O'LEARY AND VICINITY

Rev. Mr. Myatt, of the Nazarene Church, at Unionville. Mrs. Myatt and Mrs. W. Brooks, left recently on a visit to Boston, Mass.

On Sunday morning at an early hour the jitney passed through O'Leary on the way to Tignish. Since then it has been making the regular daily trips.

Mr. John Williams and family recently motored to Summerside.

A bungalow at Bloomfield, owned by Mr. Bradford Costain, now resident in Boston, Mass., was destroyed by fire on Tuesday evening. The house was occupied at the time the fire originated but the cause of the fire is not known.

Mr. Preston Toombs, of Kensington, representative of Beatty Bros., motored to O'Leary on Wednesday and spent a few hours with Mr. Watson, Billiker, local agent for this company. He then continued his trip to Alberton.

Mr. Thomas Matthew, recently motored to Summerside to begin the season's work on his farm.

Mr. and Mrs. Will Bernard motored to Summerside this week and re-

port the roads in excellent condition for this time of year.

Mr. Lloyd Henderson, and a friend recently motored to Summerside.

Mr. Ray Bernard, who was formerly an employee of Kennedy and Co., and who is now on the staff of R. T. Holman & Co., Summerside, recently purchased a new home into which he and his wife and family moved on Wednesday.

Among those who went to Summerside by car since the opening of the present motor season were Mr. and Mrs. George Webb, of Unionville.

Mr. A. Grigg, of West Devon, was in this vicinity on Wednesday on business in connection with his position as motor cop.

Mr. Ray Kennedy and Mr. Lewis Bernard motored to Summerside on Wednesday.

Her many friends are much gratified by the fact that Mrs. Wellington McWilliams is making steady progress in recovering from the effects of the accident which she sustained last winter. Since her return from the Prince County Hospital to her home in West Cape, on April 26th, she has been able to sit up part of each day and can move the injured limb a little. Although she can walk with the aid of crutches she makes no attempt to do so at present as her medical advisers have stated that a complete recovery will be more certain if she remains inactive.

Messrs. James, Daniel and Arthur Smallman and Miss Margaret Smallman, were visitors to Glenwood on May 1st.

Mr. William Stewart, formerly of West Point, who was for some time on the staff of Kennedy & Co., O'Leary, was recently injured in a motor accident at New Hampshire, where he is now living. It appears that Mr. Stewart had just stepped from his car which was standing in front of his home when he was struck by a car coming in the same direction at high speed. He received severe cuts on his face and limbs but fortunately no bones were broken. It is believed that but for the fact that Mr. Stewart was standing partly in front of his own car and thus escaped being struck with full force, his injuries would have been much more serious. His friends in this vicinity wish him a prompt and complete recovery.

GLENWOOD AND VICINITY

Congratulations are being extended to Mr. and Mrs. Daniel McLean of West Point upon the arrival of a new baby girl on Sunday the 27th. inst.

Her friends regret to learn of the illness of Mrs. Peter Hickey, of Glenwood and all join in wishing her a rapid return to her usual good health.

Mr. and Mrs. Charles McIsaac and their young son Edward motored to O'Leary, on Thursday and were planning on taking a trip to Summerside by the jitney. However while waiting for the arrival of the latter they learned that Mr. Charles McDougall was going down by car and they decided to join him on the trip. As the day was pleasant and the roads in good condition they enjoyed a pleasant trip.

Mr. Allie McNeill, of West Cape, was on a business trip to Glenwood on Thursday.

Mrs. E. L. McDougall, was to O'Leary, on Thursday and spent a short visit with her sister, Mrs. J. McLennan, proprietress of the Queen Hotel.

There is not as large a quantity of lumber at Currie's mills this year as there has been in recent years. For each of the past three years they have cut lumber for a large house but it appears that no new buildings are being erected in this vicinity during the present year.

Mrs. Blanche Gorrill and little daughter, Shirley, were recent visitors to West Cape where they were guests of the former's aunt, Mrs. Wellington McWilliams.

The fishing season on the north shore opened with exceptionally fine weather and at Lot 7, a large amount of gear was put out the first day. At West Point there was a comparatively large catch of herring on Thursday but few on the following day. Quite a lot of herring are being hauled to the O'Leary Cold Storage for fox feed.

A barber shop is being opened in the town, by Mr. Truman Brooks, who has secured, and is now installing the necessary equipment.

Recently two foxes owned by Mr. Neil McIsaac, gnawed their way through an unsound board which formed part of the floor of their pen and escaped. Traps were well-baited and set in various places and before night both foxes had been secured. On Friday a male fox belonging to Mr. Percy McPherson made his escape. The owner was in the pen feeding up when the fox sprang at the door which was not hooked on the inside and got away. He had not been captured that evening. In Mr. McPherson's ranch there has been this year extra good luck as to date from four pairs of breeders he has sixteen fox pups.—O.

Sumatra's tobacco crop last year was valued at nearly \$36,000,000.

partaking of the hospitality of the home. After the singing of the National Anthem, the meeting adjourned to meet next month at the home of Mrs. Vanderstine.

