While we are constantly endeavoring to increase the volume of our business, we realize that you can best do this by serving the interests of our customers, both in the careful selection of investments and in the safe-guarding of their interests.

The service which we will give you as a customer will not end with the sale of one or more securities to you, as we have established a special department for the purpose of exercising a watchful care over your interests and the safety of your investment.

We are always pleased to have our customers send us their coupons and bonds when they mature. We look after their collection for them.

### More Money for the Small Dealers

The man isn't big in spite of the telephone—it's the use of it, to a certain extent.

If you're satisfied with the profits your great-grandfather made, if you just want to eke out a bare existence from your business, if more business don't look good to you—well, a phone will be just in the way—a bothersome ornament.

But, mark it down plain, if you want more business, a larger and better class of customers, straight tips on all the markets, the most profitable of inside information and the respect of your customers and envy of your competitors—in short if you want success—you'll see what we can do for you, and you won't waste time over it either.

The phone will bring you business—it will prove its worth in better returns, in actual additional cash in your till.

Let Contract Dept. prove these facts to you.

### MAXIMS OF A BUSINESS MAN.

Never discuss salaries and never tell any one how much you are getting. If you say you are getting more than the man you're talking to, either it will cause dissatisfaction or he won't believe you. The man who is continually whining about "never having half a chance" is the same man who wouldn't succeed if he were allowed to choose his own work at his own salary. Chances come when a man is ready for them.

Some folks start worrying along about the first of February as to what their boss will give them as a Christmas present. Of course, there are folks who are really earning more money than they are getting, but the average man had better lie low and hope that the boss won't find out how much more he is getting than he is worth.

Don't look in books for examples of successful men. Choose a man in real life who has gained success by honorable methods and follow his business ideals. If success doesn't come in a week, don't get discouraged; it may come in a month. Don't worry because you think you haven't attracted the favorable attention of your immediate superior. He may be more observant than you imagine.

Don't ask advice all the time. The man who can go ahead with a job, finish it successfully on his own initiative without a lot of foolish and unnecessary questions is the man who is most needed in the modern business world.

The man who knows the latest thing about neckties and silk socks is usually the man who does not know the latest thing about successful business methods.

There may be work without success, but there is never any success without work. Don't take spells for working and try to accomplish in one day the things you should have done in two weeks. A little every day is better than spasms of hard work, interpolated with spells of no work at all.—Chicago Tribune.
