and PRINCE COUNTY CHRONICLE

"TROUBLED WITH CONSTIPATION" FOR PAST 25 YEARS'

Then ALL-BRAN Brought Welcome Relief

Read this voluntary letter from Mr. Lecour: "I have been troubled with constipation for the past 25 years. I tried practically every cathartic without results.

"Recently, I determined to give Kellogg's ALL-BRAN a fair trial. Kellogg's ALL-BRAN has not only helped me, but I believe it is an actual relief for chronic constipation."—Mr. Henry E. Lecour. Address upon request.

"Due to insufficient 'bulk' in meals, Kellogg's ALL-BRAN provides 'bulk' to aid elimination. It also furnishes vitamin B and iron.

The "bulk" in ALL-BRAN is gentle—and safe for normal individuals. Often more effective than "bulk" in fruits and vegetables, as it does not break down within the body.

Isn't this natural food pleasanter than patent medicines? Just eat two table-spoonfuls daily. Chronic cases, with each meal. If not relieved, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Keep on the Sunny Side of Life

Both Wrong Say Members of Six Nations

(C. P. By Guardian's Special Wire) BRANTFORD, Ont., April 30.—The Smithsonian Institute of Washington and the Canadian Indian Affairs Department at Ottawa are both wrong in what they say about Indian chiefs, according to members of the Six Nations band on the reservation near here.

The Institute is wrong in its assertion that probably never was a real Indian chief in all America from the Arctic Circle to the Rio Grande. The Indians quote F. D. Reville's "History of Brant County," written before the hereditary council of chief was abolished by Canadian statute, and giving a complete description of tribal hierarchy.

The Canadian department, though right about chiefs in general, is wrong in designating Joseph Brant a hereditary chief. Those versed in the lore say he was only made a war chief as a courtesy title when he was invited to join the council. A third point the Indians dispute is the assertion that they had no constitution. While there was no written body of laws, the Iroquois confederacy, forerunner of the Six Nations, was founded and built on laws, and a constitution handed down verbally from generation to generation.

Don't fail to dig deeply. The deeper the soil is turned the better plants will grow.

RATION - HEXITE - CUBES

The Best Balanced Ration on the Market

Toasted Bread Crumb

—White and Whole-Wheat Raisin—

First quality bread, the same as handled by us last year. Very useful for lightening up your feed. Ranchers everywhere are becoming more conscious of the benefit of feeding bread.

Vermifuge and Burroughs-Wellcome Capsules

Safe and efficient worm exterminators.

P. H. POWDER

Keep your foxes in condition the year around. P. H. Powder is an animal conditioner and those who use it find it pays.

Dysol Disinfectant

This is the strongest and best disinfectant we could find. We wanted to handle the best and we have got it. You'll be surprised at the price and there's a reason. This disinfectant is thought by the manufacturers to be of too high a grade for ordinary disinfecting—it is made for use in the operating rooms of hospitals—but we know that nothing is too good for the fox rancher.

—MOTOR OIL, cup grease, gas engine packing and all motor boat fittings in stock at Brae's. L-5981-5-1-21.

—LADIES BOWLING—The ladies are still bowling at the Capital bowling alleys. Following is the standing: Leaping Lenas 1177, Gold Diggers 1014, high two Helen Montgomery 285, high single Helen Montgomery 161, Dizzy Dames 134, Benedictines 1093, high two Anne Linklater 396, high single 202.—S

—GIVES LECTURES IN SUMMERSIDE—Dr. Robert G. Jackson, lecturer of Toronto, gave two interesting addresses, on Monday, and Tuesday evenings in the High School Auditorium, Summerside, on "Natural Health Through Natural Living." Mr. A. E. MacLean, M. P., acted as chairman.—S

—SPECIAL PROGRAM—Members of Prince Edward Lodge, No. 22, I. O. O. F. had an enjoyable meeting on Natal Day. Cards, smoker and refreshments marked the occasion. Mr. Wilbur MacFarlane, N.C., presided. Short addresses by different members were given during the evening. S

—NEW INDUSTRY MAY COME—Mr. John W. Warren, who some years ago, was proprietor and operator of Kensington Sash and Door Factory, a complete building plant, has in mind the institution of a similar plant in Kensington. The erection of such will give employment to a large number of workmen and the operation of the various departments will require the services of many artisans. The material that Mr. Warren supplied to his many customers was ever prime, that which he used in fulfilling his contracts was AI, and the workmanship was ever approved. It may be asked why Mr. Warren did not remain abroad. All readers can see that prospects abroad do not appear to be as bright as one could wish, and Mr. Warren's prophetic vision is not diminished, and he can see a revival of business in his own province and he is one who will favorably assist in the stimulation. Kensington will most heartily bid him welcome, and the people of the Auxiliary and rural communities will easily recall the support that he gave progress when he did business in Kensington some years ago.—Y.

