BEAVER FLOUR

It is the prevailing supposition that all well-known brands of flour are about the same in quality and that one is just as good as another for baking.

This is entirely wrong. The baking qualities of any flour depend on the scientific blending of the classes of wheat used, and the skill and care exercised in its manufacture.

"Beaver Flour" is made from the choicest Ontario Winter Wheat, scientifically blended with Western Hard Wheat. It has all the good qualities of both in such proportions that it produces bakings of fine, even texture yet with body enough to be substantial.

The flavor produced by "Beaver Flour" is that rare, nutlike "home-made" taste, so much sought after by all who enjoy good things to eat.

"Beaver Flour" will improve your bakings. Try it! Sold by your grocer.