ENJOYABLE SOCIAL GATHERING—On the 16th, about thirty of the people of Heatherdale braved an April storm and gathered in the Hall in response to an invitation from the Heatherdale Women's Institute. Mr. Allan McDonald was appointed chairman for the evening, and a program of choruses, readings and recitations, solos and instrumental music, was carried out. All the numbers were good, but particularly pleasing was the singing by Mr. J. A. Campbell, M.L.A., accompanied by Miss Florrie Campbell, who also sang a solo very sweetly, and gracefully danced the Highland Schottische. Mr. Dan Matheson gave several selections on the violin, accompanied by Mrs. Buchanan on the organ. A contest, in which keen interest was shown by children and grown-ups, was conducted by the President and Secretary of the Institute, who judged the papers and awarded the prizes with the assistance of Gordon McRae and Murdoch Bruce. The chief interest now centred around the tea kettles. A beautiful repast was served and a pleasant hour spent, while disposing of the good things provided. Several of the men present expressed their appreciation of the evening's entertainment and a vote of thanks was tendered to the Institute and suitably acknowledged by the President, Mrs. D. A. McRae. The National Anthem was sung in closing.

RECEIVED SAD NEWS—A telegram to Mrs. John A. McDonald, Summerside, was received last Saturday conveying the sad news of the death of her brother, Mr. Willard Tanton, which occurred in the Hospital of Pueblo, Colorado. Particulars were not contained in the despatch. Deceased was third son of the late William Tanton and Sophia Jamieson Tanton, of Sherbrooke. He left his Island home 37 years ago to pursue his fortunes in the United States. He leaves to cherish in loving memory, one brother, Mr. Wilfred Tanton, ex M. L. A., barrister, Alberton; Mrs. J. A. McDonald, Summerside; Mrs. Elizabeth Patterson, of Mesa, Colorado and Mrs. L. P. Tanton, Charlottetown.

SOCIAL GATHERING—A delightful evening was spent at the home of Mr. and Mrs. P. J. Doyle, 19 Weymouth St., on Wednesday, April 30th, when their daughter Miss Mildred, gave a surprise birthday party in honor of Doctor F. C. Dougan. The evening was pleasantly spent in dancing, singing and other amusements. The music, which was greatly enjoyed by all, was rendered by Miss Wilhelmina Gaudet, Mr. Euclid Gaudet, Mr. Alex McLean, piano, Mr. B. Fernando, violin, Mr. B. Fitzgerald, saxophone, and comic vocal selections by the doctor. The guests then entered the dining room, the central attraction being a large birthday cake, brilliantly lighted and decorated. A sumptuous supper was then served by the hostess, after which the guests departed to their homes, wishing the doctor many happy returns of the day.

INSTITUTE WORK—The Heatherdale Women's Institute met at the home of Mrs. Murdoch Buchanan, on April 8th, with an attendance of ten members and one visitor, Miss Jean MacPhee. The President, Mrs. D. A. McRae presided. After the opening exercises, the roll call, the reading and approval of minutes, the reports of committees and appointment of new committees, arrangements were made for a social evening in the hall, when the Institute will be prepared to entertain the citizens of Heatherdale. Correspondence was read and dealt with, such as that in reference to the making up of linen for the sanatorium. All agreed to assist in this work and Mrs. Bruce offered her home for a sewing party. Plans were set on foot for the carrying out of various activities during the summer with a view to increasing our funds and at the same time providing amusement and recreation for all and sundry. The program for the evening consisted of a drawing contest. Six contestants entered the lists and Mrs. Campbell carried off first prize. Our hostess and her mother, Mrs. Reynolds, assisted by the Refreshment Committee, served a tasty lunch, in which the men of the house and several others joined with us in

An Islanders Trip To Palestine

Continued from Page 4

Dead Sea in the distance. On our left the Brook Cherich flows, where El-laha was fed by the ravens. The drive through the valley of Jordan crosses a sandy plain. We experienced a shower of locusts which lasted about ten or fifteen minutes. Since returning home, and while in Washington, there was a telegram from Jerusalem stating that there was a shower of locusts, and they were calling on the Agricultural Department of Egypt for help.

Finally, the River Jordan was reached. We were much disappointed to find it a dirty, swollen stream with a muddy bank. At this place there was an Arab hut. The woman was boiling water for the tourists. The Arab was ready with his boat at 20 cents a ride. One of our party fell, but she was rescued by the boatman. We continue our way to the Dead Sea, which is 49 miles long. One sees the most desolate spot on the face of the earth. The sea is five times saltier than the ocean. Nothing can live in it. We find an Arab selling black coffee, also has a bathhouse. One of our party hurriedly takes a bath in the Dead Sea. In the distance we see Mt. Nebo, where Moses stood and viewed the landscape over, but was not allowed to enter into it. To the east, on the Trans-Jordan side, Rockefeller has an oil concession. Returning back to Jerusalem, we visit Bethlehem, the birthplace of Jesus. Six miles west. We go to the Church of the Nativity where Christ was born and descend the narrow stairway with a taper, to a grotto twelve feet long and ten feet high with two recesses in the grotto, opposite each other, one recess containing a marble slab, set with a silver star, with expensive draperies surrounding the grotto. This is said to be the place where the birth of Christ took place. The opposite recess, the manger, where the Christ-child was laid. The original manger was carried off to Rome by Helena, mother of Constantine, and can be seen in the museum on the 25th of any month, but at no other time.