Miscouche Dramatic Club Present Play

There was a very large attendance at Miscouche hall on Friday evening to see "Always in Trouble," a farce-comedy presented by the Miscouche Dramatic Club. The play was under the direction of Mr. P. C. Martin who carried out the details in great style.

The players deserve much credit for the excellent manner in which they carried out their parts.

The audience showed their appreciation with hearty applause. The cast of characters is as follows: Misery Moon, a hoodooed clown; J. B. DesRoches; Tom Riske, as slick as a whistle; Martin DesRoches; Hiram Tait, an awful nut—Cecil Gaudet; Patrick Keller, a ticket-seller; Timon DesRoches; Clifton Blair, a millionaire; Regis Gaudet; Samantha Slade, a poor old maid—Margaret McMillan; Rosebud Reese, her charming niece—Gertrude McKinnon; Marie Polier; Lulu Pearl, a ragtime girl; Yvonne Poirier.

A railroad station in Slabtown, Missouri. P. C. Martin—Director.

FISHERIES SHOW GREATER VALUE

(By The Canadian Press) ST. STEPHEN, N. B., April 30.—Value of the commercial fisheries of District No. 1 in New Brunswick last year showed an increase of almost \$600,000 over 1933. John F. Calder, of Welchpool, told a service club here. Mr. Calder, is supervisor of fisheries for the district, which includes the counties of Charlotte, Saint John and Albert and the Bay of Fundy watershed of Westmorland County.

In an average year Charlotte County produces more than 90 per cent of the fisheries' total value in this district. Mr. Calder said. The commercial fisheries of District No. 1 in 1933 were worth \$1,320,836 and in 1934, \$1,924,952. Charlotte County offered a good opportunity for the establishment of three large plants to can surplus catches of ground fish, stated the official.

Study early, late, and midseason vegetables in your planting plans for succession.

Death Sentence Appeal Is Turned Down

(A. F. By Guardian's Special Wire) ALBANY, April 30.—Forty Eva lost her last court plea today to escape the electric chair for the zarre insurance murder of a applied handyman, Harry Wright, in a bat-infested Allegheny foothill near Onondaga, N. Y., last June. The court of appeals upheld the first degree murder conviction of the 46-year-old Otsego County roadhouse proprietor.

Principal keeper John Sheehy notified Mrs. Eva in Sing Sing prison that the ruling was unfavorable, carrying to her a note written informally by Warden E. Lawes. Mrs. Eva, a native of Halliburton, Ont., read the message and called to a matron:

"What do you think? I've been turned down."

The 14-word decision of New York State's highest court left but one hope for the condemned woman. In New York State further court appeal has never been taken by a condemned murderer. It is customary for the governor to call a hearing for condemned persons within 15 days after the court acts.

The court of appeals disclosed it would sign the death warrant tomorrow and fix the date of execution.

WENT TO HEAD

Stephen Rosetta, 23, Boston air novice, learned how not to land an airplane as he was having his first solo flight, when he came down headfirst. He was injured, the aeroplane nearly so.

PIED PIPERS PLEASE APPLY (By The Canadian Press) SAINT JOHN, N. B., April 30.—Ferrets are being sold in the city by a "rat" man, and one of the weasel-like animals is lonesome because his partner was killed by 12-inch rats which reversed the ordered scheme of slaughter.

Saint John ratom seems to have become centred in the vicinity of the market building. The public enemies, some larger than ordinary cats, hold nightly and leisurely banquets on green dainties and southern fruits. Also partial to walnuts, they ate through a case in order to complete their dinner. Two traps near a rat hole yielded 50 captives in two weeks.

