## LAURIER WILL HELP MONTREAL

To Break The Heat And Light Monopoly, Leasing Power From Canals.

OTTAWA, Dec. 9.—A large delegation from Montreal waited on Sir Wilfrid Laurier, Mr. Brodeur and Mr. Fisher in the premier's office today. The delegation comprised Mayor Elmer and Aldermen Lapointe, B. Z. Price, Y. C. Levesque and City Attorney Marchand, along with Senators Danforth, Beigne and Davis, and Messrs. Monk, Martin and Verville, members of parliament. They want to know on what terms the city can lease or buy from the government power from the Beauharnois canal for heat and light purposes. Mayor Elmer explained how Montreal was in the hands of a monopoly. Sir Wilfrid Laurier promised the delegation that the government would lease or sell the power of the Beauharnois canal to Montreal at a responsible figure on condition that \$300,000 was immediately spent on the repair of the canal, \$20,000 for maintenance and \$1,000,000 to establish a plant. Beauharnois and Valleyfield would have to get power for municipal purposes, and Montreal would get the remainder. The construction of works and the rates would be under the control of the railway commission. Failing Montreal doing this, the government would lease to a private company on the same conditions. A provision might be put in the agreement that Montreal would take over the canal later. At the present time the canal was used by a few market boats, but in a very short time it seemed that the canal would not be used for navigation purposes.

Lord Lansdowne admitted that he would be sorry to see the Bill a failure. It is understood that negotiations with a view to compromise are going on between the Opposition leaders in the House of Lords, and the Government in the House of Commons. It is said that the Duke of Devonshire and the Archbishop of Canterbury are in favor of a compromise.

## THE PRESIDENT MOST ANXIOUS

To Arrange Treaty With Japan For Mutual Exclusion of Laborers.

WASHINGTON, Dec. 7.—The Transcript correspondent learns on high authority that preliminary negotiations are under way between Secretary Root and Viscount Aoki for a new treaty between the United States and Japan excluding the laborer of one country from immigration to the other. The president, it is said, realizes that the Japanese problem on the Pacific coast is more than a school problem—that it is a race problem. It would stir up feeling in Japan for the United States, availing itself of the privileges specified in our treaty of 1894, to pass an exclusion law. Instead it is desired by the same authority that the president has decided upon the negotiation of a new treaty, the feature of which shall be a reciprocal exclusion law affecting only laborers of the two countries. It is understood that the real object of the Viscount Aoki's visit to California this winter will be to investigate condition first and that he may be able properly to safeguard the interests of his countrymen in the new treaty. The negotiation of an exclusion treaty will not in any way interfere with the federal government's determination to see that the rights of the Japanese are protected on the Pacific coast. In the light of the news that Japan will consent to such a treaty, the strong language of the president's message yesterday is not surprising. It is probable that a law providing for the neutralization of Japanese in this country will be the quid pro quo by which the Japanese government will square itself with its people for consenting to the negotiation of an exclusion treaty. Such a law is strongly recommended by the president in his message.

## MANY INJURED IN A COLLISION

Between Trolley Cars In Montreal at Foot of Heavy Grade.

MONTREAL, Dec. 8.—Ten persons were injured in a rear end street car collision to-night at the corner of Pine and Park avenues. The accident occurred shortly after 6:30 o'clock when the traffic is particularly heavy and the front car, in which most of the injuries were received, was crowded to the vestibule. The cars collided at the foot of a steep grade where the tracks curve sharply. Heavy snow during the greater part of the day, turning later into sleet, made the track difficult to operate on, and the accident is supposed to have been due to the failure of the brakes to check the speed of the cars. The conductor, Joseph D. Bin, and Norman Boncher, a boy of fourteen, both of whom were on the rear platform of the front car are the most seriously injured, the former suffering from concussion of the brain and the latter from compound fractures of the legs, with the right leg practically severed from his body.

## PRANKS OF THE CROWN PRINCE

Are Causing Anxiety—The Kaiser Thinks His Heir Should Settle Down.

Berlin, Dec. 7.—Now that the Crown Prince is a husband and father the Kaiser thinks that his boyish irresponsibility cannot be checked and his thoughts turned to serious things. With that idea the Kaiser has ordered the young man to attend a six months' course at the office of the Ober-Präsident of Brandenburg to learn civil administration. The Crown Prince's harmless but undignified pranks have caused the imperial family some anxiety. They think that, as he will one day be German Emperor, he should be more serious. He is too familiar with the common people, giving chocolates to street boys and talking to street-car conductors. He has been known to play the violin at a concert at a Berlin Tadelin hotel, and to ride his horse up the long flight of stairs in the palace gardens at Potsdam. He is also devoted to the most frivolous kind of musical plays. The only time the Prince ever spoke on politics he offended millions of his father's subjects by referring to Socialists as "a lot of miserable fellows." The Germans, though they appreciate Prince's amiable character, would like to see him stop showing his wild oats and take his position more seriously.

## SERIOUS FIRE AT BEAR RIVER N.S.

A Number of Stores Destroyed With Their Christmas Stocks—The Loss Heavy as Little Insurance Carried—Town Has no Water System For Fire Apparatus.

DIGBY, Dec. 9—(Special)—A serious fire occurred in Bear River, on Saturday. The stores of W. A. Chute, Wm. R. Byce, Frank B. Miller, Chinese Laundry, Meat Market, and the residence of Wm. R. Byce were destroyed together with a large Christmas stock of goods carried by the merchant. Bear River has no water system and no engine, fire protection being confined to a volunteer company operating with buckets and taking water from the river. Owing to the extreme cold and the high winds the fire was difficult to handle and as the insurance carried was light, owing to high rates charged by the companies the loss will be very severe. The loss is about eleven thousand dollars.

## ONTARIO TOWNS ARE GROWING

Legislature Will Consider Redistribution Measure at Coming session.

TORONTO, Dec. 6.—A report in circulation today is to the effect that a redistribution measure will undoubtedly be one of the features of the coming session of the Ontario Legislature. It is said the Government's plan in this connection does not embody anything of a startling nature, one report being that the County boundaries will be followed throughout in connection with the measure. Premier Whitney has on more than one occasion intimated that the population of Toronto entitles it to additional representation. The proposition will, it is said, give Toronto eight members by providing for two members for each of the present ridings, viz: North, South, East and West Toronto. One objection is that Carleton will be wiped out altogether as a political factor, and that, since constituencies will benefit thereby, Hamilton which has been growing very rapidly in late years may get another member, and the claims of London and Ottawa to increased representation will also be considered.
