(Canadian Press Despatch.) LONDON, Sept. 8.—The beginning of a great battle in southeastern Rumania where the Russians have taken the offensive against the Bulgarians and Germans is reported in a Rome dispatch given out by the Wireless Press.

The struggle is now under way over the whole front in Dobruja between the Danube and the Black Sea. Fighting is particularly desperate near Baljok on the Black Sea coast about 10 miles north of the Bulgarian frontier. This information, the Wireless Press says, was received in Rome from Petrograd.

War Stimulates Fish Industry

(Canadian Press Despatch.) TORONTO, Sept. 8.—At the exhibition directors' luncheon, Hon. J. D. Hazen, referring to Canadian fisheries, said that the fisheries of Great Britain had been reduced to less than one-third their pre-war production. The fisheries of France have suffered to a great extent, but the industry of neutral European nations has been greatly stimulated, the fishermen receiving unheard of prices for their catches. This had resulted in the advantage of the industry here, and has given an opportunity that previously did not exist in the way of exporting. Consequently the past year has been a banner one, the value of fisheries being \$35,860,708, an increase of \$4,598,077 over last year. The Ontario increase was over \$600,000.

BULGARIAN TROOPS ARE EXHAUSTED

After Sacrificing 11,000 Men They are Now Digging Themselves In.

Bulgarians Admit They Have Met Verdun at Otrova.

(Special to the Guardian.) LONDON, Sept. 8.—A despatch from Saloniki says: Documents found on Bulgarian officers both slain and those made prisoners prove the overwhelming importance which the Bulgarian command attached to the offensive in Macedonia, especially the defeat of the Serbians who occupied the line on the western shore of Lake Ostrovo. A Serbian communication points out that far from achieving the Bulgarians after the sacrifice of nearly 11,000 men are too exhausted to make the least offensive movement and are digging themselves in.

MUTINY AMONG BULGARIANS.

(Canadian Press Despatch.) NEW YORK, N. Y., Sept. 8.—The Herald prints the following cable from Rome: An Athens despatch to the Tribune states that the fifty second Bulgarian regiment mutinied and was removed from the front and the leader was shot. The twelfth and thirteenth regiments, it is added, were overwhelmed by the Serbians near Ostrovo.

(Canadian Press Despatch.) BUCHAREST, Sept. 8.—(Mail Empire).—The Rumanian government is interneging German, Austrian and Turkish subjects in hotels and houses in the centres, where they would be placed in jeopardy by bombs dropped from aeroplanes. This action is taken to prevent air raids.

German General On Horns of Dilemma

(Canadian Press Despatch.) LONDON, Sept. 8.—G. H. Ferris, the Paris correspondent of The Chronicle, in discussing the Allied offensive on the Somme front says: "What is Hindenburg going to do about it? He is a bold fighter, and has almost dictatorial powers. With all the credit of his open quarrel with the Crown Prince, we are now bound to consider that youth's adventure against Verdun as virtually abandoned."

Kaiser Visiting ON SOMME FRONT

Tells His Soldiers to Die at Posts Rather Than Yield.

(Canadian Press Despatch.) LONDON, Sept. 8.—News reaches here from Paris that Emperor William is visiting in person the terrible struggle on the Somme. He has seen the French advance to within a few miles of Comblès, and the German communications, imperilled by General Michalo's drive, which resulted in the capture of two and a half miles of the railroad from Roye to Peronne. Heardened by the Emperor's presence, French troops have thrown their weight into the struggle in tremendous counter-blows which, however, have failed to win back for them any of the lost ground according to French official reports. "This battle," the Kaiser is reported to have said, "is vitally important. You must spare no effort to hold off the enemy and die at your posts rather than yield." At the same time the Emperor promised to send strong reinforcements to General Von Beulow, who has replaced General Von Gallwitz. The latter has been transferred further north to command the army facing Arras. Von Beulow led the left wing of Von Hindenburg's Russian drive and is one of the chief of "staffs" first appointments. "In fulfillment of the Kaiser's orders," fresh troops have been concentrated in large force for the defence of Comblès where the battle is raging at the highest pitch of fury. Other reinforcements were drafted from the Somme with the object of disengaging Chaumes. General Von Hartmann, who still commands the Germans from the Aisne to the Champagne, had to supply these fresh divisions. General Joffre has thus achieved the enormously important result of forcing the Germans to weaken their lines at various points of the western front in order to meet the great Somme and Verdun drives; and since this is one of the cardinal aims of the whole Allied strategy, the battle may be expected to have up this month on the thinned section of the German lines. That is why, from his headquarters at St. Quentin, Von Beulow is employing all available reserves in the defence of Chaumes.

