## THE BRITISH AND FRENCH CONSULS

### At St. John's and St. Pierre will Have Full Status Hereafter—Warships of Britain, France and America to Patrol Newfoundland Waters.

St. John's, N. E., April 11.—(Special).—The British Foreign Office has announced the appointment of Consul Hampton now at Koniah, Asiatic Turkey, as Consul of St. Pierre, Miquelon, under the terms of the Anglo-French Treaty of 1901. The French Consul at St. John's, hitherto unrecognized, has received his exequatur. It is announced that the British warships Cambrian, Scylla and Ringdove, and the French warships Lavoisier, Froude, Chasseloup and Labat, will be sent here during the coming summer to patrol the French Shore. It is also believed that several American warships will shortly arrive here owing to the prospect of friction between the Colonial Government, and American fishermen over the new Bond fishing bill and the rights granted under the treaty of 1818.

## DEER NUMEROUS IN PEEL RIVER COUNTRY

### Reports from Fort McPherson Police Say Winter There Has Been Mildest on Record

OTTAWA, April 9.—Reports and diaries up to as late a period as last January have been received from the Mounted Police detachment at Fort McPherson on Peel River, near the mouth of the Mackenzie River. The statement was made that Indians arriving from the upper part of Porcupine River reported a large quantity of deer in that country. For the last few years deer were very scarce there, but this year immense herds have been crossing the Porcupine and going in a southerly direction. Quite a few Peel River Indians were camped close to Fort McPherson this winter. They were unable to go to their usual hunting grounds as considerable sickness existed among them. There have been four deaths up to the date of the report. There were no white missionaries, but two native clergymen among them. Some Indians who went from Fort McPherson to the Yukon have returned stating that it is very hard for them to get a living around Dawson and they intend to remain with the tribe. Six white men are prospecting and trapping on the Porcupine River between Laperriere House and Rampart House. They have considerable fur, but no traces of gold have been found. The winter has been the mildest in the recollection of the aborigines for a great many years.

The weather continues mild.

## PROVINCIAL LEGISLATURE

Tuesday forenoon.  
House met at 12.15.  
The tender of Murley & Garnham for printing journals was accepted.  
The Premier reported that the delay in opening in the forenoon and the absence of a session in the afternoon were owing to the fact that both sides were deliberating on the winter communication resolution.  
Mr. Mathieson said the work referred to was perhaps the most important to come before the Legislature. The present is the most opportune time to press for a remedy for the wrong which now exists.  
A bill to amend an Act respecting the Legislature was read a third time and passed on a party division.  
The House went into committee of the whole with Mr. McWilliams in the chair on the standing Rules of the House which were in part agreed to. The remainder were allowed to stand over.  
The Reports of the Provincial Auditor on the Public Account, and of the Department of Public Works were laid on the table.  
House adjourned till the morning at ten o'clock.

## THE ROOT OF NEURALGIC HEAD-ACHE

Is an irritable condition of the nerves caused by cold. Relief comes quickly from Nerviline, the great pain reliever of today. "I consider Nerviline a magical remedy for neuralgia," writes Mrs. E. G. Harris of Baltimore. "But I never worry if Nerviline is in the house. A few applications never yet failed to kill the pain. I can also recommend Nerviline for stiffness, rheumatism and muscular pains." In use nearly fifty years; try Nerviline yourself.

## THE NOTE OF EXPANSION IS STILL PREDOMINANT

### In the North West Says Vice President Whyte of the C. P. R.—Volume of Immigration Large and Quality Grows Better—Dominion Steel Co. Issues More Bonds to Increase Capacity of its Plant.

