WHY THE GENTLEMAN IS WANTED.

Notable change has taken place in American business methods within the last decade. Increasingly, men of large affairs are asking when a young man is recommended for a big job, "Is he a gentleman?" This is significant in two ways: it means that the big business men are themselves gentlemen and like to deal with men who talk their own language, and the American business methods have grown to be such that the gentleman has an advantage.

There was a time when a man who was a hustler could be a cad if he liked and he did not hurt his chances much, but that time has passed. The big business men of today want young men who are tactful, intelligent, independent yet unassuming; who would know how to talk to a diplomat, and be at home in a good club; who could be trusted to behave kindly, honorably and discreetly in any situation of life; who, in short, have as their ideal the old, never-changing ideal of the gentleman, in short, can work along the line of least resistance; and that is why he is wanted.— Selected.

For Style and Comfort

Invictus boots do not require any breaking in, they will not chafe, burn or squeak.

Our winter stock is now complete we can fit you with any style you may choose. Leathers shown are Gun Metal, Patent and Tan. Button and Lace Styles.

EASTERN PERSONALS

*Rev. E. E. Styles, Souris was a passenger from Charlottetown Tuesday.

*Miss Mildred Johnston, Souris left on Monday morning for a short vacation at her home in Kensington.

*Mrs. Henry Arsenault, Glenfanning, was a passenger by the evening train on Monday to Georgetown.—&

*Miss Hilda MacEwen, who has resided for the past six months in Moncton, returned to her home in Souris on Tuesday.

*Mr. Duncan McDonald, of Georgetown, was a passenger by the morning train on Monday to Charlottetown.—&

*Mr. Hiram Waterman, the well known hide and pelt buyer, of Charlottetown, was a passenger by the morning train to Cardigan Bridge on Monday.—&

*Mr. Charles Edward Manuel, of the 105th Highland Regiment who spent some days at his home in Georgetown last week, returned to Charlottetown on Monday.—&

*Mr. William McNulty, of the 105th Highland Regiment, who had been visiting at his home at Gasparaux, was a passenger by the morning train on Monday, returning to Charlottetown.—&

*Messrs. Austin McGilvary and John D. McMaster, of Glenfanning, are visiting friends in the Eastern part of the country. They left here for Souris early this week.—&

*The following are registered at the Cox Hotel, Souris, L. E. Distant, Halifax, S. A. MacLeod, Charlottetown; Geo. J. Lane, Charlottetown; J. H. Storer, H. Kelly, Charlottetown; I. Smita, Sackville; J. C. Donnel, Montreal.—&

*Mr. Clarence Aern left on Thursday morning for Halifax, where he will be attached to the Battery at Ives' Point. Artemas Paquet, arrived on Wednesday evening from Picton.—&

*Miss Bella McGilvary, of Glenfanning, was a passenger by the evening train on Monday to Georgetown, where she goes to take part in an interesting social event taking place there yesterday.—&

*Mr. A. J. McParlane, of McFarlane & Co., Annandale, was a passenger by the morning train to Charlottetown on Monday, on a business trip and also to attend the Burns Anniversary concert. He reports business good at Annandale this season.—&

CLAIM IT WAS USED AS AN OBSERVATION POST

BERLIN, Jan. 27.—The Cathedral at Nieuport, says the German official statement, issued this afternoon, has been destroyed by our artillery fire, as it was offering an excellent observation post.

Nieuport is a town of Belgium, ten miles southwest of Ostend. The Cathedral at Nieuport was built in the fifteenth century and restored in 1903. The church had a massive baroque tower. The roof of the church was made of modern timber. It contained a Gothic pulpit, renaissance choir stalls and roof loft and a sculptured altar in the baroque style of 1630.

WHY DR. JACKSON OBJECTS TO BRAN GEMS

They are as unbalanced as white flour. They have little nutrition. They irritate and cause catarrh of the bowels, a worse condition than the constipation they are intended to relieve. Dr. Jackson's Roman Meal is a bran—containing food, but it also contains deodorized flaxseed, whose soothing properties counteract the irritant effects of the bran. It makes delicious porridge, pan cakes, gems, cakes, and bread. It nourishes better than meat. It prevents indigestion and positively relieves constipation or money back. Ask your doctor. At all grocers, 10 cents and 25 cents. Made by Roman Meal Co., Toronto.

They are Using Keating's at the Front

Living in the trenches—sleeping on the ground—Officers and Men on active service use Keating's Powder for their bodily comfort.

Kills bugs and all kinds of objectionable insect life. A universal insecticide. Sold in Tins only, 10, 25, and 35 cents. Sole Agents for Canada: HAROLD F. RITCHIE & CO., LIMITED 10-12-14 McCaul St., Toronto, Ont.

*ONE CENT per word each insertion for advertising in this column. Cash must accompany order.