GERMAN INITIATIVE LOST ON WEST FRONT

German Troops Under Personal Oversight of Kaiser Apparently Worn Out on Both Banks of the Somme. Important Events Expected in this Sector within Next Few Days.

(Canadian Press Despatch.) LONDON, September 8.—German counter-attacks on both banks of the Somme, directed against the important positions won by the French forces yesterday, have spent themselves. After a night of furious assaults the Kaiser's troops made no effort to charge to-day. The French curtains of fire precluded any such attempt.

The allied armies are ready for a new surge. Near Denicourt, the French made a gall charge today. The next thrust will be directed at Chaumes, from which Foch's line is now less than two-thirds of a mile away. The German lines of communications behind the Somme are now controlled entirely by the entente allies.

Against Comblès, too, a heavy blow will be struck without much delay. Despatches from the front say that the Kaiser himself is watching the use of this stronghold. In this sector the Germans attempted heavy counter-blows, but their only result was a large toll of losses.

As if to prove the completeness with which the initiative has now been wrested from the crown prince, the French troops struck again at Verdun. Before the attack was halted they had captured more than half a mile of the enemy's first line trenches in the Vaux wood.

British in Hand To Hand Fighting (Canadian Press Despatch.) LONDON, Sept. 8.—The official announcement follows: "Under cover of darkness the enemy made a counter-attack against our positions in Leuz Wood. After hand-to-hand fighting the enemy was driven back, leaving two officers and 17 men prisoners in our hands. The fighting at Ghinchy continues. There has been considerable artillery activity on both sides during the night, the moving the enemy used gas and lacrimators shells. East of Neuville, Sevast, the enemy exploded a mine. Yesterday evening we carried out a very effective bombardment of the enemy's trenches west of Leas."

ONTARIO FARMER CHARGED WITH MURDER

Said That He Was Tired Quarrelling With His Wife.

(Canadian Press Despatch.) OTTAWA, Ont., Sept. 8.—Alphonse Barre, a farmer residing at Rose Corner, near Casselman, Ontario, is under arrest there, charged with the murder of his wife early yesterday morning. He is alleged to have shot the woman while she lay in bed, and is said to have admitted his guilt to the authorities. After the shooting Barre walked two miles to a neighbouring village, where he entered the church and tolled the bell. He then walked back to his home and gave himself up to county police Chief Boisvineau, who had been summoned after the Barre children had given the alarm. The man is evidently in the deed that he was tired of quarrelling with his wife. The family were in good financial circumstances.

Now Ready for Winter's Work

READY FOR WINTER'S WORK—A most enjoyable banquet was held Thursday night in the Baptist School room. The object was to assemble the men of the congregation to discuss the organization of a men's Bible Class. There was a good attendance. Mr. J. P. Gordon, Supt. of the Sunday School, presided and proved himself to be an excellent master of ceremonies. After the dainty menu had been disposed of the programme of the evening was taken up. This included addresses by Rev. W. Williamson, secretary of the Maritime Baptist Sunday School Board, and Rev. C. R. Freeman; solo by Mr. Williamson and a quartette by members of the choir. After considerable discussion the organization was completed with the following officers: President, Dr. Yeo; Vice-President, C. R. Harper; Secretary, Professor Bennett; Treasurer, E. D. Sterns. These together with Messrs. S. R. Jenkins and J. A. Webster constitute the executive. The class will hold its first meeting on Sunday next and it is expected that they will have Rev. Mr. Freeman as teacher. They will not only study the Bible, but will engage in brotherhood work as well and there is no doubt but that much good will be accomplished through this agency, as the officers and members are both energetic and enthusiastic.

HOLLOWEG ADMITS U-BOAT FAILURE

Forced to This Confession by Demands for Return to Frightfulness.

(Canadian Press Despatch.) LONDON, Sept. 8.—A German message from Berlin says that the distribution about submarine warfare is now complete in official circles in Germany.

According to additional information received here from Berlin, the Imperial Chancellor has pointed out the failure of submarine warfare, not only at secret sittings of the Bundesrat, but to a considerable number of political leaders.

Attacks and criticisms by pan-Germans drove von Bethmann-Bellwig to this course. He was accused of slackness in abandoning unrestricted submarine warfare. The Chancellor, therefore, was obliged to prove that it was not his own will, but a failure of submarine operations which inspired his policy in this respect.

