FOOTWEAR MUST BE CODED—No footwear manufactured in Canada after January 1, 1945 may be shipped or displayed for sale unless it bears a code number located by the Prices Board. This method of identification is similar to that already in effect for a large number and types of clothing and is intended to protect the consumer against degradation of quality. The order permits wholesalers or retailers to use their own name labels in place of, or in addition to, the manufacturer's name, provided that the manufacturer's code number is shown. Imported footwear is not affected by this order. The reason for such identification is that in cases where consumers feel that the articles they buy are not up to the required standard the label serves as a means of identifying the manufacturer. In this way, when complaints are received, the Standards Administration of the Prices Board can check up at the factory where the articles was manufactured.

POLICE COURT—At the Police Court yesterday a person charged under the Excise Act, was fined \$300.00 and costs or four months, and also received a fine of \$100.00 and costs or three months, under the Prohibition Act. An assault case was remanded one week. A person charged with contributing to the delinquency of a minor, was sentenced to twenty days if he did not leave a bond of \$100.00; No 2 75; No 1 Que. 110-120; N B 1.25-1.40; P.E.I 1.40-1.50.

BUTTER RATION AGAIN CUT—After January the butter ration will be cut to about six ounces a person a week. In making the announcement the Prices Board said that the step is being taken to adjust consumption to the supplies available during the winter months of low production. The ration will be made valid one at a time instead of in pairs. Three of the coupons will become valid each month instead of four as was the case formerly. Under the new system butter coupons will remain valid until they are declared invalid. The production of butter has not been sufficient to keep pace with the demand, even under the rationing system which has limited consumption to eight ounces a person per week, and more recently to about seven ounces a week for each consumer. Board officials said in further explanation of the reason for the current reduction.

MINING—The Toronto Stock Exchange was closed today because of storm conditions.

Stock Markets At A Glance

WINNIPEG, Dec. 12 — (CP) — Shippers today sold 100,000 bushels each of oats and barley for shipment by rail from the Lakes and to eastern shippers in a light session on the Winnipeg Grain Exchange. No export trade was reported.

LONDON, Dec. 12 — (OP-Reuters) — Stocks were quiet on the London Exchange today, partly due to a season falling-off of interest and there were small losses among industrialists. The undertone, however, generally remained steady.

CHICAGO, Dec. 12 — (AP) — Wheat prices eased during the late trade today, when demand paused and the market felt the effect of commission houses selling around top prices. During the greater part of the day's trade the December contract wheat remained strong and carried the other grades.

NEW YORK, Dec. 12 — (AP) — The Stock Market average gave ground today after eight successive advance sessions—10 year highs—longest sustained unbroken since last March—although scattered strong spots persisted and initial losses were reduced in the majority of cases.

The Associated Press 60-stock composite was off .1 of a point at 87.4.
