KILLED FIVE WOUNDED THREE

(Canadian Press.) AGUASCALIE, New Mexico, May 18.—John Walker, a British mine owner and his wife, fighting shoulder to shoulder, killed five and wounded three men out of a band of eleven employees at the mine near Villa Garcia Zoelaeaca. Mr. and Mrs. Walker reached here today under a guard of troops. The trouble started when the men attacked Walker because he was unable to raise money to pay the wages of the men. The attackers used knives and clubs and Walker was seriously cut and beaten before he opened fire with an automatic revolver. Mrs. Walker with a rifle reinforced her husband. After the battle Walker and his wife escaped finally reaching this city under a guard of troops which were sent to meet them.

NOTORIOUS CROOK

MONTREAL, May 16.—William Connors, alias Barret, alias Taylor, alias Smith, alias MacCormick, said to be one of the cleverest pickpockets on the country, was taken into custody by Detective Lepage at the Bonaventure station today. Connors, who is a former pal of "Big Lem" Strossider, captured here a couple of months ago by Inspector Cowan, and who was taken back to Chicago, where he was wanted on a charge of obtaining \$20,000 by false pretences, was caught as he stepped from a train from New York.

CHARLOTTETOWN SUMMER RESORTS PARADISE FOR SUMMER TOURISTS

It is now generally realized that, will be rented at lower rates to local people. Besides this, sites have already been leased to local people who will build their own cottages and it is expected there will be quite a number of these. Arrangements are also being made to provide a number of canvas tents, nicely floored, to be let by the day or week to those who wish to spend a short time in the Resorts. These of course will be provided only on application and already quite a number have been applied for. A dining hall is being built with prospective feeding accommodation for 50 to 100 guests daily and ten suites of rooms are being provided for the accommodation of transient visitors.

From this it will be seen that the Resorts for this summer will be able to accommodate a large number of visitors, temporarily at least, while an early application will ensure excellent accommodation for the whole season. The company will install an electric light plant sufficient to light up the whole colony; there is an excellent water supply and a thorough system of sanitation is being arranged for. For the detection of sightseers a tower will be built on one of the highest elevations on the property from which splendid views will be obtained of the whole surrounding country, the harbor, the rivers, the straits and the Nova Scotia hills in the distance. A more ideal spot in which to spend the summer, or a part of it, it would be difficult to find on the continent. Retaining all the characteristics of the country—forest, grassy fields, shorefront with bathing, clam-digging, boating, etc.; an enchanting view of the harbor with its ships, steamers and motor boats; loops of river, like lakes nestling among the distant hills; the clean and invigorating tang of the sea mingling with the breath of the clover fields and the meadows, and all within fifteen minutes pleasant sail of Charlottetown which, if need be, can be reached at any hour in the comfortable ferryboat Hillsborough. What more could the weary city-dweller look for, or how better shake off the mental and physical weariness that follows months of hard toil? The Summer Resorts will unquestionably be the fashion this summer, and it present prospects are to be relied upon, all who can get away from the grind of daily toil will spend at least a part of the summer there.

KING OF SERBIA'S SON NOT ENGAGED

BELGRADE, Servia, May 17.—The semi-official news agency here is authorized to declare that the report published by the London Daily Express in a despatch from Florence of the engagement of Prince Arsene Karageorgewitch, the son of King Peter, of Servia, to Mrs. Hugo Pratt, formerly of New York, is an invention. Prince Arsene, it adds, is with the Servian troops in the field.

SALEM, Mass., May 16.—Mrs. Jessie M. Chapman, of Lynn, who shot and killed Mrs. Eva Ingalls, because she said her neighbor had slandered her, today pleaded guilty to murder in the second degree, and was sentenced to life imprisonment at the reformatory for women at Sherborn. Mrs. Chapman, who is 46 years of age, armed with a revolver followed her victim on the street for several blocks and then fired five bullets into her. When arrested she said: "I just had to do it."

POSES FOR DEAD MOTHER

KANSAS CITY, Mo., May 17.—When James Conannon, twenty-five years old, left here for his home near Levee, Kan., he was happy in the possession of a painted canvas from which beamed the features of his mother as she looked before death, an artistic triumph made possible by his intense filial devotion and his remarkable resemblance to his parent. When Conannon's mother, seventy years old, died last August, he was distressed because a dim old photograph was the only likeness of her that he had. He longed for a large painting showing her as she appeared in life. Realizing how similar were his own features to hers, he consulted a local artist to learn whether a life-like picture of his mother could be made from the photograph and himself. He was told that the painting could be made for \$50. He labored on a farm seven months and saved the required amount. Then he came here and the sittings started.

