MONTREAL, Sept. 22—Wheat, northern No 2 \$1.02. Oats, feed No 1 47. Barley, Canadian Western No 3 47. Bran, spring wheat patents, first \$6.00.

The Cakes Of Yester-Year

There are two things that have convinced me that the passion for novelty for novelty's sake is a danger to civilization. One of them is—I speak not as an expert but from hearsay, by the way—that some of the most beautiful wallpaper have been allowed to go "out of print," not because there is no demand for them, but because the manufacturers have a mistaken theory that what the public wants is novelties. On the result, the public is often given not what it wants, but what the manufacturer thinks it wants.

Tea In China

Chinese poetry reflected the joys of tea as early as the eighth century. About 760, Luwuh, now this side were more advanced. "Hard work and not being afraid to put big ideas into practice," is Miss Linway's successful recipe.

Fair Exhibits Nova Scotia's Sea-Harvest

LUNenburg, N. S., Sept. 20—(C.P.)—This month of fairs was ushered in here by an exhibition unique in Canada, the Fishermen's Exhibit and Annual Reunion when Lunenburg's men of the sea paraded their chief industry.

TORONTO YOUTH BANNISHED

ATLANTIC CITY, N. J., Sept. 22—A sentence of banishment was passed on Carr Hatch, 23-year-old student of Toronto, in Police Court here today.

WILLAM AGAINST HIGBROW IN ART

WINNIPEG, Sept. 22—Dr. Healey Willan, distinguished Toronto musician, distinguishes himself as a complete and wholesome tempter for them," he added.

Waste of Power Costs

"One of the peculiarities of the development of our Government and College extension services to agriculture was Professor L. G. Heimpel, MacDonald College, Que., told the Ontario Association of Agricultural Societies, "is the almost complete neglect of the question of farm power costs. The same is true of the development and design of new types of equipment. The manufacturer and farmer took care of their own power. It was the latter's responsibility to get a Government grant of experimentation." According to the 1931 Dominion decennial census there are 192,174 farms in Ontario, and figuring the horse-power cost at 12 1/2 cents horse-hour, or \$1.25 per day, the horse-power bill for the province would be \$39,529,000 annually. There are also 19,000 tractors in Ontario and the latter's neighborhood of 70 cents. Adding together the horse-power cost and that of tractors brings the total bill to nearly \$43,000,000 per year. Both mechanical and horse-power represent actual expenditures, and waste of power due to dilapidated condition of machinery causes losses which are just as real as those due to "low crop yields, or sales for lower than normal prices. It has been estimated by men who have made research studies of

Ability To See Comfortably

The object of a modern eye service is to enable patients to see comfortably. That means seeing without strain on the eyes. And also the avoidance of many bodily results of eye strain. That thought deserves the consideration of all who are not certain of the condition of their eyes.

G. F. Hutcheson.
