S'ide Trade Board Discusses Post Office

The members of the Summerside Board of Trade at a regular monthly meeting last evening, devoted considerable time to a discussion of the changes which are being made at the present time in the Post Office set-up. It was the consensus of opinion that the general public were highly dissatisfied with the changes that are being made and that they would in no way improve conditions during the rush season, but would on the contrary cause more congestion. It was felt by members of the Board that since the Board had been so active in promoting a movement for better conditions for the public, it was their duty to look into the matter and to report back to the Board at the next meeting.

It was also felt that since no provision is to be made for additional boxes that this matter should be investigated and a committee of the board was named to look into the matter and to report back to the Board at the next meeting.

Mr. J. L. Gorrison was named chairman of a committee appointed, L. R. Allen and J. F. Arnett are the other members.

Delegates to the Maritime Board of Trade which will meet at Moncton on November 18 were appointed. They were: Mr. J. L. Gorrison, president; Mr. D. O. Baker and Mr. John E. Campbell, vice-presidents; Mr. W. H. Gaudet, secretary; and Mr. J. F. Arnett, treasurer.

Two new members, A. R. Hopkins, manager of the Royal Bank and Thomas Milton were proposed as new members.

Regarding the Maritime Board meeting the president suggested that two questions which should be brought up were what progress was being made in the question of comfort stations at Borden and Tormentine.

In permitting the rise of Fascism and that only the withdrawal of the sovereign as well as Crown Prince Humbert will furnish the Balkans and possibly may ask for allied air bases in Turkey.

The main purpose of his forthcoming meeting with Suman Menon, Turkish Foreign Minister, is to set at rest Turkey's long-standing apprehensions about Soviet influence and operations in the Black Sea area and in the Balkans.

This is expected to frustrate effectively Germany's hard-pushed propaganda campaign based on recent Soviet press criticism of neutrality, which some Russian newspapers have said helped the Axis more than it did the Allies.

But the feeling has been expressed in London that Eden also may use the Portuguese mission to persuade Turkey to permit allied air bases in that country. There has been some speculation that Turkey might enter the war on the side of the allies.

Portugal, a neutral like Turkey, is of central importance in the use of allied air bases in the Aegean, strategic island crossroads of the Atlantic.

Western Coal Mine Strike Is Continued

OTTAWA, Nov. 4.—(C P)—Canada's western coal mine strike today was before the cabinet for the second time in a week, but there was no immediate indication what action the government plans to take toward meeting the demands of 8,500 miners concerned for a pay increase of \$2 a day.

While Labor Minister Mitchell discussed the strike with his government colleagues, members of a four-man union delegation headed by Robert Livie, president of district 18 of the United Mine Workers of America, waited at their hotel for a summons to a third conference with Mr. Mitchell and senior Labor Department officials.

The day passed without any developments indicating an early settlement but it became known that immediately prior to a previous strike threat, on Oct. 14, the government passed an order in council making it unlawful to strike, initiate a strike or stage a lockout at any Canadian coal mine for the duration of the war.

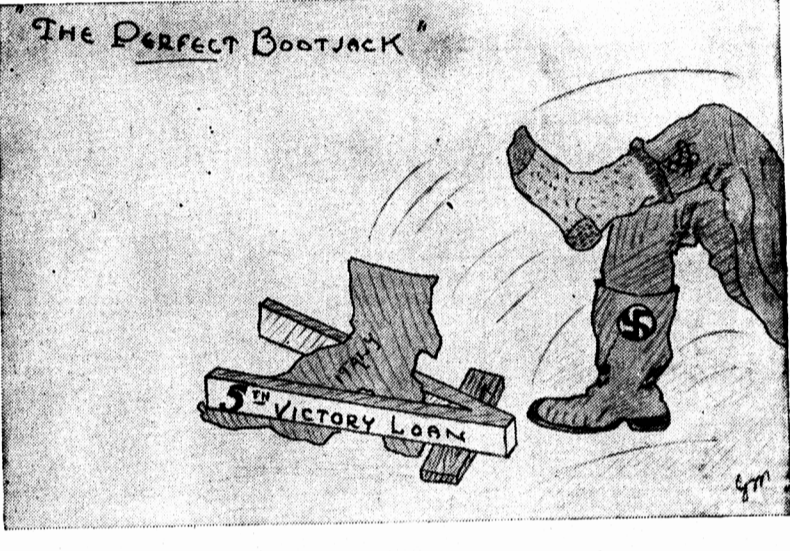

Departmental spokesmen had no comment on the order which was published in Canadian war orders and regulations. Mr. Livie said union officers had been aware the order was passed but had not seen the text.
