Sales On New York Stock Market Lowest Of Week

NEW YORK, April 7—(AP)—A mid-day selling thrust put the stock market in the minus column today.

Final prices were down fractions to more than a point. Trading volume expanded slightly on the way down. The same selective buying which has been present all week helped to steady the market.

Despite the mid-session pick-up in activity, the day's sales amounted to only 84,000 shares, smallest for the week. Business Wednesday totalled 930,000 shares.

The Associated Press average of 60 stocks dipped 2 of one point to 63.6. The railroad component held unchanged but the industrial and utility groups tipped lower.

Pittsburgh Steel 5 per cent Preferred "B" stepped out of the price rut with a 15 1/2-point spin downward to 135 on sale of 30 shares. It was the first transaction since February.

Several utility stocks moved against the trend, including Columbia Gas which gained 1-8 at 11 3/4. The issue was evidently helped by news of a change in the company's dividend policy.

Canadian issues were lower. Dome Mines dropped 3-8. Canadian Pacific was down 1-4. Distillers Seagrams and Hiram Walker both eased 1-8.

At Toronto

TORONTO, April 7—(CP)—Golds lost a large part of gains chalked up in two previous sessions as a wide list of junior and senior producers slipped steadily lower in today's moderately active session on the Toronto Stock Exchange.

Trading was the slowest this week. Base metals slipped quietly and western oils bucked selling pressure to move into lower ground.

Senior golds opened stronger but soon backed down as trading slackened. McIntyre touched a new top at 60, up 1-4, holding the advantage all day while Lake Shore, Dome, Kerr Addison and Hollinger lost fractions.

Losses more than doubled gains in the juniors. Lapska attracted considerable attention in the smaller juniors for a mild advance.

Base metals reacted in the face of another cut in lead. New Calumet was the only issue to show a gain, adding two cents. Consolidated Smelters was down to a new low and White Amulet, Hudson Bay, International Nickel and Quemont were among the losers.

Okalta, leader when western oils were in an upward movement, led the list steadily lower today. The stock lost 20 cents at \$2.25 in active dealings. Anglo-Canadian, Royalite, Calgary and Edmonton and Pacific Petroleum were also easier.

The exchange's closing index showed gains down 4.13 at 93.98, base metals down 44 at 93.49, western oils down 35 at 49.88, Golds listed 30 gains, 71 losses, 15 unchanged; base metals, 1 gain, 19 losses, 7 unchanged; western oils, 5 gains, 10 losses, 6 unchanged.

At Montreal

MONTREAL, April 7—(CP)—Securities generally eased slightly in light dealings on the Montreal stock exchange and curb market today.

Mines were fairly active but slipped a few pennies each. Price adjustments were few fractions in most cases, but a few leaders moved in a wider range.

Winnipeg Electric, with 7,534 shares turned over, jumped to an all-time high of 37, up 2 7/8 points from the previous close.

Rumors that negotiations between the Midwestern Power Company and the City of Winnipeg were approaching a favorable understanding were said to have sparked the trade in the utility issue.

It had been announced previously that the City of Winnipeg planned to take over the company's power, gas and transportation system.

Power Corporation, which holds a substantial block of Winnipeg Electric shares, jumped one point to 16 1/2. Other fractional gainers were Bell, up 1-8 at 41 5/8 and Saguenay Preferred up 1-4 at 103 1/4.

Senior oils moved on a soft decline, with Imperial Oil International Petroleum and McColl down 1-4 or a shade each.

Okalta dropped 22 cents in west-erns.

DON'T JUST BUY CHICKS

BUY PRODUCTION

Other things being equal, price usually represents value. It is not the price of the chick that will make or lose money for the poultryman but the production of the flock. Why walk in the tail of the procession when you can ride in the Band wagon? Ellis Crossbred Chicks are the product of years of effort and money spent to improve this laying strain.