HALIFAX STRIKE STILL UNSETTLED SERVICE IS PARALYZED

(Special to The Guardian) HALIFAX, May 18.—The tramway service is at a standstill to-day as yesterday except that the two cars left on the street after Friday's riot were taken to the barns Saturday afternoon. Saturday afternoon the men, through the City Clerk sent an offer to the company to return to work on the provision that there be no discrimination against them and that the question of wages be submitted to arbitration. The company replied that they would receive applications from motormen and conductors and that pay would be the same as in Montreal, which is the highest in eastern Canada. Preference would be given to old employees. This letter was submitted to the men, who indignantly declined it. The rate proposed is 11 to 2 cents higher than in Halifax. The company propose to send out five cars in the morning with police protection, if it can be obtained. If it proves necessary two policemen will be placed on each car.

JUDGE SCORES DOCTOR'S BILLS

MONTREAL, May 17.—Physicians, lawyers, notaries and other professional gentlemen, were scored by Judge Lobouff, in the course of the hearing of a case which occupied the attention of the Circuit Court for a considerable time yesterday. Judging by His Lordship's expression of opinion, those who have occasion to enter into consultation with the above named classes of professional advisers, do not always have occasion to felicitate themselves, when they receive the bills sent in by those whom they have consulted. In fact, His Lordship, citing a personal experience, became quite wrathful over the matter. "Can I denounce in sufficiently strong terms," he said, "that system followed by professional men in submitting accounts to their clients. On these communications we ever read 'for professional services,' with no state-ment as to what the services were, no details, nothing but 'professional services.' Hence the recipient of such orders is often at a loss to find out just what were the 'professional services' rendered—and I say that they generally remain at a loss to find out. I myself, some time ago, happened to receive a bill from a physician—one of my good friends. He billed me for \$85. I was surprised at the amount. I could not make it out. So finally I said to him 'See here my good friend, give me details. You say 'professional services.' I want to know what those 'professional services' were. Give me dates of such services. Tell me the nature of such services.' My good friend complying with my request sent me a detailed bill or account. Would you believe me, when I say that he had quite a few itemized entries dated a certain month—and the interesting part of it all, is that during that particular month I was away in Europe, and hence could not have had any consultations with him. The system is bad, excessively bad. I look askance on all accounts entitled 'professional services.' Give us details every time. The other system is bad, bad, excessively bad."

LATEST VISITOR FROM INTER-STAR

CAMBRIDGE, Mass., May 17.—The Schuamasse comet, the latest visitor from the inter-stellar regions, is rather disappointing to the ordinary star gazer, according to a report of observations received at the Harvard Observatory today. Professor Barnard, of the Yerkes Observatory at Chicago, has been unable to find any semblance of the usual fiery appendage, commonly known as the tail, while the comet's illumination powers have reached only the tenth magnitude. Astronomers hope that the Schuamasse comet's brilliancy will increase in the course of the next few weeks.

WAR THREATENS IN NEAR EAST

(Canadian Press.) COLOGNE, May 18.—That a Serbia-Bulgaria conflict is inevitable should Serbia persist in her demand for a revision of the Anti-bellum treaty between these countries in regard to the division of the spoils of war, and if Serbia does not submit to Prussian arbitration the question of the districts left open by the same treaty, is the opinion expressed in a despatch received by the Cologne Gazette today from its Sofia correspondent. The correspondent says he reached this conclusion after interviewing several Bulgarian ministers and party leaders. Concluding, he says Bulgaria will not hesitate to conclude an arrangement with Austria if such would serve her ends. The anti-Servian sentiment is very strong in Bulgaria and is increasing hourly. The war, if it comes, will be a bitter one. LONDON, May 17.—Eighty millions of dollars is the size of the war indemnity which will be demanded from Turkey by the Balkan allies. This statement was made today by Ter-dorff, the Bulgarian Minister of Finance, who has just arrived here to attend a meeting of an international commission which will settle the financial issues arising from the Balkan war. Originally the allies demanded \$300,000,000.

THOMPSON MYSTERY

LONDON, May 17.—Enquiries at Milan show that no clearer identification of the young lady who took a fatal dose of morphia has been revealed than that she is believed to be Mabel Thompson, of Toronto. Secretary Griffith, of the High Commissioner's office, informed the Canadian Press today that the meagre particulars available have been sent to the Secretary of State at Ottawa and nothing further had been heard from any quarter.

