REV. A. N. SIMPSON, formerly of Summerside P. E. I., has concluded his work in Drake University, Des Moines, and has been called to preach for the Church of Christ in Toronto Junction, Ont.

Mrs ALBERT C. J. Treneman has arrived home from Boston to visit her mother, Mrs George Woolner, who is seriously ill of inflammation of the lungs at the home of her daughter, Mrs Robert McLeod Stanley Bridge.

G. B. PIPPY, of Truro, intends shortly opening up a plumbing and tinsmith business in Oxford. Mr. Pippy is an experienced man in these lines, having conducted shops in Truro and Pictou. Further announcement appears in this paper in another column.—Oxford Journal.

BISHOP COURTNEY, Rector of St. James Church, New York, is at the Halifax, having arrived here on the Olivette last evening. This is His Lordship's first visit to Halifax since he resigned the See of Nova Scotia, and a warm welcome awaits him everywhere.—Halifax Chronicle.

THE demand for "Tunnel" stamps has been so great that the supply is exhausted. An effort is being made to secure several thousand more, and in the meantime all orders to hand will be held. Any persons wanting some should write "The Guardian Business Offices, Charlottetown" at once, stating quantity desired.

THE Canadian Gazette says: Sir Charles Tupper, who recently reached London from the South of Europe, has been indisposed. We are glad to know that his doctors now assure him that "everything is going on favorably." Every Canadian will wish the veteran statesman a speedy and complete restoration to health.

A RECENT number of the Cuban world, a large journal with all the get up of the New York dailies, has large photos with descriptive matter of the Royal Bank of Canada and the National Bank of Cuba there. Two Island men are prominently connected with these institutions, Oswald Hornby of this city as Manager of the Royal Bank of Canada and A. E. Crosby as Manager of the National Bank of Cuba.

SUDDENLY and unexpectedly the angel of death visited French River and summoned to the joys of an everlasting hereafter the soul of Mrs. Joseph Palmer. On Tuesday 6th inst. when all was tranquil and the sun was spreading its golden rays in the west, the deceased sat conversing with her family when she was suddenly attacked by a fit of apoplexy and ere long her soul passed to mansions in the skies, and the familiar face of a loving mother and tender wife was marbled by the hand of death. On the following Thursday all that remained earthly of an esteemed and God-fearing woman amid a vast assembly of friends and acquaintances, was conveyed to the Gothic Memorial Cemetery and interred beside the loved ones gone before. She leaves to mourn a husband and one son William and four daughters, Laura, Johanna and Alma at home and Mrs J. C. Shaw in Dedham, Mass. Patriot please copy.

A TREAT was in store and they knew it at the District Division session of the of T. held Saturday afternoon in Eclipse Division Hall at Hampton. There was a fair attendance and a good session, made more interesting by the presence and assistance of the provincial organizer Mr. Geldert, and when the hour for the public meeting arrived in the evening it was soon seen that for miles on all sides they had heard that this great man was to be the speaker of the evening. The hall could not begin to hold the people that had come so far to hear him, and for one hour a better lecture on the evils of intemperance, and the advantage of being a member of a Division of the S. of T. had never been heard. He is the right man in the right place, as was made manifest at the session in the afternoon when a resolution endorsing the good work done during the month just passed by Mr. Geldert and suggesting that in the near future the Grand Division again engage his services on the Island. It was at the suggestion of this District Division that an organizer was engaged.—Com.

EASTERN NOTES.—Delightful summer weather with enough heat to promote the growth of our crops after the copious rains of May. All nature is awakening from the lethargy, and iron bound fetters of winter; the fields are resuming their coat of green and we now have the genuine climatic conditions essential to the health and well being of the citizens of less favored and warmer climes.—John T. Preston and daughter have put in their annual appearance where he has spent more than a dozen summers.—Mrs. Wallace of Long Island, Maine, near Miss Maria Morrow has paid a flying visit to her native home, North Lake.—Daniel McDonald has again resumed the painting business; his services are largely in demand. Theodore Fraser is also busily employed, and needless to say his reputation is long since established.—Amid the many roads of this section none equals the Terantum, in seclusion in natural beauty, and pleasing environment, and among the many travellers who enjoy its leafy shades whether on pleasure or business none can surpass James Leet as he speeds his wheel over its entranced boundaries.—Cod fishing is still dull and fishermen doing little. This is certainly a year that may be put down as largely a failure in this important fish, and I think by reports from all parts of the Gulf that the conclusion was arrived at earlier in the season was correct, that the ice at the entrance of the Gulf during May turned a large portion of the school in some other direction. A few mackerel are still netted at Basin Head, and it looks as if a considerable quantity of this important fish is here this season. Later developments will be anxiously awaited, as we have the fishing grounds here that held the last remnants of the once mighty body, before their destruction by the purse seine of Gloucester.—The cheese factories are now open; the supply of milk is small.—The road machine in charge of Harlan Kennedy is now working here. Whatever its merits or demerits, whatever political prejudice can execute against it, it has come to stay, and the hoe and shovel of our fathers so far as the roads are concerned, can be relegated to the same neglected classes as the rickshaw, the pod angler, and the wooden harrow, the necessities of a bygone generation, the curiosities of the present.—Cor.
