—AGED RESIDENT DEAD.—There passed away from earth to eternity the soul of Mrs. Eliza McIsaac (Doyle). Deceased was born in Mill Cove in 1845 and after marrying her late husband settled at French Village and at the time of her death was one of the oldest residents of that place. She was tenderly nursed by her grandchildren and her sons and after receiving the last consoling sacrament of the Catholic Church the soul of a loving old lady passed away. She leaves to mourn one daughter, Ella, U. S.; Patrick Charles and Michael at home and Mrs. Annie Crossby deceased. We weep not but pray to God on high, that when she was called she was prepared to die.

—GREAT PROMISE OF SPEED.—Two young ladies, while en route to a whist event at French River Hall, one evening recently, were surreptitiously surprised by the interjection into the calm and balmy air of a mellifluous April evening, of a pronounced and emphatic argumentation which turned upon events that are seldom discussed in the Press. These timid dames, sensibly chagrined by the informal interruption of their peaceful promenade, struck into a Loughboe pace that may develop into a marathon. However, they won first place, and if they did show a little timidity, it was not cowardice, for they simply observed the first law of nature, preserving one's own life. This proves that athletics practiced by young ladies are not only a source of healthful exercise, but are also a means of assisting one in reaching a haven of security.

—WELL KNOWN RESIDENT DEAD.—Mrs. Callbeck, widow of the late Mr. A. D. Callbeck, passed peacefully away at her residence in Summerside on Saturday in her 84th year. The deceased was born at Tryon and lived there until a few years ago, when she removed to Summerside. She was a consistent member of the Methodist Church and held in the highest esteem by those who knew her. There are left to mourn six sons and two daughters, namely: Alder, Diens, and Gr. A. D., in the West; W. Wesley, of Crapaud; J. W. of Summerside; George H., of Tryon; Mrs. Artemas Cameron, of Angus; and Miss Elita at home and who cared for her until the end. The funeral service was held at her late home on Monday, after which the remains were conveyed to the Tryon Cemetery and laid to rest there beside those of her husband who pre-deceased her by some years.

### PERSONALS

—Mr. S. A. Stocton, St. John, was in Kensington recently. He reports that there is contemplated the erection in St. John, N.B., of an improved abattoir and curing and packing plant. In this institution they expect to be able to manufacture all the meat products of the live stock produced here, ready for the English and Cuban markets. They expect to be able to handle 600 to 800 hogs a week, besides other meat products. They will also convert the by-products into fertilizers. St. John is assembling live stock about stimulate production here, but it might be noted, in passing, that it is a matter for investors to contemplate—would such a plant be patronized and flourish here? The cost for operating must be paid by the producer, which means less for the producer without much hope of any returning once it leaves the Province.

—WELL PRESENTED PLAY.—In spite of the bad roads a large audience assembled in Morell hall on Friday evening, April 18th when the Corran Ban Dramatic Club presented their four act drama entitled "The Dust of the Earth". The story of the play is an appealing one and the players did full justice to their parts. The splendid order maintained throughout the entertainment and the applause which each character received testify to the appreciation with which the play was received. Many in the audience expressed a desire to see the young people again return to Morell they will receive a hearty welcome.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quincy have thus made themselves immune to attack.
