**AVIATOR KILLED**—The many friends of Mrs. Victor L. Dennis, Newton, Mass., daughter of Mr. and Mrs. Joseph Brown, Alberton will regret to hear that her husband has been killed in an aeroplane accident while training in Texas. Island papers please copy.

**THERE'S A REASON**—Yes, there is a reason why such a good job was made of those two lines of lishes on the ice from Pownal to Cherry Valley and Earncliffe last winter for the lishes were a good size, and on the right course and that reason is because the work was done by Mr. Wellington Young, Pownal, who is an expert at that kind of work.—Q.

**A GOOD EXAMPLE**—Are there any farmers in this Island who still adhere to an old practice common in some parts of the province in days gone by and that is letting the woman folk find the fuel for the stove during the summer months? If there are they should drive through Pownal and see the large stack of firewood in Mr. W. I. Young's yard. Five or six cord nicely sawed and split all ready for the stove. It is an example all farmers would do well to emulate.—Q.

**FUNERAL SERVICES**—The funeral of the late Mrs. Edward Coady took place yesterday morning at nine o'clock from her late residence Dorchester St. to St. Dunstan's Cathedral thence to R. C. Cemetery and was largely attended. The services at the Church were conducted by Rev. Maurice McDonald and at the grave by Rev. Wm. B. McDonald. The pallbearers were Messrs. James Egan, Joseph Ryan, L. J. Reddin, R. P. Madigan, John McKenna, John Murray. The spiritual and floral offerings were numerous and beautiful, showing the high esteem in which the deceased was held.

**EXCELLENT PUBLICATION**—The Quebec Telegraph has issued a "Unity and Confederation" Number which both in design and matter is a most creditable one. Unity is the keynote of the publication. Unity of sentiment and of effort between the provinces. On the first page of the cover is a beautiful art piece representing the sister provinces in friendly converse with Quebec and with each other while the hundred of more pages comprising the volume are also artistically illustrated. The edition gives much valuable information regarding the province and will make interesting, instructive and entertaining reading. The publishers have the Guardian's thanks for a much prized copy.

**MINARD'S LINIMENT Co., Limited**  
Gentlemen, I had my leg badly hurt, the pain was very severe and a large swelling came above the knee. I expected it would be serious. I rubbed it with MINARD'S LINIMENT, which stopped the pain and reduced the swelling very quickly. I cannot speak too highly of MINARD'S LINIMENT.

**A SERIOUS ACCIDENT**—While engaged in milking a cow last Wednesday Mrs. John Noy, Village Green sustained severe and serious injuries by being kicked and trampled on by the vicious animal. Several bones in her foot and face were broken. Dr. Dwyer was summoned by telephone, and is doing everything possible to afford relief to the aged sufferer.—Q.

There will be no Service in Russeton until Sunday, May 5th at 3 p. m.

**MOTOR VEHICLES**—Up to the present time a total of 301 motor vehicles have been registered in this Province. A total of 250 were registered up to this time last year. Quite a number of automobiles are running which have not yet registered. Markers will be forwarded for these on May 1st the day on which the season officially opens.

**THE GUARDIAN PUBLISHING CO., LTD.**—The adjourned annual meeting of the Island Guardian Publishing Co., Ltd., was held in the Company's Office yesterday afternoon. The President, Major Bartlett, in the chair. The chairman reported on behalf of the Directors, and the accounts for the year were submitted and adopted. The retiring directors were re-elected as follows—Major Bartlett, Sir Charles Dalton, Mr. W. H. Aitken, Mr. James Paton, M. L. A., and Hon. Senator McLean. At a subsequent meeting of Directors, Major Bartlett was re-elected President, and Mr. Paton Secretary.

**EARNSCLIFFE**—Mr. Matthias Prught, who has been doing the blacksmith work for many of the lot of farmers for the past twelve or fifteen years, has closed his shop, and henceforth will devote all his time to his farm work. Mr. Prught is one of the best blacksmiths in the province and it will be a great inconvenience for the Earncliffe farmers to be compelled to go to Pownal, Mill View or Vernon River Bridge to get their blacksmith work done. A blacksmith who would start a shop at say the valley and Cherry Point roads would find it a paying proposition, as that would be one of the best blacksmith stands in the country.—A Correction: The reprinting of one line, and the omission of two lines in the paragraph about the Cherry Valley Post Office in Friday's Guardian, rendered that issue of Earncliffe items uninteresting. It should have read: "One of the best kept post offices in the province is the one at Cherry Valley, kept by Mr. Joseph Sullivan, Mr. and Mrs. Sullivan are very faithful and conscientious in the performance of their duties; and their never failing courtesy and willingness to oblige is greatly appreciated by all the patrons of the office."—Mr. Leo H. Young walked from Mount Buchanan on the ice to Earncliffe Saturday on his way to Charlottetown.—It is late in the season for ice travelling here, and those farmers who used to talk so glibly in the days gone by about the old fashioned winter being a thing of the past in P. E. I. on account of the Gulf Stream changing its course it is up to them now to tell us, What put the Gulf Stream out of action last fall?—Pleased to learn that Mr. Roy Beers is rapidly recovering from his recent accident also, that Mr. Thomas Crane is much improved in health.—Q.

Our go-carts make baby's afternoon out one of continued pleasure both to the baby and mother. Call in and see the new styles. Patons Limited. 4749.

**The Simple "Why" of Pathe Superiority**

SOME articles achieve fame by their intrinsic merit as viewed by the public. Others by the pull and blow of their producers. The Pathephone success is as simple as it is sure. It is due to its being an improvement upon anything which has come before it or since.

The original Pathe Freres took the old-time talking machine and developed it until it is now the supreme achievement. Note these improvements: Instead of the old, scratchy, ever-changing steel needles—a genuine polished sapphire ball. Instead of a metal sound chamber—an all-wood one (on the violin principle). Instead of recording in narrow sound waves—a unique Pathe method with long broad sound waves, more contact, more tone, richer music. Instead of "varnished boxes"—handsome cabinets—in historic period designs. Instead of playing only one or two kinds of records, the Pathephone will play all makes of records.
