—I. O. D. E. RUMMAGE SALE—The Summerside Chapter of the I. O. D. E. held a very successful rummage sale on Saturday in the Ritz Hall and the sum of \$80 was realized. The money will be used to buy new books for the library.—S.

—SUCCESSFUL PANTRY SALE—The Girls' Club of the Presbyterian Church, Summerside, held a pantry sale in Messrs Sinclair and Stewart's rest-room on Saturday afternoon. The delicious cakes and other dainties, made by the girls were quickly disposed of and a neat sum was realized.—S.

—FIRST COMMUNION—Quite a number of girls and boys received their First Holy Communion in St. Paul's Church, Summerside, Saturday morning. Reverend Father John J. MacDonald officiating. The little girls in their white costumes and veils and the contrasting dark suits of the boys presented a beautiful and imposing spectacle as they knelt at the altar rail spotless in body and soul to receive their Lord for the first time, according to the Catholic belief. It was a touching scene which brought back recollections to the adult members of the congregation of their First Communion and what has passed since. The choir of St. Mary's Academy rendered beautiful and appropriate hymns during the service. The children were enrolled in Seapulars and also recited a pledge to refrain from intoxicating drinks till they reach the age of twenty years.—Z.

..*GOSH—You will have a real laugh at the three act comedy drama put on by the Oddfellows of Montague, Friday, May 23rd. 3345-5-19-21

..NOTICE TO CREAM PATRONS.—Mr. A. F. Campbell will haul cream by Motor Truck to Souris Creamery beginning Monday, May 26th through the following districts: Elmira, East Lake and Kingsboro to Souris. 3356-5-20-22-24-21.

has made arrangements for the storing of 4,000 tons of fertilizer, 2,500 at Charlottetown and 1,500 at Summerside in the fall. This fertilizer will be brought here by steamer just before navigation closes and will be distributed throughout the Island early in the New Year, mostly by the ice routes. This will enable the farmers to obtain it at a reasonable price. The 630 barrels, the first fertilizer to be brought in barrels to the Island, were ordered by Mr. McIvor, of Kinkora, for use on his own farm. Mr. McIvor finds this is a convenient way of buying it, as the barrels can be used to advantage in potato picking time. Captain Vrolijk, is charmed with the hospitality of the people of Summerside and is looking forward to visiting the many friends he has made here, again in the fall, when he hopes to get a charter for his ship to bring some more fertilizer to this port.

—Miss Marion Larkin of Summerside, spent the week end with Miss Annie McKay, of Freeland, Lot 11. —S.

..—A CARGO of Millers Creek Soft American Coal will reach here about May 23rd. Book your orders now as this is the time to buy at the lowest price. R. T. Holman, Limited. 3352-5-20-21.

KING COLE and KING COLE ORANGE PEKOE

Another king of another realm—
King Cole Coffee

..M&S—Although the regular schedule of games have not commenced on the golf course, quite a few enthusiastic players have been out for a try round the green. The club house is being fixed up very nicely, and everything is being got into readiness for the regular Saturday afternoon programs by the different committees of the Golf Club. The Tennis Club has also made a good start and have enlarged their courts this year. Quite a few members have been practicing and a tournament, it is expected, will be arranged with Charlottetown in the near future.—S.

..FERTILIZER ARRIVES—The S. S. Brunswick, Captain Vrolijk, which arrived in Summerside direct from Amsterdam, Holland, on Wednesday last with 52,000 bags and 630 barrels of fertilizer, sailed on Monday morning for Campbellton, N. B., to load lumber for the Western Coast of England. The Brunswick left Amsterdam on April 27th, and had an extremely rough passage across the Atlantic, with very heavy seas, which continually washed her beam ends and was four days over-due, but in spite of this not a pound of her cargo was damaged. She was the first ship to bring fertilizer to the Island from Holland. She is 1350 tons registered and carries a crew of 25. She has four hatches and has splendid facilities for loading and unloading, it only taking 49 hours to load her at Amsterdam and 3 1/2 days to unload her at Summerside. Mr. D. Udo de Bilt, Holland, who is a representative of the ship's owners, Messrs. Echarde and Deppers, (Wijklig) of Rotterdam, came over from Holland for the express purpose of superintending the unloading of the cargo. He is the first representative of any fertilizing company to come to Summerside to personally attend to the unloading of the cargo. He was determined that the fertilizer shipped by his firm should arrive in perfect condition. This fertilizer is manufactured in Holland and is packed in jute bags, weighing about 2 pounds apiece, which are exported direct from Bombay, India, to Rotterdam, thus, this fertilizer, manufactured by a Canadian firm in Holland, is brought to the Dominion of Canada in containers which are the product of another great Dominion of the British Empire. Not one bag was broken in transit and the splendid condition of the cargo on its arrival at Summerside, enables this firm to compete with any fertilizing firm from any part of the world. Pictures have been taken of the ship and the unloading of her cargoes; also pictures will be taken of the fertilizer as it is being hauled from the different stations to the farms and also of the potatoes while they are growing in the fields on which this fertilizer has been spread. These photos will appear in a booklet, which this firm is getting out this summer for distribution amongst the farmers. Whilst here, the agent, Mr. Perry,

BRINGING UP FATHER

—By George McManus

Rich... crisp... more nourishing because they're Shot from Guns

125 million explosions in every grain break open every food cell... give Puffed Grains the virtual nourishment of hot cooked cereals.

WHAT makes Puffed Grains so crisp... light and crunchy... delectably good to eat? They're different from all other cereals because they are "food shot from guns." Plump, meaty grains of wheat and rice are sealed in huge bronze guns. The guns are revolved in fiery ovens. Then fired. This causes 125 million explosions in every grain. It breaks open every tiny food cell. Thus Puffed Wheat and Puffed Rice become as completely digestible as though they had been cooked for hours. Hence virtually as nourishing as hot cooked cereals. In addition, the grains are puffed to 8 times normal size. They have all the buttery crunchiness of fresh toast. They taste like sweet new nut-meats. Delight your family with this splendid grain nourishment in this dainty, enticing form. Serve Puffed Grains for breakfast. As lunches for children. Toast them with butter to make a delicious, new kind of popcorn. Your grocer has Puffed Wheat and Puffed Rice. The Quaker Oats Company. 5755

Control of Currant Rust

Four applications of sulphur-dust at intervals of ten to fourteen days commencing when the leaves are about one-half inch in diameter has been found by the Division of Botany of the Dominion Department of Agriculture to be very effective in the

control of white-pine blister rust or black currants. This method was developed through three of field experimentation. It was found that the rust came from white pines to the currant bushes, appearing on the black currant leaves when a definite stage of development in the acospores of the white pine became apparent. While this treatment prevents defoliation of the currant bushes it is also found that there is sufficient inoculum left on the leaves to re-infect white pines.

Free from pimples!

What a relief it is to know that your skin can be free of pimples. Anoint it gently with CUTICURA OINTMENT, then wash off in a few minutes with CUTICURA SOAP and warm water. A very simple but satisfying treatment of pimples! The CUTICURA Treatment has been used for years in thousands of homes throughout the world.

Sold everywhere. Soap 25c. Ointment 25c. and 50c. Talcom 25c. Canadian Depot: J. T. Watt Company, Ltd., Montreal.