Canadians In U. S. Mail Fraud (WASHINGTON, April 30)—The largest fraud order in the history of the post office department was issued today when a ban against using the United States mail was placed on 412 persons and firms connected with the operation of lotteries and sweepstakes in foreign countries.

The order includes the names of 358 Canadians, 27 in Havana, Cuba, and 27 in the Irish Free State. Of the Canadians, 296 are located in Montreal, 28 in Ottawa, 21 at Sherbrooke, Que., eight at Hull, Que., two at St. Gabriel de Brandon, Que., and one each at Woodroffe, Ont., Ville la Salle, Que., and Notre Dame de Grace, Que.

HOLMANS BOTH STORES

gives Reasons For Dropping Fraud Charges

(C. P. By Guardian's Special Wire) MONTREAL, April 30.—Charges facing residents of the Maritime Provinces of conspiracy to defraud the Dominion Government of \$5,000,000 through liquor smuggling were dropped because of doubt of jurisprudence and also because of expense. J. J. Penverne, K.C., Crown prosecutor, declared today as preliminary hearing of eight men on similar charges continued.

The case is expected to close within two or three days.

Those being tried are the four Brantford brothers, Sam, Allan, Harry and Abe, Barney Aaron, F. S. Blair and David Costley, all of Montreal, and William Yule, Halifax.

Increase In Cattle Export Anticipated

(C. P. By Guardian's Special Wire) OTTAWA, April 30.—Department of Agriculture officials were optimistic today an increase in the number of Canadian dairy cattle exported to the United States as a result of an agreement between the two countries governing tuberculosis areas.

Under the agreement both countries will accept cattle originating in areas where tuberculosis infection is one-half of one per cent or less. Although it applies to both countries, Canada is expected to gain most of the benefit because there has been a steady demand for pure-bred cattle in the United States for six months and a considerable trade already has developed.

The agreement with Washington will not affect regulations prescribed by states. For instance, New York demands cattle free from brucella and this regulation must be observed when shipping into that state.

Hepburn Seeks Federal Aid In Relief

(C. P. By Guardian's Special Wire) TORONTO, April 30.—The Ontario Government has wired federal authorities at Ottawa for a conference in view of the "acute" situation that developed in Northern Ontario through closing of Northern Ontario relief camps by the provincial government. Premier Mitchell F. Hepburn announced today.

"We have been trying to shoulder the whole burden of relief," said Mr. Hepburn. "The federal government signed no agreement regarding the trans-Canada highway and we are not financially able to go on with the work until the Federal government makes a contribution."

Reports from the north told of closing camps at Sudbury and Sault Ste. Marie throwing 800 men out of work. Mr. Hepburn today said some of these were settlers and were being sent back to their farms so they could put in the season's crop.

Later, however, camps near Port Arthur were closed and 1,000 men were put out of work. The Premier confirmed the report of the camp being closed and said more would likely follow.

THE WORLD'S MOST IDYLIC ISLE

On a Pacific Island two miles long and one mile wide, the world's greatest eugenics experiment is taking place. Out of two races, a third race is being born.

One hundred forty-six years ago a mutineer lookout man on the commandeered British ship Bounty, set up a shout of "Land ho!" Fletcher Christian, lieutenant in the navy of George III, led his men ashore on to the semi-tropical paradise that was named Pitcairn Island. There were nine Englishmen and twelve Tahitian women.

From this group there have been 1,000 descendants, most of whom have migrated to other islands. The remaining 200 live an idyllic simple life close to nature on Pitcairn Island. They have become closely inbred throughout the years and everyone on the island is related at least a cousin. The inbreeding has done no observable harm. A new white race is being evolved from the fusion of the white race and the polyynes. The offspring are healthy and happy folk, bright and intelligent. They speak a mixture of English and Tahitian.

Head of the island's semi-communistic government is Parkin Christian (INSET ABOVE), great-grandson of the founder.

These pictures were taken by the Thompson-Crocker - American Museum Pacific expedition on the two-masted schooner Zaca. They show (TOP), three large row boats at the landing place in Bounty Bay. They are the common property of the community and are well filled when they go out to greet the seldom-anchored visiting mail ships. (LOWER RIGHT), women and children of the island sitting on benches near the town hall.

BRINGING UP FATHER
