STOCK QUOTATIONS

MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, April 14—According to latest advices from Washington the President intends to press the change in the judiciary system. Another piece of news from Washington is that all departments have been asked to review their expenditures for the purpose of cutting down wherever possible. This request has been prompted by the fact that revenues are smaller than expected and the government wishes to make its deficit as low as possible. President Roosevelt is expected to deliver Congress a new budget message probably about next Thursday. Dividend meetings today are Continental Can and Woolworth. There is nothing in the overnight news which would cause further aggressive buying in the market, consequently we would look for decided irregularity today with strength only in these stocks where earnings are very good.

MONTREAL, April 14—Imperial Oil—After all charges earnings were equal to 95.04 cents a common share in 1936 against 93 56 cents for 1933 and 95 73 cents in 1934. Dividends were paid at $1 25 per share. Balance sheet shows the usual strength, working capital $71,000,000. Cash and marketable securities $37,600,000, while current liabilities total only $6,600,000. Domestic operating revenue increased from $3,940,000 to $4,780,000 while investment income 88 per cent of total revenue decreased by $140,-000 to $21,100,000. Canadian Refining and marketing operations alone were 11 43 cents per share against 10 75 cents in 1935.

Montreal Stock Exchange collateral borrowings at end March were $45,700,000 compared with $40,700,000 at end February, $35,-700,000 on December 31 and $22,-100,000 at end of August. March figures are 107 per cent over last August while the 30 stock index of stock exchange has advanced 46 per cent during the interim.

Refined Stock of copper on hand in U. S. at end of March were 121,448 the lowest since 1929 and compared with 136,121 at end February and 238,704 a year ago

Consolidated Mining and Smelting with 1936 earnings up 61 per cent over 1935 net profit was equal to $2.13 per share on the 3,258,920 shares outstanding at the end of 1936 compared with $1.32 in preceding year. Working capital remained strong at approximately $12,300,000. Company states commercial production by Big Missouri should begin during the summer. Capacity 500-700 tons daily—Previously constructed and the necessary power plant installed, sixty per cent—300,000—shares of Buena Vista Mining Co owned which company owns the Big Missouri group of claims. Company owns 98 per cent of box property, Athabasca Lake, controling mill of 500 tons daily, to be erected and development indicates sufficient ore present. The Afton property and Temagami Reserve, Ontario, expected to be in commercial production this summer. Property owned by New Golden Rose Mines of which company owns 66 per cent of the stock. Chibougamau of Quebec has interesting prospects and 1,165,000 shares of the 3,000,-000 shares are owned by the company. Considerable interest to reopening the Coast Copper property on Vancouver Island and equipping it for commercial production, company owns 122.500 shares of the 200,000 outstanding and $722.-000 of the bond issue of $750,000 and to the end of 1936 had made open advances amounting to $1,-100,000.

MONTREAL, April 14—Croll and Roebuck have resigned from the Ontario Cabinet.

NEW YORK, April 14—R. B. White, president of Western Union Telegraph Co., Ltd. told stockholders at the annual meeting that three months gross income March estimated will show an increase of approximately $2,465,000 over first quarter year ago. He estimated an increase in net income of about $412,000 after charges.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

NOON COMMENT

The market shows some signs of exhausting the momentum of the sharp technical rally extending from Monday afternoon but is not meeting any substantial amount of selling. The general reaction in Industrial circles continues favorable to the Wagner decision. If the administration has the political courage to carry the policy of reducing expenses as ordered yesterday by the president in departmental budgets into the market important relief expenditures, we believe that the better grade stocks would begin to anticipate a further upswing in the business cycle. A generally cautious attitude may prevail, therefore until the President delivers his message on the relief costs for 1937-38 fiscal year

Laidlaw and Company.

Flash—Toronto. McKenzie Red Lake production for first quarter ending March 31, $226,000 from handling 13,832 tons Average grade $17.15. This compared with final quarter of 1936 when production amounted to $163,944 from milling 13,763 tons with grade $11.91.

Flash—Westinghouse Electric Manufacturing Company reports for quarter ended March 31, 1937, net income $5,341,512 against $3,-732,454 in first quarter 1936. Dow Jones.

BANON AFTERNOON LETTER

Demand did not show any material pickup in this mornings fractional advance, continue to buy on minor reactions.

The advance to 36 1-2 in Celanese of America this morning, does not by any means exhaust the possibilities of this stock. An additional purchase at the market should pan out profitably.

The Oils are likely to be outstanding favorites on the next rallying phase of the market, on dips buy Standard Oil of New Jersey, Ohio Oil and Phillip Petroleum.

Northern Pacific is acting better than average in the Rail division. Buy on dips of a point or two.

Floyd L. Carlisle's statement that Utilities "are not going to the dogs" improved sentiment towards the Utility shares this morning. Stocks in this division are certainly oversold and are worth considering by holders prepared to exercise patience.

Attractive issues include Electric Bond and Share, American Water Works, Electric Power and Light, and Public Service of New Jersey.

Consolidated Smelters is still in a buying range. Fraser Voting continues to show stubborn resistance to the selling flurry current in a number of the papers, buy it at the 42-44 area.

Banon.

MORNING MARKET LETTER

Yesterday the dominant settlement was one of relief that the long anticipated labor relations act decision was out of the way with considerable optimism prevailing over the prospect that a period of Industrial peace may now be ahead. It is felt that, since the Supreme Court has upheld this law which so generously espouses the collective bargaining rights of labor, employers in general will abide by the decision and the responsibility for law observance now is placed definitely on the doorsteps of the labor unions.

Moreover, matters now have been determined to a point where public opinion is likely to demand a strong stand by the administration against any non observance of the law and the disregard of property rights.

MINING

(C.P. by Guardian's Special Wire)

TORONTO, April 14—Final prices in the Toronto market today showed market improvement over those of the mid-session period but they fell far short of erasing fully the day's decline. It was the fourth decline without a net gain for the mining shares.

Base metal stocks were steady to strong till the last hour when the leaders sold off, Noranda going back 3-4 to 70 1-4. Falconbridge tumbled 85 cents, and losses of 10 to 13 cents were posted for Ventures, Sherritt and Sudbury Basin and Pend Oreille lost 25 cents.

Western oils were a bit heavy in light trading. Calgary-Edmonton, British Dominion, Home, Foothills, and Vulcan were down 5 to 13 cents each.

About 100,000 shares of Stadacona changed hands and the price sagged to 2.05 before rebounding to 2.24 for a net loss of 11 cents.

Bralorne lost 40 cents and Wright Hargreaves was sold in quantity for a drop of 30 cents. Issues showing losses of 10 to 20 cents included Anglo-Huronian, Canadian Malartic, Darkwater, Eldorado, Gunnar, Macassa, Northern Canada and Pickle Crow.