Definite information concerning the progress of Germany's losses in submarines now has been communicated to leaders of all parties and groups in the Reichstag, to the principal Berlin editors, and to the Berlin correspondents of some of the leading provincial papers.

Most recipients of this information including many who were formerly advocates of unlimited submarine warfare, rallied to the Chancellor's side and condemned his detractors. This, of course, was the object at which the Chancellor aimed in confessing the failure of submarine warfare.

A HUNTING TOUR TO WESTERN CANADA

Sir Charles Dalton Leaves this Morning for a Hunting Trip in Western Canada.

Sir Charles Dalton leaves this morning on a tour which promises a good deal of pleasure and interest. He leaves by Summerside for Moncton, where he will take passage by the T. C. R. to Quebec, thence by the Trans-Canada to Winnipeg. After a few days stay at Winnipeg, he will proceed to Saskatoon where his auto car, which was shipped previously awaits him. The car was built to order specially for this trip and is provided with cooking outfit and sleeping accommodation which will enable the party to spend practically all their time in the open. From Saskatoon he will go to Battleford where he will spend some days in duck and prairie chicken shooting. From Battleford he will go to Prince Albert for a few days for which season is noted, moose elk and deer abound and it is his intention to spend a few weeks there. From Prince Albert he will proceed to Edmonton where he will spend some days. Here, also, there is excellent shooting, wild geese, duck and prairie chicken being very abundant. Calgary will also be visited. Later he will go to Banff where he will spend his final few days. As the close of the shooting he proposes taking a trip to the Pacific Coast and will visit the principal points of interest in British Columbia. While in the West Sir Charles will investigate the fur conditions and the fur markets. He will also observe real estate conditions and will make himself familiar with the industrial and commercial life of the West. During his tour he proposes visiting all the Prince Edward Islanders he can find traces of, many of them being friends and former acquaintances. He expects to return in about two months and hopes to bring back with him many trophies of the chase. Mr. E. J. Rayner, also a born sportsman, will accompany Sir Charles on his tour, which promises to be an eventful and pleasant one.

STRICT CENSOR

(Canadian Press Despatch.) AMSTERDAM, via London, Sept. 7.—The Tages Zeitung, of Berlin, says that its naval expert, Count Ernest von Reventlow, has been forbidden to publish anything of any kind for the duration of the war without submitting it to the censor. The newspaper adds that this is equivalent to silencing Count Von Reventlow, who, in such conditions, would have to express not his own opinion but that of the censor.

Summary

LONDON, Sept. 8.—Rumania which entered the European war less than two weeks ago is now the scene of a great battle between Russian and Rumanian forces and the armies of the Central Powers. The southern part of Dobruja, J. or eastern Roumania, is the scene of the fighting ground. Opposing armies are engaged from the Black Sea to the Danube along a front of about seventy miles. Bulgarian and Turkish troops advanced along the Black Sea coast have occupied Baljok and its suburbs. Sofia reports the progress of Dobrich or Basardjik, fifty miles south-east of Bucharest has been taken by a combined Bulgarian and German force. The armies of the Central Powers have not yet crossed the Danube, but reports agree. The Rumanians continue their offensive in eastern Transylvania and have occupied the important town of Orsova on the Danube, above Irgotte. Advancing from Cisk Sheereba in Transylvania, the withdrawal of Austrian forces before attacks against Harghita. Russians on the northern end of the line near Riga have commenced a new undertaking and have crossed the Dvina north of Drinskud. Repeated efforts by the Germans to dislodge them, Petrograd declares, have been unsuccessful. In Eastern Galicia the Austrians and Germans are fighting desperately to hold back the Russians advancing on Halicz south-east of Lemberg. Petrograd says the Austro-German forces have fallen back to the western bank of Ghinta Lipa while Vienna asserts that the troops of the Central Powers are holding their own in the heavy fighting that is going on. A Russian attack against Solta positions on Solota, Lipa, southeast of Brzezany, failed with heavy losses, Berlin reports.

On the Somme front in France a violent bombardment continued along the almost entire lines. Only infantry engagements have taken place south of the river. The French report a further advance for their troops in the village of Vermandouillers, in Berry-en-Santerre, and Chaumes sectors where fighting was particularly vicious. Both Germans and French record successes for their armies in repulse of attacks.

There has been no infantry action on the front in Greek Macedonia but artillery duels have continued along the Struma in the region of Lake Dojran.
