Recently a bad fire took place at the home of Mr. and Mrs. Stirling Matthews, Dock Road. The fire is believed to have been caused by an oil-burning brooder which was being operated in a woodhouse adjoining the barn. This building and contents including the brooder were completely destroyed and sixty-one chicks, which were in the brooder perished in the flames. The fire spread to the adjoining barn and burned one end out of it. The occupants of the house had retired early and the fire had

LIMBER MUSCLES NOW ASSURED

With the summer sports well under way—ball, rowing, swimming, golf, tennis, etc.—lovers of outdoor games will find that a good brisk rub-down with Absorbine, Jr., will prevent the stiffness which usually follows strenuous or unusual exercise.

Absorbine, Jr. will also keep you in trim throughout the season... it arouses circulation, breaks up congestion, soothes and refreshes sore, jaded muscles—the athlete's favourite rub-down after any game. And as a first aid, it takes the pain out of cuts, wounds, bruises and sprains.

Absorbine, Jr. is both antiseptic and liniment... not only does it relieve pain and stiffness, but if the skin has been broken, it reduces to a minimum any danger of infection by promptly destroying the disease germs. It is not greasy and does not stain.—\$1.25 per bottle—at your druggist's.

made considerable headway before it was discovered by Mr. Alle Coughlin, who was returning to his home in Campbellton, after having attended a play in Elmsdale hall. When the alarm was given a crowd quickly gathered and by dint of earnest effort succeeded in overcoming the fire. Had the wind been blowing on the barn, this large building would have been completely destroyed. There was no insurance and the loss is consequently a heavy one.

A most impressive sermon was delivered in the United Church on Sunday by the Rev. Mr. Elliot, who took for his text the words "I sat where they sat." From this text the theme was developed to show that if we wish to understand and sympathize with those with whom we come in contact we must put ourselves in the place of the other fellow and see things from his viewpoint. Next Sunday the service will take the form of the annual service of the Loyal Orange Lodge. Members of this order from O'Leary and other sections will be in attendance as well as the Elmsdale Lodge and Rev. Mr. Elliot will preach a sermon appropriate to the occasion.

A new school is being built in Brooklyn during the present vacation. The work of construction is being done by the rate-payers under the supervision of Messrs. Fred Wells and Alexander Leard.

The semi-annual examination of Elmsdale school was held on June 27th. A large number of visitors were present including Rev. Mr. Dixon and Rev. Mr. Stanford. At the close of the examination commendatory remarks were made by those present in appreciation of the results obtained by the teacher, Miss Linda Currie in her conduct of this school during the past year. One of the pupils, Gertrude O'Brien, then presented the teacher with a camera while Vera Williams read a well-worded address of appreciation. On June 30th, the teacher, pupils and rate-payers enjoyed a pleasant outing at Mill River. Regret is expressed that Miss Currie will not be teaching in this school next year as she has been engaged to teach in Freetown.

For many years Elmsdale has had a large enrollment of pupils, more than one room could comfortably accommodate or one teacher could instruct. For several years, the Women's Institute has been raising funds to improve the school in various ways. Some years ago, the building was removed to a new site, and enlarged and many other improvements were accomplished through the combined efforts of the Institute and the district in general. Last year with an enrollment of sixty-two it was planned that this school should be converted into a two-room school with two teachers. A petition was sent to the Chief Superintendent of Education and he has now signified his approval of the plans of the district and authorized the holding of a meeting to provide the necessary funds.—O.

Our energies are unlimited, when we realize how much there is or may be done towards that noble motto for which we serve "Home and Country."

An interesting feature of the meeting was a "Peanut Contest," put on by Mrs. Benj Horton, for which she gave two lovely prizes, first, going to Mrs. Henry Jenkins and second to Mrs. Benj. Jenkins. Meeting adjourned to meet next month at the home of Mrs. Benj Jenkins, where a question box will be held and roll call answered with "My Favourite Proverb." Lunch was served and a social hour enjoyed.

1930 Record For N. B. Tourist Trade

FREDERICTON, N. B., July 7.—Tourist traffic out of the United States during the Fourth of July

week-end this year has been watched with special interest as likely to be the first real index of what the 1930 season is going to produce.

Returns gathered from the leading Canadian Customs ports of entry in New Brunswick by the Bureau of Provincial Information and Tourist Travel show that record numbers of tourists entered New Brunswick over the American holiday, while thousands more casual visitors entered New Brunswick that day than ever before on a Fourth of July.

At Richmond Road, the port of entry between Houlton, Me., and Woodstock, N.B., July 4th was the busiest day in the history of that Customs House. Long term tourists' permits were issued for 234 cars, as compared with 106 on July 4th, 1929. The number of long term

permits issued for American tourists' cars at the Canadian Customs House at the International Bridge between Calais, Me., and St. Stephen N. B. on July 4th, 1930 was 228, as compared with 139 on the same day last year. The July 4th, 1930 figures are only four behind the record for the St. Croix gateway, the biggest day in the history of the International Bridge Customs House, St. Stephen, being early in August 1929 when a total of 287 long term permits for American cars were issued. These figures show an increase of more than 100 per cent. over last year and point to the peak traffic of 1929, the first week in August, being equalled or exceeded early in July this year, which indicates the rapid growth of New Brunswick's tourist traffic.

FOXES

that are fed our rations as below recommended, invariably grow faster, larger, straighter legged, and in turn produce better pelts and make surer breeders. The proof of the pudding is in the eating. We invite you to come visit our ranch at Summerside and see for yourself.