MONTREAL, April 11.—(Special)—William Whyte of Winnipeg, second Vice President of the Canadian Pacific Railway is paying the city a flying visit. Mr. Whyte is much elated over the note of expansion which is still predominant through the west. "The volume of immigration," said Mr. Whyte, "will be well up to the figure at-

tained last year while the quality of immigrants will be much better. "This is especially true of those hailing from the British Isles who are this year coming over in increasing numbers. It was announced today that the Dominion Steel Co. would issue one million more of its second mortgage bonds. This means that the balance of the issue

of \$2,500,000 authorized Dec. 31st, 1900 will be paid up. It is expected that the Company is in a position now to use this money very advantageously and that the new money will go towards wholesale extensions. In fact the claim was made that the capacity of the plant could be increased about 40 percent.

## CAPTAIN SPAIN'S CRUEL TREATMENT

### Mrs. Spain Says She Left Her Husband Because She Wanted Peace and Quietness.

The New York Journal referring to the Spain-Salmon affair said: "Finally Mrs. Spain left her husband and came here to earn a livelihood. Captain Salmon resigned and said he was going to England by way of New York. He says that when he reached here his money was all gone and he searched for and found his friend Mrs. Spain, at whose house—a boarding house—he ate his meals, and it is charged, was known as Captain Spain. Mrs. Spain obtained and still holds a position as secretary in the Women's Christian Temperance Union. The fifteen-year-old son of the Spains corresponded regularly with his mother, Capt. Spain learned in this manner of Salmon's presence in New York.

He came here, and alleges that he discovered Dr. Fulton had paid the visit mentioned. Proceedings were at once begun, and the arrest followed.

Mrs. Spain said last night at her home, No. 151 Second avenue:

"I am horrified at the allegations of my husband. They are absolutely unfounded and malicious. Dr. Fulton never paid such a visit, and my relations with Captain Salmon have been merely friendly.

"Captain Spain treated me with the utmost harshness. He abused and berated me, and I finally had to leave him because he would give me no money to support myself.

"Captain Salmon remained in the city after his resignation, because he could get no funds to take him to England and maintain him until he got back to his old status. He took his meals here, as many others do. He never spent a night or day in my house and never acted otherwise than as an honorable and gentlemanly friend of a woman's husband should.

"I have been an invalid for years, and yet, Captain Spain has treated me as a man could not treat his wife if he were sincere. I have not sued him for divorce, because I want simply peace and quiet, and because of my son who is fifteen years old, and would realize the disgrace attaching to such a suit."

## NOT THE CLIMAX OF HUMAN WISDOM

### Says Minister Oliver of the Autonomy Bills—His Coming Election not a test of Public Opinion—But He is in Accord with Sir Wilfrid.

WINNIPEG, April 11.—(Special)—Hon. Frank Oliver, M. P., the new Minister of the Interior, reached the city to-day on his way from Ottawa to contest his bye-election. Mr. Oliver does not consider that his election will constitute a test of public

opinion on the separate school issue. He also admits that while he is in accord with the provisions of the Autonomy Bill as laid down in the measures submitted by Sir Wilfrid, "The Bills are not exactly as I would have drafted them, nor indeed are they the climax of human wisdom."

## IN MEMORIAM.

Lines on the death of Hattie P. Bryenton, Mayfield, Lot 23, died March 29th, 1905, aged 15 years and 7 months.

This sweet young girl of tender years has passed beyond the vale of tears and entered into rest. She was so pure in heart and mind No trace of guile could'er you find She's robed among the blest.

We miss her sweet and smiling face Her father wished in death to embrace And take with him above. But oh I we thank the God Most High! Christ suffers not the soul to die They're praising Him in love.

The widowed mother who is left Of her two daughters she's bereft Still trusting in God's grace. But oh I on that great judgment day When all her tears are wiped away She'll see them there to face.

The mission girls together meet For their great work must still go on But their treasurer miss. And still their prayers to Heaven ascend To Him their orphan sister's friend Now crowned in endless bliss.

We thank our God for such a life And also the triumphant death To this young angel given. For if we in this life shall be As faithful unto death as she We'll meet with her in Heaven. Carleton. A. L. M.
