Even the most obstinate of constitutional humours, such as bad blood, scrofula, inherited and contagious humours, with loss of hair, glandular swellings, ulcers on patches in the throat and mouth, sore eyes, copper-coloured blotches, as well as boils, carbuncles, scurvy, sties, ulcers and sores arising from an impure or impoverished condition of the blood, yield to the Cuticura Treatment, when all other remedies fail.

And greater still, if possible, is the wonderful record of cures of torturing, disfiguring humours among infants and children. SETH LOW TURNED DOWN BY THE ELECTORS OF GREAT METROPOLIS

Who Rolled up a Plurality of 61,414 Votes Against Him—Grout is Comptroller and Fernes President of Board of Aldermen—Tammany's Men Carried Brooklyn and Every Borough Except Staten Island.

NEW YORK, November 3.—From the fall of darkness till long after midnight the Tenderloin was the scene of a noisy revel of rejoicing over the defeat of Low and the victory of Tammany. The victorious hum was commenced as soon as the bulletins appeared, and soon grew into a demonstration of delicious joy that the Tenderloin or the city itself has probably never seen. On Broadway and parts of Fifth, Sixth and Seventh avenues, the noise later became a roar that sounded like the crash of many batteries of artillery. In spite of the immense numbers the crowd was remarkably good-natured, and the arrests were very few. Over 300 policemen were distributed throughout the districts where the people were the most numerous. Bats, sky rockets and Roman candles sputtered and burst, emitting showers of silvery stars, which well matched the myriads in the sky.

ALL ONE WAY EXCEPT VOTERS.
New York, November 3.—After a remarkable campaign, in which there was united against him nearly all of the newspapers and practically every clergyman in the city, G. B. McClellan, 603 of the civil war general, was today elected mayor of Greater New York over Seth Low, fusion candidate, the present mayor, by a large plurality of about 61,414. Edward M. Grout was elected comptroller, and Chas. V. Fernes, president of the board of aldermen. These two men were originally on the fusion ticket and were endorsed by Tammany, whereupon the fusionists took their names from the Low ballots and nominated other candidates. In spite of this defection, however, McClellan, Grout and Fernes carried King's county. A surprise was the low vote for Wm. S. Devery former chief of police, who ran on an independent ticket, which was given practically no support. This result shows a tremendous change in public sentiment since Mayor Low's election two years ago, when he won by 31,632. At that time he carried all the boroughs but Queen's, his plurality in Manhattan and the Bronx being 5,663 in Brooklyn 26,767, and in Richmond 783. In Queens Shepard (Democrat) had a plurality of 561. Today (at 10 p. m.) McClellan had carried Manhattan and the Bronx by about 58,000, a gain of 63,000, Brooklyn by about 6,000 a gain of 31,000, and Queen's by about 5,000, a gain of more than 4,000. This makes a total net gain for McClellan of about 103,000 as compared with Shepard's vote of two years ago. Low carried only one borough—Richmond—by about 200 votes.

LOW AND TAMMANY MEN TALK.
New York, Nov. 3.—At 8.15 p. m. Mayor Low entered his office and to the newspaper men said that he was about to send the following to Colonel McClellan:—"I congratulate you on your election. If I can be of any service to you, pray command me."
(Signed.) SETH LOW.

The mayor thus said: "I think that the telegram sums up all that I have to say to night."
Colonel McClellan, who is at present a member of congress, made the following statement:—"I am deeply grateful to my fellow citizens for their confidence in me. I renew the promises which I made before election. This victory should encourage and unite all Democrats for the principal contest in 1904."
Charles F. Murphy the leader of Tammany Hall said:—"The figures speak for themselves and the people have spoken. Of course we are pleased at the result. It bears out the figures we gave. If the election had been a week further off, the chances are that Devery would have polled a larger vote than Low."
The campaign was one of the most interesting in the history of New York city.

NEW YORK, November 3.—At 1 o'clock Colonel McClellan received a telegram from United States Senator Foraker, of Ohio, which read: "As long as it must be a Democrat I am sincerely glad that you are the man."
Comptroller Grout gave out the following statement to-night, after the election of the Democratic ticket had been assured. "I never had a moment's doubt as to the result when party lines were drawn by my expulsion from the republican

tickets. When party lines are drawn in this city, and all the republicans are on one side and all the democrats on the other, as has been the case in this campaign.

New York, November 3.—"I'm out of politics for good," was the statement of William S. Devery to-night, after he had received the election returns.

St. JOHN, November 3.—The Salvation Army council opened to-day with a large attendance of officers from all over the maritime provinces.

CAMBRIDGE, Mass., Oct. 31.—In an intensely exciting and decidedly sensational football game Harvard defeated the Carlisle Indians today by the close score of 12 to 11. The Indians had an infinite variety of plays, they had fake kicks, and double and triple passes, and they had straight but new formations which were ground gainers; but the one play that will probably go down in football history as one of the most flagrant, and at the same time, cleverest "tricks" ever perpetrated was pulled off at the very beginning of the second half.

L. Moyné kicked off for Harvard in the second half, and the ball went high, to the seven-yard line, where Sheldon, of the Indians, received it. He did not run but stepped behind the whole Indian team, which seemed to be forming in a flying wedge. The Harvard men were down on it and to all appearances had stopped the ball just where it had been received. But while this heap of Carlisle and Harvard men were piling up, Dillon, of the Indians, was hurdling down the field all alone. It looked simply as though he was the advance interference, but the red men's trick was deeper than that. Dillon had taken the ball from Johnson and tucked it under the back of his sweater, and there it was bulging out behind as he dashed down the field for a touch down. Captain Marshall alone of all the crimson eleven seemed aware that something was up, and had any idea who had the ball. He gave chase, but caught Dillon only after he had crossed the goal line. Marshall, however, merely threw Dillon to the ground, and the Indian extricated the pigskin from its hiding place and scored a touchdown. Johnson kicked an easy goal, and the score stood 11 to 0 against the crimson. The Harvard men however then settled down and won out.

ONLY A SUGGESTION.
But it has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh forming food, like eggs, beef-steak, and cereals; in other words the kinds of food that make fish are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the food forming beef-steak and eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside, and make a regular practice of taking, after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural ptyptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every form of flesh forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredient.

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles because it is the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as in Great Britain at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous dyspeptic people, strong, plump and well.