Bethlehem is much cleaner than the neighbouring towns. The women are handsome and erect. Near Bethlehem are the fields of Boaz, where the beautiful romance of Ruth took place, also the fields of the Shepherds.

Palestine is not much larger than the state of Rhode Island, a dry treeless region, only about one-third of the ground is tillable. All its sacred shrines are controlled by different religious organizations, sometimes two or three different religions controlling one shrine, and all of them are commercialized.

The Great War, the British Mandate and the British Colonists have created a new Palestine. Caravan tracks have become the automobile roads. Fifty miles of railroad have stretched to six hundred. They have a railroad from Jerusalem to Damascus, also one from Jerusalem to Cairo. There is a fine water supply in Jerusalem. The British Government, I believe are making every effort to be fair to Jew and Arab. The Arabs, however, are incredulous and distrustful of the British. They are unanimous in their determination, never to allow Palestine to become a Jewish state. There are at present eighty Jewish colonies, 160,000 acre of some of the richest land being occupied by them. Large sums of money have been contributed by wealthy Jews throughout the world to enable the colonists to buy the land. They control much of the water, system which means so much in this dry land.

There was an old saying with the Turks that they would hold the Holy Land until the Nile flooded into Jerusalem. This is now an accomplished fact for Allenby's Army laid water pipes through the Sinai Desert close to the railroad tracks bringing fresh water from the River Nile into Jerusalem.

The time has come to leave Palestine. We are sorry. Our milk and honey express is ready for Cairo, following parallel with the old trails which have been used since Abraham's time. Going through the Judean hills, we strike the beautiful plain of Sharon, see orange, figs and almond trees in bloom, with cultivated tracts of land of wheat and barley, also herds of cattle, sheep and goats. For a short time, it seems to us, we are surely in a land of

milk and honey. Presently we strike the wilderness of Sinai, where the Israelites wandered for forty years. We see here shepherds driving their flocks, looking for green pasture. Suddenly we are plunged between sand banks, for many miles. At last, we catch a glimpse of the Mediterranean and we know that we are nearing the Suez Canal.

Landing at Kantara in a rain storm, we are ferried over the Canal. After waiting an hour, we catch a train, passing through the land of Goshen, where the Israelites were in bondage. Arriving at Cairo at 12 p. m. go directly to the Hotel Windsor, and retire at once. The next morning usual we are ready for sight-seeing. The Cairo Museum is the first place to visit. It has the largest and finest collection of antiquities in the world. Our first inquiry is "King Tut's collection." The varied and enormous collection occupies many rooms. Among the few I can recall, six bedsteads with gold trimming, chariot, ice box, gloves, socks, 26 rings, bracelets, wine bottles, silver tray, a chopping tray, and knives and forks and gold spoons, also a checker board. Last, but not least, three coffins, one alabaster, and two others inlaid with gold. I may state that there are two rooms in his tomb yet to be excavated, up at Luxor. We go to the University of Cairo, where there are 10,000 students mostly Mohammedans, then to the Coptic Church built eight centuries ago. In a crypt, we were shown where Mary and Joseph lived, during their flight into Egypt. We cross the west side of the Nile, drive along a road lined with palm and acacia trees. We see the pyramids, three in number, and the Sphinx. We all alight and rush for a camel to ride around the thirteen acres, which comprise the Pyramid area. This part of our trip was highly amusing. To the tourists, Cairo is the most fascinating city in the world. Its bazaars are wonderful. Its antiquities, and precious stones are simply bewildering. The next morning, Feb. 16th, we were off for Alexandria, a very old port on the Mediterranean, and joining our good ship, which now feels like a real home. Sailing west on our return journey, we call at Syracuse, Sicily, where Paul stayed three days on his journey to Rome. We make our second call at Naples, disembark and visit Rome, 110 miles from Naples. Arriving in the evening, we are taken to the Continental Hotel. We visit the Vatican, containing 1100 rooms, also the Museum, St. Paul's Church, which contains a large statue of St. Paul, see St. Stephen's Tomb, go to Palestine Hill, the ruins of the Coliseum and Forum, the Victor Emmanuel Memorial building, within which lies the Unknown Soldier's grave, then the underground catacombs where so many Christians are buried. We were obliged to go through this gloomy place, carrying tapers, and walking in single file.

We return to Naples, board our ship, making now our second call at Monaco and Gibraltar, we then wave farewell to the Old World and leave for New York.

NORTH CARLETON SCHOOL

Report of North Carleton School for April:—

Grade VIII—1 Dorothy MacFarlane, 2 Lloyd Lowther, 3 Arthur Wright, 4 Emmet McInnis.

Grade VII Sr.—Alberta Muttart.
