DON'T ENDORSE TWO REFEREES

MONTREAL, Feb. 17.—The following American view on the double referee system is interesting: "The recent change in the double referee system has been pronounced a flat failure across the Canadian border. As the rule now reads one referee looks out for the puck, and another watches the play. Neither may overstep his own jurisdiction. It means that a foul committed under the nose of one of the referees cannot be punished by the other. The double referee system was originally started because it was found that one man could not see all the unfair work. That being the case Canadian players had better follow the American system of having a referee who rules the roost and an assistant who helps him out on the foul playing."

SCHURMAN ON WAR'S HORRORS

New York, Feb. 17.—President G. Schurman, of Cornell University, in an address in New York on "Public Opinion and Public Policies," dealt with the Japanese-Russian war, the Great British Boer war, and the United States Spanish war, and he declares they were the results of a universal dominance of the military spirit. He said: "Think of the hundreds of thousands of good men—Russians, Japanese, English, Dutch, Americans, and Filipinos—who have been killed in the last seven years on the field of battle, or miserably perished from disease or exposure. The still larger number of children and women who have been made orphans and widows. Think of the non-combatants whose homes have been destroyed and whose fields have been desolated. Does not the horrible tale mightily exhort mankind to find some humane method of adjusting international difficulties? President Schurman has many who agree with him in detesting war and longing for some better way."

The firemen were badly hampered by frozen hydrants. Besides the business houses burned out fifty families are homeless, but so far as known no lives were lost.

He spoke yesterday on "To Live is Christ, to die is Gain," and gave a particularly pointed discourse advising his hearers to remember that the Cross of Christ is no fire escape for lazy Christians but is a ladder for saving souls.

WINDING UP MOROCCO ROW

LONDON, Feb. 17.—The Standard's correspondent at Algiers telegraphed to his paper under yesterday's date. "I am in a position to assert that the final solution of the Moroccan dispute will emanate from America. Ambassador Henry White is only awaiting the right moment to submit a proposal which it is believed will prove acceptable to both France and Germany. I have Mr. White's authority to state that a successful issue confidently is expected."

An effort is being made to save the station by the construction of a thick wall of masonry reinforced by embankments of sand. Streams of lava are flowing with considerable rapidity, destroying everything in their course. The authorities are taking precautions to prevent any loss of life.

IS IT HELL FOR THE MAJORITY

St. JOHN, Feb. 17.—The special services now being held in the Tabernacle church are growing in interest and power. There was a large attendance to hear Rev. H. Waring speak concerning the question "Is it Hell, then, for the majority?" After defining the three words translated Hell in the New Testament, he went on to say that however much we may minimize its meaning as a figure of speech and however much we may take refuge in the substitution of the expression "enduring punishment" for "eternal punishment" it remains that we have in the four gospels not one clear passage to show that Jesus thought of the sufferings of Gehenna (Hell) as coming to an end. If this is true found at all it must be found not as the teaching of any particular passage, but rather as an inference from the revelation in and through Jesus that His Father was a God of love and His religion was one of hope.

TO BROADEN THEIR IDEAS

OTTAWA, Ont., Feb. 17.—As the result of a suggestion that emanated from the Imperial authorities some time ago, two officers of the Canadian permanent corps have been chosen who will be attached for a year's training, in one case, to the Indian army, and, in the other, to the Australian forces. Captain J. H. Elmsley of the Royal Canadian Dragoons will go to India and Lieut. E. Clarendon of the Royal Canadian Garrison Artillery to Australia. The former is a Toronto man, who saw considerable service with the second Canadian contingent in South Africa. Mr. Clarendon comes from Mount Uniacke, Nova Scotia, and is the son of a former Lieutenant Colonel of the Imperial service. Before entering the Royal Canadian Artillery he was employed for a time in Sir William Armstrong's great gun works at Newcastle and accompanied the quick firing battery, which was sent to South Africa by that company six years ago. It is intended that officers of the Indian and Australian services shall be sent to this country in exchange.

FRANCE NO FAITH IN GERMANY

PARIS, Feb. 17.—The Figaro in an editorial says it doubts the good faith of Germany with regard to Morocco. "Germany," the paper says, "refuses us the general mandate we have so well earned. Several intermediary solutions of the question have been discussed by the conference, and, no doubt more will be found for the diplomats have nimble wits and the French language is most supple, and with the exception perhaps of Germany, all governments and all peoples desire peace. A real arrangement of the situation would be most welcome to us, but not an arrangement that would oblige us to pay too dear a price for Mussulman tranquility in north Africa."