LT.-COL. F. M. GAUDET FOR NEW BRIGADE

MONTREAL, Jan. 27.—Should a French-Canadian Infantry Brigade be formed in the Montreal Division, it is understood that Lieut.-Col. F. M. Gaudet, now in command of the 22nd French-Canadians somewhere at the front, will be called back to the command of it as Brigadier General. No definite steps in this regard have as yet been taken since so far these are neither a French-Canadian brigade nor authority to form one, but the negotiations with headquarters at Ottawa have proceeded to such a point that it is believed the brigade is practically assured, and there has been some casting around for a suitable commanding officer.

While there are a number of senior officers in the division who would be quite willing to take command of the proposed brigade, it is stated that Lieut. Col. Gaudet is the logical, in fact, practically the only, choice for the command. He is the only French-Canadian officer of the rank who has actually led his battalion in active service during the present war, and every report from the front indicates that not only have the 22nd made a splendid record in the trenches, but that Lieut.-Col. Gaudet has shown himself a brilliant and capable commanding officer. Should he be recalled to take such an appointment, it would undoubtedly prove a great aid to recruiting among the French-Canadian battalions to form the brigade.

SOLDIERS FROM CANADA CHUMMY WITH ENGLISH.

LONDON, Jan. 27.—An interesting sidelight on the relations between Canadian and British soldiers is given by the following statement of a Canadian now on leave here.

Addressing your correspondent, he said: "We like to meet other colonials, and we like British Tommies when we meet them in hospital, as that's the only chance we get to know them.

"Before that it's different. They are ashamed like to be with us, because they haven't the same money in their pockets, but when we are in hospital together, they would give us their last cent, and we would do the same for them.

"I was in a British hospital wounded, last spring. I was all by myself—the only Canadian, and you would have thought I was a souvenir or curio. Presents just came pouring in—everything, even to a walking stick."

GERMANY MAY HAVE 17-INCH GUNS, BUT BRITAIN IS NOT WORRYING

LONDON, January 28.—A. J. Balfour, first lord of the admiralty, stated in the house of commons today, that the British government had no evidence that Germany possessed 17-inch guns, but that it was not impossible.

Mr. Balfour was asked to make a statement of such a nature as to assure the country of the navy's readiness to meet any development in the way of new ships or larger guns produced by Germany during the period of naval inactivity. He said: "What Germany is doing in the way of shipbuilding must necessarily be a matter of conjecture. No doubt it has been within her power to initiate during the course of the war, and perhaps complete, the building of large ships with powerful armament.

"I have seen in the press mention of guns of 17-inch calibre, but we have no evidence that such exist. But given the time and labor, there should be no difficulty in making them. The only serious objection may be made by ingenious persons but, speaking for myself, I am by no means sure that of these conjectures the 17-inch story is the most plausible.

"As regards the preparedness of the British navy, I can only say that the successive lords of the admiralty have most anxiously considered the method by which the building resources of this country can best be used. Speaking broadly it may be said that every dock yard, public or private, at home or in the Mediterranean, is being used either for new construction or for repairing requirements of our own and our allies. This being so, it is impossible to add to the magnitude of our preparations."

"The most we can do is to alter the character of the type of ship under construction, but nothing has yet occurred which would justify us in thinking that any serious error of judgment has been made, in connection with the type of ships under construction.

GERMANS LOST A CLEVER AIRMAN.

BERLIN, (wireless to Sayville) — January 27.—The two German air squadrons which shelled Nancy on Monday, as reported by the German headquarters' staff, dropped over 150 bombs on town and the fortress. The news agency adds:

"The German aviation corps laments in this connection, the loss of Lieutenant Boehme, who was several times cited in the headquarters' report. Lieutenant Boehme fell to the ground at Ensisheim, in Alsace. The aviator was instantly killed."

CAMPAIGN TO SAVE BABIES OF IRELAND

WASHINGTON, Jan. 27.—At a meeting here in honor of the Earl and Countess of Aberdeen, it was announced by Lady Aberdeen, in behalf of Lord Aberdeen and herself that they had begun a campaign to raise \$50,000 in the United States to help save Irish babies from starvation and lack of proper medical attention. The war and other causes had made the care of Irish babies imperative, if the race was to be perpetuated, said Lady Aberdeen. There was a tremendous infant mortality and a decreasing birth rate. The movement in this country, she said, would be under the auspices of the Women's National Health Association.

A letter from Cardinal Gibbons to Lady Aberdeen, endorsing the movement, was read at the meeting. Cardinal Gibbons says: "My dear Lady Aberdeen,—I am happy to learn of the great and good work which you have accomplished in Ireland, through co-operation with the Women's National Health Association, in combatting disease and therefore promoting the success and happiness of that beloved country. It is especially gratifying to know of the determined and successful efforts that have been made against tuberculosis, the toll of which is in so large measure in every country unheavily.

"I sincerely hope that your efforts to continue this successful work will meet with the most hearty response from all sides, and that the happy result of the future will even surpass those of the past.

