YESTERDAY'S STOCK AND BOND QUOTATIONS

MARKET GOSSIP

(John L. Cooley, Associated Press Financial Writer.)

NEW YORK, June 6.—Stocks reacted today after advancing for three successive sessions.

Profit taking was a natural aftermath to last week's rally, brokers pointed out, and it did not cut a particularly wide swath through what had been gained. Apparently, however, the market had had about all the rally it could stand on the basis of developments to date, and new buying of importance held aloof.

A return in the last hour cancelled half or two thirds of nearly 1 to 4 points losses, but prices then sagged again. Final quotations, nevertheless, were above the lows; and for the first time in a week volume was under the million mark, totalling only 942,365 shares.

Public utilities turned somewhat heavy. However, that group was no easier than industrials. Aside from large losses in Brooklyn-Manhattan transit issues, perhaps because of dividend uncertainties for the common, declines were mostly in the neighborhood of a point. American Telephone, Norfolk and Western, Santa Fe, Union Pacific; Case and Allied Chemical lost about 2; but U. S. Steel, American Can, Westinghouse, National Biscuit, Consolidated Gas; Public Service of New Jersey, American Tobacco B, Du Pont and Woolworth confined their reactions to 1 to 1½

Grain Market

WINNIPEG

WINNIPEG, June 6. (By the Canadian Press)—Substantial quantities of wheat worked for export today had a steadying effect on a wheat market highly tensed by disastrous week end declines. After creating a four cent drop in a hectic initial hour trade, wheat recovered and came back to close one to ½ below Saturday's closing level.

July closed one cent lower at 56⅛; October one to ⅞ lower at 58⅝-½ and December ½ lower at 59½.

Export worked over the week end and during the day amounted to upward of 1,000,000 bushels.

Highly nervous at the opening the market immediately ran into a new outburst of stop loss selling, a continuation of Saturday's drive. Within half an hour losses of 4¼ cents had been registered in the three futures.

Substantial export trade worked over the week end and during the morning provided resistance at this point and gradually prices came back to record but minor losses at the close.

Seasonal low records for all three futures were recorded in the two day decline. At the low points July lost 9⅝ October 7½ and December 7⅛.

Today's export trade totalled upwards of 1,000,000 bushels and some traders were inclined to place it at around the 4,000,000 mark. No estimate however, was available.

Cash wheat and coarse grains in indifferent trade were little changed.

Montreal Market Sidelights

MONTREAL, June 6.—While the robust rally in security values of Friday and Saturday failed to carry over to the weeks opening session in Wall Street, the market at that centre may be counted on having given a fairly satisfactory account of iself in the face of a fair volume of realizing and overhanging liquidation brought in by the recovery of last week. Sentiment both in the United States and abroad has unquestionably been much encouraged by recent events in financial and political circles in that country, and at this point restoration of confidence must play a leading part in recovery. A heavy trend in Wall Street at the opening was followed by a better tone in the latter part of the session, and this tendency was quite closely followed by the local stock market, which enpoyed a generally steady undertone in quiet dealings.

The close here found gains and losses evenly balanced, while the average price of twenty stocks advanced 10. The marked weakness in wheat values in recent sessions has not proved as unsettling as might have ordinarily been expected, and in the main would not appear to reflect any important change in the world wheat situation. Chief interest at present centres in the notable effort in the United States to stem the deflation tide, and in the meantime little encouragement is forthcoming from the immediate course of operations in industry or in volume of trade.

MONTREAL, June 6 (By the Canadian Press)—Profit taking today curbed the advance on the Montreal Stock Exchange. Values moved within narrow limits throughout the session with the close finding minor gains and losses about evenly divided. The leading issues, which had profited most by the rally during the latter part of lst week, were soft, losing fractionally.

Trading showed a sharp contraction in volume 8,816 shares compared with 22,000 on Friday. Montreal Power, accounting for 1,890 shares lost ½ to 26½ after touching 25¾; Brazilian second with 1,449 shares closed at 9⅜, off ⅜ and Shawinigan third, with sales of 767 shares closed at 9¼, up ¼.

While there was no trading in the shares of the company which are still on the "pegged" or minimum price list, the reorganization plans for Price Brothers, outlined over the week end by Lord Beaverbrook, were well received. It was pointed out that which the reorganization promised to be complete in its rehabilitation for the company the sacrifice asked from the security holders were quite moderate. Importance was placed on the fact that acceptance of the Beaverbrook plan would mean greatly increased tonnage for the company in the shape or orders from the newspapers which the Canadian born peer controls.

Bond sales amounted to $140,500. Price tendencies were fractionally higher.

Sterling advanced to $4.2449 and United States funds to a premium of 15 pe cent.

