The leading teas of the Maritime Provinces for nearly sixty years. Better today than ever.

A pawnbroker's shop is always a place of interest. A man of the smallest calibre always is the biggest bore. A man always imagines that he wants the earth until he gets sick. It takes an expert to convince otherwise that he is less ignorant than he really is. Paraguay has erected its first general law for the granting and protection of patents. A new card table is so constructed that it can be turned on one edge and used as a fire screen.

In Memoriam

JOHN THOMAS McPHEE

There passed away at Montague, P. E. Islands, John Thomas McPhee, aged 33 years, after a lingering illness, leaving to mourn his loss his mother and one brother, William. In his loss, his widowed mother has been sadly stricken.

The funeral was conducted by his Pastor, Rev. Dr. Genge, on Friday, Dec. 23rd, 1927. The pall bearers, James Collins, James Lavery, Harry Higgen-Botham, Bert McDiarmid, Seymour Peardon and Albert Griffin, bore him to his last resting place in the Montague Cemetery, to await the resurrection of the faithful in Christ.

IN MEMORIAM

MRS JOSEPH MATHESON.

There passed peacefully away at her home Oysterbed Bridge, on May 4th 1928 Mrs. Joseph Matheson aged 71 years. Deceased had always enjoyed excellent health, until within a few months previous to her death but her condition was not considered serious till a few weeks before the end came. All that medical skill and tender nursing could do, was of no avail and on above mentioned date, her gentle spirit winged its home ward flight.

Mrs. Matheson was wide and favourably known. In her passing the community loses a truly Christian woman. A kind neighbour, a true friend, and in times of sickness and trouble a ministering angel. In times of necessity, "Aunt Cassie" as she was familiarly called was ever ready and willing to render first aid, in her cheerful and unassuming manner. It can be truly said of her "she opened her mouth with wisdom, and in her heart was the law of kindness. Her children also rise up and call her blessed. In the home, she is most sadly missed where she was a kind and loving wife, and a wise and tender mother, and one who "looked well to the ways of her household."

Besides her many relatives and friends, she leaves to mourn, her sorrowing husband and five daughters, two sons having predeceased her, her little son Roland who died in infancy, and "Fred" adopted son who gave his life in the Great War.

The daughters are viz. Mrs. Milton Rackham, Westley River, Mrs. John A. MacDonald Bradalbane, Misses Eva and Hazel at home, and Miss Cora R. N. who arrived from Sask. to nurse her mother, in her last illness. Her surviving brothers are Messrs. Benj and Charles Matheson, Oysterbed Bridge and the only surviving sister is Miss Susanna Matheson, Milton.

The funeral which took place May 6th was largely attended. Service at the house and grave was conducted by Rev. R. H. Stavert. The pallbearers were all nephews of deceased, viz. Messrs. Herbert Matheson, Lemuel Matheson, Geo. P. Matheson, Henry Matheson, Joseph Matheson and Harry Matheson.

The beautiful floral tributes, which covered the casket, were silent tokens of love and esteem from relatives and friends. The remains were tenderly laid to rest in Portage Cemetery.

TURNIPS TO GROW

Sir,—In a recent issue of your paper knowing that "The Guardian covers the Island like the Dew", I pointed out to the farmers that Hazzard Improved turnips were the most desirable to grow for export. My conclusion was based on experience as defined in that letter. It took several years for our farmers to determine the proper potato to grow and to realize what the consumer demanded. It was with a view to shortening this period of uncertainty that my experience regarding turnips was published.

The Minister of Agriculture with his apparently limited knowledge of marketing, advises otherwise, but he might well suggest to the farmers that they grow something other than turnips on land not suitable for Hazzard Improved, something they could make a profit on. There certainly is no market for anything in turnips other than the best.

I am, Sir, etc., J. STANLEY WEDLOCK.

MRS. JOHN McEACHERN.

There passed away at Newport on April 28, after a short illness, Mary Anne, beloved wife of the late John McEachern, in the 85th year of her life. Despite medical aid and the untiring efforts of her devoted family and kind friends, she peacefully passed away to her heavenly home, there to enjoy the fruits of a long and well spent life. She was attended during her illness by her pastor, Rev. C. J. McDonald, who administered to her the last rites of the Holy Catholic Church. Mrs. McEachern was a mother and woman in every sense of the words. Her first care was her home and family, and the way she performed the duties that devolve upon a wife and mother is plainly shown to those mourning for her that prudent counsel and dutiful care have not been in vain. She always observed the rules of her faith with the greatest care and this coupled with her great purity of heart, her unselfishness and quietly left an example worthy of imitation. Her memory will be long cherished by all who had the pleasure of her acquaintance. Her kindness, charity, and generosity will not soon be forgotten. A large concourse of people came to see her mortal remains, her resting place at the Requiem High Mass sung by St. George's church on Wednesday, May 2nd, by Rev. C. J. McDonald after which she was laid to rest in the family plot. She leaves to mourn two daughters, Mrs. Peter McArdill Newport, and Mrs. Wm. Campbell New Brunswick; also a son, Dr. Jack, of Winnipeg, Hughie at home, and Mike, of Denver, Col., who arrived home in time for the funeral. May her soul rest in peace. (Patriot please copy.)

MR KENNETH MCKENZIE

The sad Death occurred at Montague on May the 28th of Mr Kenneth McKenzie at the early age of Nineteen years son of Mr and Mrs James McKenzie of Millinocket Maine he was taken suddenly ill with appendicitis he was rushed to the home of Mrs Ives where he was operated on where all that could be done to prolong his life by Doctors and the skillful Nursing of Mrs. Ives and Miss Martin, but was of no avail. At first there was bright hopes for his recovery, but God willed otherwise and he was called away on the above date, Ken, as he was familiarly known was of a kind, cheerful disposition, was loved by all who knew him.

He lived with his grandfather Mr John McKenzie upper Montague since a little boy and he leaves besides a large circle of friends and relatives a sorrowing Father and Mother, Seven brothers, and five sisters.

The funeral which was largely attended took place on May 30th from his late home to the Peoples' Cemetery, Montague. He was laid to rest beside his Dear Grandmother who predeceased him three years ago and whom he loved and tenderly cared for in her declining years.

The funeral service was conducted by the Rev. Mr. Armstrong and Mr. Stiff.

CANADA'S MILK PRODUCTION

Canada produces approximately 14 billion pounds of milk annually of which nearly 4 1/2 billion pounds is consumed as milk, about the same quantity is used in creamery butter, 2 billion pounds in manufacture of cheese, and 3 1/2 billion pounds in dairy butter.

The use of this milk on a percentage basis is—milk 31.5; creamery butter 30.8; dairy butter 16.5; cheese 14.3; exported cream 4; ice cream .8; evaporated milk 7; condensed milk 4; exported milk 3; and milk powder .14.

The value of these dairy products according to the Dairy Branch of the Department of Agriculture is over \$250,000,000. Last year Canada had 3,894,811 milking cows, an increase of 55,120 over the previous year. Dairy products take second place as agricultural revenue producers, field crops leading with \$1,134,193,000. The total gross agricultural revenue for Canada in 1927 amounted to \$1,736,439,000, and the gross agricultural wealth \$7,963,460,000 according to figures prepared by the Dominion Bureau of Statistics. (Issued by the Director of Publicity, Dominion Department of Agriculture, OTTAWA.)

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eye-strain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye-strain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.
