Noises in Big City Can Be Coped Up Just Like Hens on Farm. Says Expert

DR. PAUL S. HEYL, "NOISE" TAMER

Can a scream be locked up? Yes and furthermore a street ear's clangor can be confined to the street, and the blare of a saxophone in the apartment above can be imprisoned there, reports the National Bureau of Standards at Washington, D. C.

Noise can be kept out of a room just as well as a snowstorm can, reported Dr. Paul S. Heyl, chief of the bureau's sound laboratory.

The main difference is that to keep out snow the stouter the wall the better, while to ward off noise the flimsier the wall the better.

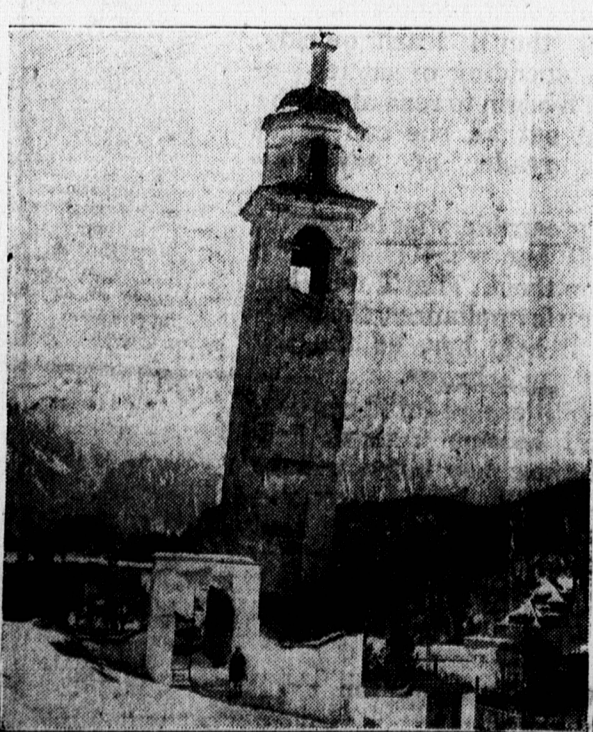

To prove publicly that he can play traffic policemen to a speeding sound Dr. Heyl had a partition which he promised would be "sound-proof" built between two adjoining

ballrooms of the Mayflower hotel at Washington. He arranged to test it on the night that the big Charity Ball was to be in one ballroom, and at the same time a ball to members of the Diplomatic Corps in the other.

Came the first dance! A nine-piece jazz orchestra struck up a spirited fox trot in the Charity Ball room. Another orchestra played a dreamy waltz in the Diplomatic Ball room. But no confusion resulted. Not a fox trot note could be heard in the room where the waltz was being danced. Nor did a single waltz note drift into the neighboring room.

The music from both orchestras was caught in the intervening soundproof partition, Dr. Heyl explained. "The partition is made only of hair felt which is supported by thin boards of sugar cane fiber. The musical sounds became tangled and lost in this wilderness of hair and fiber."

A LEANING TOWER IN SWITZERLAND

The leaning Tower of St. Moritz is not as well known as the great Leaning Tower of Pisa, but nevertheless it has hung at this perilous angle since 1535.

—BAPTIST CHURCH.—The annual business meeting of the Summerside Baptist Church was held in the church hall last Thursday evening. A splendid supper was provided by the ladies of the Social Committee, headed by Mrs. William Buchanan, followed by a musical programme, features of which were a solo by Rev. Norman McNeill of Marysville, N. B., a solo by Mr. Pogeon and Mrs. Parker and an address by Rev. D. McVicar of the church submitting the financial report for the year, which showed about \$4,500 raised for all objects by the church in a banner showing for this congregation. The Sunday School report showed one of the best years in the history of the church in regard to membership and money raised. Miss Audrey Taylor reported for the C. G. I. T. of the church. Mrs. Major Schurman for the Mite Society; Miss Ella MacLean for the Young Ladies Guild, Miss Glen Williams for the B. Y. P. U. Mrs. J. A. Smallman for the Women's Missionary Society, Mrs. Pogeon for the Mission Band, Mr. Smallman for the choir and Mrs. E. W. Manson for the amount raised by the church for the Bible Society, all of which were very encouraging.

—VISITING HER CHILDREN.—Mrs. R. J. McPhee, of Selkirk, Prince Edward Island, is spending some time at the residence of her son, Joe, in Westville, Staten Island, New York. She spent a very enjoyable week visiting her brothers, John and Jim Kelly, in Dorchester, Mass., and remarks that she did not think there were many P. E. Islanders in the country as she met in Boston during her short stay there. Mrs. McPhee is the mother of ten children, nine of whom are living: Three sons, Jack Hugh and Mell and three daughters, Laura, Ida and Hilda are all married and settled on "the island"; Walter is in Idaho, Ronald has made his home in New York for the past eighteen years. His position with the J. G. White Engineering Corporation is Superintendent of Maintenance of the past several years. Mrs. McPhee's husband, Roderick died in 1914. Mrs. McPhee, of Santa Rosa, California, whom she hopes to visit some time in the distant future, especially if her son with whom she is now residing, is transferred to one of the Western properties of the J. G. White Corporation.

WEST COVEHEAD SCHOOL. Two days before Christmas 1925 the West Covehead School Examination was held before an unusually large attendance of parents and visitors. The various classes were carefully examined by the teacher, Miss Pearl Vesey, and also in part by the minister, Rev. Thos. A. Wilson. The results were very creditable to both pupils and teacher, evidencing much careful thought and work in the conduct of the school. This is a matter of great satisfaction to the parents who much appreciate our teacher's efficiency and conscientious care. After the examination a very full and good Christmas program was given by the scholars, which was unusually well rendered and much enjoyed. Brief addresses were made by the chairman (Rev. Wilson) and Mr. George T. Bearfoot, both of whom expressed decided approval of the evident progress of the school, and the general satisfaction and appreciation felt by all. A pleasing feature was the presentation to Miss Vesey of a French ivory clock with the address given below. After expressing her appreciation of the thoughtful gift and kind words Miss Vesey briefly but sincerely thanked both the pupils and parents, after which she generously treated visitors and scholars to candy. The enjoyable session closed with Merry Christmas wishes and God Save the King. Programme.

Dezeng Diagnostic Professional Unit

COMFORT FOR THE PATIENT EFFICIENCY FOR THE OPTOMETRIST

The Wellworth Unit presents a compact selection of scientific instruments that enables the Optometrist to cover completely his ocular examination, without the patient leaving the chair and with each individual instrument within instant reach.

An important requisite of a refracting outfit is absolute comfort for the patient. This has been accomplished in the Wellworth Unit with adjustable seat, head rest and supports. The chair can be reclined, raised or lowered and adjusted to the perfect comfort of any patient. A comfortable patient can be more quickly and easily examined.

Accuracy and efficiency for the Optometrist is accomplished with Dezeng diagnostic instruments of minute precision which are within instant reach and swing before the patient.

This Unit is used in all ophthalmic examinations by H. J. MABON OPTOMETRIST