TO DISCUSS

(Continued from Page 1)

attempt to abolish the parliamentary oath of allegiance to the King. Th's attempt has brought from the British Government a pronouncement that, while it is in progress, Great Britain will not treat with the Free tSate at the Ottawa Conference or elsewhere.

The official communique conveyed to the House of Commnos by Mr. Thomas today said:

"The discussions will have for the'r subject the present difficulties between the two countries in relation to negotiations concerning the Ottawa Conference."

While the communique made no specific mention of the oath bill parliamentary circles tonight were of the opinion d'scussion must necessarily include that question. It was thought probable the issue involving land annuities which the Free State government has said it will withhold from the British treasury would also come up for an airing.

This would mean the whole range of differences existing in Anglo-Irish relations would be discussed.

Mr. Thomas and Lord Hailsham expected to remain in Dublin only until tomorrow night. Mr. De Valera will come to London for resumption of the discussions on Friday.

Mr. Thomas made it clear Lord Hailsham will accompany him merely as a member of the cabinet. He said also Great Britain's acceptance of the Free State's invitation d'd not indicate a change in the government's stand that abolition of the oath would be considered a b'each of the Anglo-Irish treaty which would mean no further agreements could be drawn up between the two countries.

BUSINESS MEN ALARMED

DUBLIN, Irish Free State, June 6—(Canadian and Associated Press Cables)—Unofficial sources here tonight ascribed President Eamon De Valera's move toward a conference between his government and that of Great Britain over the Ottawa Imperial Economic Conference to representations of business men.

Industrialists and others engaged in trade, they said, have become increasingly alarmed at Great Britain's decision not to form agreements with the free state if efforts to abolish the oath of allegiance to the king are continued. It is said they contend this would endanger the Free State's exports business.

Important figures in export circles are said to feel failure of the two governments to come to any agreement regarding trade at the Ottawa conference would be disastrous to the cattle, poultry and dairy interests of the Free State.

William T. Cosgrave, former President and now leader of the opposition in the Dail Eireann, tonight issued a statement commenting on the changed situation.

It said: "Negotiations has been the policy of the opposition since the introduction of the oath bill. It would appear that the government, on reflection, adopted the policy recommended by the opposition. Had this course been adopted at the outset valuable parliamentary time would have been saved for consideration of the country's economic problems. During progress of the negotiations no good purpose would be served by discussion of prospects of ultimate agreement or the nature of any agreement likely to result. But clearly there is urgent need for equitable and cordial settlement of the present difficulties."

Chosen By Lot To Kill Premier

ROME, June 6—Angelo Sbardellotto, who was arrested Saturday on a charge of plotting to assassinate Premier Mussolini, told police today he was chosen by lot to do away with the Premier.

His attempt, he said, was a continuation of the "mission" of Michele Schirru, who was executed in May, 1931, for plotting against the Premier's life.

The sameg roup of conspirators who sent Schirru, a naturalized American, to Italy, selected him by lot at a meeting in Brussels, Sbardellotto declared.

He had intended, he told the police, to fling a bomb at the Premier Saturday during ceremonies honoring Garibaldi, Italy's liberator, but was frustrated by mischance.

The Premier was marching in a procession behind the bier of Anita Garibaldi, wife of the liberator. Sbardellotto had taken up position in the Piazza Esadra to await him. But the Premier dropped out of line when he was within 200 yards of where Sbardellotto stood.

The conspirator was arrested later near Mussolini's office, where, he said, he went in the hope of accomplishing his purpose as the Premier entered or departed. A policeman became suspicious and arrested him. Two bombs were found on him.

Though Mgr. Francesco Borgongini Duca, Vatican nuncio to Italy, Pope Pius congratulated the Premier on his escape.

French Bankers Willing To Lend

TOKYO, June 6. (A.P.)—French bankers are willing to lend several million francs to the newly constituted Manchurian state of Manchoukuo, it was learned today.

Alfred Massenet, director of the Franco-Asiatic bank, is here as a representative of a group of French financial houses that would participate in the loan.

The prerequisite to the transaction, M. Massenet said, would be recognition by Soviet Russia and Manchoukuo of a certain portion of the claims of French investors who through the Czarist Government and the Russo-Asiatic bank supplied the funds used to build the Chinese Eastern Railway. But he was willing to settle on a realistic business basis.

The new loan would be earmarked for renewing tracks and rolling stock of the Chinese Eastern, which has been jointly owned by China and Russia. Manchoukuo now claims the Chinese share.

M. Massenet, grand-nephew of the French composer, has been here since last month. After conferring with the members of the League of Nations Manchurian investigating commission when they arrive here in a few weeks, he will go to Changchun and Harbin to negotiate with railway officials.

Manchoukuo offers a good market for French investments, M. Massenet said, but there is no disposition to make political loans.
