HIGHLY RESPECTED TEACHER

Upon the retirement of Miss Martha M Brown of Mayfield from the position of teacher, she was recently waited upon by her pupils "en masse" and presented with the following address—read by Sadie P. Johnston, after which a presentation of some beautiful pieces of china was made by Elva Hill.

Mayfield, Nov. 21st., 1924.

To Our Teacher.

Dear Teacher:—

We would feel very ungrateful indeed if we did not in some way, acknowledge your kindness, and faithfulness, to us, in the past. We feel that thanks would not be enough to you, for all the patience and care, you have taken with us. And we are all very, very, sorry that you are going to leave us. We do wish that we could have you with us longer. But we understand your circumstances and are very sorry that it is for that cause that you have to leave. So we would now please ask you to accept this little remembrence for your kindness to us.

Signed in behalf of the Pupils of Mayfield School. —O.

CANADIAN STEERS WIN AT FAMOUS BRITISH FAT STOCK SHOW

At the recent fat stock show held at Norwick, England, the centre of the great feeding district on the east coast, Canadia ncattle made a wonderful showing. Particularly fine was the achievement of one of the steers sent over by the Federal Department of Agriculture from the Experimental Farms. This steer captured three first prizes, two specials and was awarded the reserve championship for the best beast in the show. In competition with the finest types of British fat cattle, Canadian steers have again demonstrated their great ability as beef makers and, as well, the important fact that they are admirably suited to British feed conditions.

Canadian cattle are steadily gaining in favour with the British feeders and our exports are thereby growing in volume. To date this year Canada has sold Great Britain over 70,500 cattle, an increase of approximately 20,000 when compared with last year's exports.

Mr. P. D. Chapman of Fakenham, Norwich, England, who has been a consistent and enthusiastic importer of Canadian steers assures the Department of Agriculture at Ottawa that the performance of our cattle at Norwich is a wonderful advertisement for our cattle and justifies all the claims made for them.

Or you can secure them direct by sending the price to the Marmola Co., General Motors Bldg., Detroit, Mich. This Little Brandon Lassie Is Never "Dosed" for Colds

The Browns Now Use the "External" Treatment for Croup and Cold Troubles.

Mrs. John Brown, of 426 24th St., Brandon, Man., is the mother of this fine little girl and one of the many Canadian mothers who now use the vaporizing salve, Vicks VapoRub, in treating the colds of all the family. After using Vicks for some time Mrs. Brown writes: "I have eight small children—aged from one to twelve years—and can certainly say that Vicks is the only cold remedy I have in the house all winter. If the cold is in the child's head I just put a little up each nostril and it gives relief in a short time. If it is in the chest I rub Vicks well in at night and by morning the cold has almost disappeared. I also use Vicks for chilblains and for burns—in fact, I use it too for severe headaches and find relief in a very short time. I always recommend Vicks to my friends especially those who have children."

Vicks is the external direct treatment for cold troubles—absorbed like a liniment and inhaled as a vapor. It is the ideal treatment for children's colds. Just as good, too, for adults.