"Praying God to bless this undertaking and all who support it, I am, very faithfully yours,

"J. CARD. GIBBONS." Lord and Lady Aberdeen will leave Washington in a few days to tour the Eastern and Southern States in the interest of the movement. They will go as far west as Chicago. It is expected that John D. Crammins will be chairman and treasurer of the Irish Babies Committee in New York.

READY TO DO HIS PART

During the revolutionary period in Paris in 1848, it is related, a committee of seven communists called at the Rothschild establishment and demanded to see the famous banker. Rothschild appeared as suave as you please.

"Pray be seated, gentlemen," said he; "and now what can I do for you?" "Rothschild," said the chairman of the committee, "our time has come at last. The people are triumphant—the commune is on top. The time has come when each must share equally with his fellow citizen. We have been delegated to call upon you and inform you that you must share your enormous wealth with your countrymen."

"If it is decreed," said Rothschild, urbanely, "I shall cheerfully comply. At how much is my fortune estimated?" "At two hundred millions of francs," replied the leader, boldly.

"And at what is the population of France estimated?" asked Rothschild. "We figure it at fifty millions," was the answer. "Well, then," said Rothschild, "it would appear that I owe each of my countrymen about four francs. Here, gentlemen," he continued, putting his hand in his pocket and producing a lot of silver, "here are twenty-eight francs for you. I have paid each of you, have I not? Please give me your receipt therefor; and I bid you good-day."

A Most Extraordinary Cure of Epileptic Fits

MOTHER HAD APPEALED TO THREE DOCTORS IN VAIN—CURED FOUR MONTHS AGO BY USE OF DR. CHASE'S NERVE FOOD

This letter from Mrs. Noxel is endorsed by Mr. H. J. Mahaffy, druggist, Port Colborne, Ont., as being true and correct. While it reports a most remarkable cure of epileptic fits by use of Dr. Chase's Nerve Food, it only goes to corroborate similar cures reported by others.

Mrs. Henrietta M. Noxel, R. R. No. 1, Humberstone, Ont., writes: "I cannot help writing to you, as I want you to know what a blessing Dr. Chase's Nerve Food and Kidney-Liver Pills have been to my boy. He was taken with very violent fits, would twitch all over, his eyes would turn towards his nose, his jaws set and his lips turn almost purple. He would clench his fists tightly, become unconscious and then go into a long sleep. After several hours he would wake up sighing and so weak he could not stand. I was afraid he would die and took him to the doctor, who pronounced his case epilepsy. As his medicine was not effective and the fits continued, I took him to another doctor at Port-Hill, but his medicine seemed to make him worse.

"As the boy's nerves were in such a state that he could not sit down or lie down, and the fits continued, I took

him to a third doctor, who said that he would not undertake to cure epilepsy, as no doctor could cure it. That night I went home very much discouraged, and when I took my dose of Dr. Chase's Nerve Food I gave my boy a dose, and that was the first night in weeks that he slept well. I kept on giving him the Nerve Food three times a day and occasionally a Kidney-Liver Pill to keep the kidneys and bowels active. I can, with a clear conscience, say that he has not had even one fit since beginning this treatment. I give him no other medicine. He looks and feels well, and as there have been no returns of the old trouble for four months, I believe he has been cured. I can never cease to be grateful to the manufacturers of these medicines, for I am sure I would have lost my boy if it had not been for Dr. Chase's Nerve Food."

Mr. H. J. Mahaffy, druggist, Port Colborne, Ont., writes: "This is to certify that I am acquainted with Mrs. Henrietta M. Noxel, and believe that the statement she has made in regard to Dr. Chase's Nerve Food is true and correct."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50 all dealers, or Ed-mundson, Bates & Co., Ltd., Toronto.

Fowl, per lb.	10 to 12	Oats, (white) per bus.	45

The HEINTZMAN Is Canada's Greatest Piano

There is only one best—there can only be one best among Canadian Pianos—and that best is the HEINTZMAN.

In tone, in touch, in finish of design the HEINTZMAN is Canada's greatest Piano. Not because Heintzman & Co. say so—but because we say so—but because such noted pianists as De Pachmann, Mark Hamburg, Adele Verne, Albert Jonas, Hyllestad Burmeister and Friedheim say so.

These world famed artists have tried every piano, everywhere and each has said: "I prefer the HEINTZMAN."

Heintzman Pianos are made to meet the requirements of people of discriminating musical tastes. Built to give the range; exquisitely even and well long and continued satisfaction under balanced from treble to bass. The all kinds of conditions—to stand up technical details are planned by excellent under the constant use of good, parts of long and successful experience and indifferent performers. And they have done this—they are doing it now—and they will do it to the end of a Heintzman Piano, time and trouble are secondary considerations.

If you are thinking about purchasing a Piano, be sure and hear the HEINTZMAN before making a selection.
