### Mt. Herbert Hall

The Mt. Herbert Hall has recently been renovated and the contract for Mr. Murdie MacLean completed the contract on Nov. 8th. The hall was raised one foot above the earth and a concrete foundation to the depth of 26 inches consisting of 18 inches of concrete blocks placed around the building. When graded only the blocks will appear above the earth, and they not only give the building a better appearance than solid concrete but are frost proof and this adds considerably to a building not in continual use during the colder months. The south side of hall roof was reshingled. The porch was replaced by one 4 feet wider which will give space for a fuel bin besides more room space when the hall is crowded as is always the case during political meetings held in the hall. The windows of hall were straightened and panes repainted. A new floor was laid over the other one and the wainscoting reset. The stairway gallery is sheathed off with British Columbia fir and a door placed by which to enter the gallery. The gallery is closed off with removable fixtures made of British Columbia fir which can be taken down in an instant at any time. Both the gallery fixtures and other sheathing is varnished. By having removable fixtures the seating capacity of the hall can be increased for political meetings, socials etc. For other meetings the gallery is not required and by having it closed off the hall can be heated more quickly. The horse-shed will be repaired shortly. Next year the sides of hall will probably be reshingled and the interior and exterior of building repainted. The total cost will be about \$5500.

The hall was originally a church situated in Mermaid. About 1880 a larger church was built (present Church of Scotland at Mermaid) and the other one sold to a company of seven men. It was then moved to its present site at Mt. Herbert. The company consisted of Rev. Daniel MacLean, William Munn, David Mutch, Ernest Mutch, Daniel Munn, Albert Mutch and Christopher MacLean. In 1890 the company was incorporated by an act of the Legislature. In 1907 the site of the hall was purchased from C. MacLean and a deed of the land given to the company. It was only in 1907 that any dividend was paid and each member received \$5.00 each, since that time no dividend has been paid, at money having been used for repairs, taxes and insurance. In Jan. 1924 all of the members sold their interests in the hall to others with the exception of Daniel Munn, William Munn and Christopher MacLean.

The hall has been used for various purposes during the past 40 or more years—church meetings occasionally. A week by Sunday-school was held there for years. Rose Orange Lodge of Mt. Herbert held meetings in the hall at various times for years and still holds meetings there. Hillsboro Scarlet Chapter and Hillsboro District Orange Lodge (both of which include the Orange primary lodges of Fanningbrook, Mt. Herbert, Pownall, Millview and St. George of Charlottetown) have often held their monthly and annual meetings in the hall. The Foresters and Independent Order of Good Templars have in years past held many of their meetings there. Lectures, concerts, and basket socials were often held. Political meetings and Provincial and Dominion elections have also been held. The company has never charged

for any kind of religious meetings. For Orange meetings only a slight charge was made because the funds of Orange Lodges went to the Protestant Orphanage and other good causes as did also the proceeds of the basket socials held by them. The Foresters held but few meetings and the I. O. G. T. could pay but small rent. The fees charged for political meetings etc. were used for slight repairs to hall, taxes etc. The hall was originally purchased for the good of the community and for the good of the community it stands today. It is not and can never be a money making concern. There is no other hall in the community that is open to meetings of all kinds, religious, fraternal and political. Therefore let the people support their hall. A basket social will be held on November 12 (as per ad in this paper) only good for the children of the hall and use it for other purposes. The company has refused to sell it and will continue to do so until the people patronize entertainments to pay off debt. Remember the one tonight.