The average daily output in April was 102,077 cubic yards against 100,993 cubic yards in March. Concrete laid during April totaled 55,785 cubic yards, against 58,769 yards in March. Increased rainfall accounts for the decrease in some branches of the work in April.

MANY HURT AS BULLETS FLY IN PATTERSON RIOT

PATERSON, N. J., May 17.—In the worst riot which has marked the Paterson silk mill strike, 100 shots were fired today, half a dozen persons were injured and twenty arrests were made. The prisoners were strike pickets, nearly half of them being Italian women. A heavy guard is being maintained about the courthouse in consequence of reports that the strikers had succeeded in planting dynamite there.

JUDGE TRIES TO RECONCILE COUPLE

WORCESTER, May 17.—When Judge Ratigan in the District Court tried to effect a reconciliation between Susie Sherwood, who was seeking a divorce, and her husband, John H. Sherwood, of Athol, the wife exclaimed, "I'll live with him if I can be happy, but he won't allow my son to speak to me." The court said he would hold up the case for a while to see if Sherwood and his wife couldn't become reconciled.

PHILADELPHIA, May 17.—Many vessels are being delayed at this port in loading and discharging their cargoes, because of a strike of longshoremen, which began Wednesday. The strikers who are not organized, have recruited their ranks until it is estimated that more than one thousand men are now idle.

BLIND EARL WAS ROBBED

LONDON, May 17.—The fact that the City police do not take any notice of telephoned complaints has made the earl of Dysart very angry. His gold repeater was stolen to-day in a crowd around the Bank of England. The Earl immediately went to a telephone and called up Scotland Yard. He gave a description of the man who was near him, but was balked by the curt reply that he must appear personally at headquarters and make his complaint. The Earl is 63 years of age and blind and does not like taxicabs, which he regards as unsafe in the city. He travelled in a democratic motor bus. On alighting he found that the chain had been clipped from his watch and that the timepiece, which was a family heirloom and 150 years old, was gone. The police justify their action on the ground that they have been hoaxed on many previous occasions of this kind.

SERIOUS FLOODS IN AUSTRALIA GREAT DAMAGE DONE

(Canadian Press) MONTREAL, May 18.—A special to the Star from Sydney, N. S. W. says: Devastating floods are sweeping Queensland as a result of torrents of rains for the past 72 hours. Premier Fisher of Australia is floodbound at New Castle but according to advices from the north he is in no danger. An inland sea ten miles wide has been formed at Singleton. Tremendous damage is being done stocks and crops—Many localities are cut off. It is not known how great the loss of life will be.

NO COMPROMISES ON TARIFF SAYS PRESIDENT

WASHINGTON, May 17.—President Wilson came out strongly Thursday as the champion of free wool and free sugar in three years as provided for in the Tariff Bill, recently passed in the House. He announced emphatically that he was not considering compromises of any sort, that he stood squarely behind the measure as it passed the House, and that he regarded it as the duty of the Democratic majority in the Senate to fulfill its platform pledge by enacting the House bill into law. "I am not the kind," said the President, "that considers compromises when I once take a position. I have taken my stand with the House leaders for the present bill. Through said, 'I am not looking for or accepting compromises.'"

REGINA BOYS TO BEGIN GARDENING

REGINA, Sask., May 16.—The Boy Scouts, of Regina, are to render first aid to the low cost of living campaign here, it having been announced by the town planning commission that the boys are to be given the use of vacant lots around the city for market gardens. The produce for the first year will be sold by local dealers, later by the Regina Boy Scouts Market Garden Produce Company. Other towns in Saskatchewan are expected to make up the idea.

IMMIGRANT ROBBED

LONDON, Ont., May 16.—Chief Detective Davy of Grand Trunk railway, is in the city working on the pickpocketing cases which have been reported to the local police Hanrich Inko, a German immigrant, who was robbed of \$2,500, has not heard since of his roll. Railway officials at the head office are convinced that a gang of light fingered crooks are operating on trains. There is every reason to believe that business for the rook has been profitable in the last few days. On Wednesday a traveller was relieved of thirty-seven dollars on the Buffalo-Chicago express. Officials reported here today that nothing further had been heard of the German immigrant's money, but stated that the company had the matter in hand and are doing all possible to locate the thieves. The case will be rigidly investigated. Chief Detective began at once to work on the case. He called at the Carling street police station and solicited the aid of the local police force in his investigations.
