaring posters which beautify the sidewalks of the all famous, long suffering country England, which show the glowing illusions of the land where the skies are the limit and your destiny is anything where opportunity is knocking at the door of which you do not own one nail, as often and repeatedly as a blacksmith strikes the anvil in a busy forge. That there might be some truth in the call for civilised, industrious patriarchy, who may be persuaded to sacrifice their ties to the old Home country for the Garden of the Gulf. Alas for the battery of fickle youth he duly arrives here, but not before he has proved that he is a two handed automatic machine with not a blemish to his name in a certain sum of money in his pocket, this being an important factor, as all beggars naturally have money. He is met at a port of reception, but not by a member of any Agricultural Society, he is met by a Government official, namely a customs officer who in due regard of the high moral sober status of the President element, searches his belongings for the substance which a person of unblemished character will always carry, a supply of liquors. After having a thousand or more questions asked as regards his sobriety he is left wondering and refers to one of the many booklets which he has been presented before leaving England, to ascertain whether it is to fulfill a position in a distillery, or an agricultural situation he is here. He is, however, consoled by the fact that he is to be assisted to get a farm of his own within a year by seventy-seven auxiliaries, four W. A. S. six Mission Circles, forty-four Bands and several C. G. I. T. Groups are expected to attend the P. E. I. Presbyterian of the W. M. S. United Church of Canada, to be held in Trinity Church, Charlottetown, May 2nd, and 3rd. There will be an executive meeting at 1.30 on Wednesday, and a public meeting at 8 o'clock, Mrs. C. F. Sanford, President of the Maritime Branch, who attended the Diamond Jubilee at Trinidad, will address this meeting. A session will also be held at 9 o'clock Thursday morning.

FUNERAL, SATURDAY—The many friends of Mrs. David South, Sr., Pwlland, Prince County, will regret to learn of her death, (in her 85th year) on Wednesday 18th of April. The funeral will be held Saturday 21st at two o'clock p. m. from her residence to Freehold Cemetery.

BANQUET ENJOYED—The Tuxedo Club in connection with the Ladies' Society United Church held their father and son banquet in the public hall on Friday evening last, and was most successful. After supper a sing song was engaged in and the boys gave an exhibition of some favorite games. The ladies who provided the good things to eat surely deserved the vote of thanks moved by John L. Blue and seconded by Leuis Herring and conveyed to the ladies by the group leader Mrs. M. A. MacNeill. The singing of "God be With You" brought to a close a very enjoyable evening.

That Stomach Of Yours!

London, Ont.—"I was in a general rundown state of health. I had indigestion and my stomach was weak and so sore I could not bear to touch food. I did not know where I did not have any health at all, was unable to follow my usual line of work. I saw Dr. Pierce's Golden Medical Discovery recommended for stomach troubles so I decided to try it and it relieved me of my indigestion and weak stomach and built me up in health. I can highly recommend the Discovery to anyone who suffers as I did. It is excellent."—Francis Henry Cook, 471 Elizabeth St., Buffalo, N. Y. Do your own washing?

If so, it will pay you to try this Chinese Washing Fluid. From your druggist buy:—1 can Gillett's Flake Lye (be sure it's "Gillett's" and not a cheap imitation); 1/2 oz. Muriate of Ammonia; 1/2 oz. Salts of Tartar; 1 oz. Sulphate of Soda; dissolve in three gallons of water; keep in large glass bottle or stoneware jar. Use a cup of this fluid to each tub of water, allowing the clothes to soak over night. You'll be amazed at how little rubbing is needed to get clothes spotlessly clean and sweet-smelling, and it will not injure the finest fabrics.
