A FACT

You never heard of a man changing Hickey's Tobacco for another brand, certainly not, but you heard him say that once he tried HICKEY'S TWIST, that he would never use any other kind. He likes.

Hickey's Tobacco

because it has the quality, flavor, that no other brand has. He does not like a tobacco that crumbles, that's why he uses HICKEY'S.

Prize Essay Competition

The attention of the school children of this Province is called to the Prize Essay Competition offered in this issue by Hyndman and Co., Ltd., the well known Insurance firm of this city, and the Provincial Managers of the Great-West Life Assurance Co.

In some of the other provinces of Canada the subject of "Life Insurance" is now included in the school and college course, in recognition of the importance it bears in the life of the home and the community.

During the war it was brought home to citizens all over the British Empire, as never before, the value of the great institution of Life Insurance, not only in its protection and support of those who lost their bread-winner, but also by the important part the Life Insurance Companies played in the immense assistance they were able to give to families in financing their needs overseas and at home.

As a result, Life Insurance has become extremely popular and the business of all good companies is fast increasing.

In addition to the protection afforded dependents, it affords a desirable means of making provision to support men and women in old age. It plays also an important part today in the commercial world and some of the biggest policies in existence are held by successful and wealthy business men as a protection to the firm in event of death. One of the most important factors today, however, is the great encouragement and opportunity offered young people to save surplus money and thus learn the advantage of thrift.
