ASEPTO makes clothes whiter, fresher, cleaner, than any soap can make them. Sterilizes everything it comes in contact with--is perfectly odorless. For washing clothes, bedding and various fabrics, dishes, pots and pans, use one tablespoonful of ASEPTO to water in the sink--and sink and drain pipes will be completely disinfected. Invaluable in cases of infectious diseases, as ASEPTO kills all disease germs present in the bedding and dishes used in the sick-room. ASEPTO costs but 5 cts. a package--but when compared with ordinary washing compounds ASEPTO would be dirt cheap at double the price.

ASEPTO has been analyzed by eminent physicians and found to be all we claim for it.
