14 Killed As Russian Airliner Crashes

Optimism Is Key-note Of Address

Newfoundlanders Withhold View On Report

(Canadian Press)

ST. JOHN'S, Nfld., Nov. 22.—Men in Newfoundland's public life withheld comment today on the report of the Amulree Commission, but everywhere the Commission's recommendations formed a major topic of informal discussion.

General sentiment is strongly favorable towards the recommendations, chief among which is the proposal that the Dominion revert temporarily to the status of a colony.

In the main, the financial terms are considered generous, and the prevailing impression is that the Commission kept the welfare of Newfoundland's people in the forefront in drawing up its report.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC.

**Announcements are inserted in this column at 2 cents per word strictly payable in advance.

Cordial Reply Received From Prime Minister

Warm appreciation of the resolution of confidence in his administration unanimously adopted at the recent Conservative meeting in Charlottetown is expressed by the Rt. Hon. R. B. Bennett, Prime Minister of Canada, in the following letter, dated Ottawa, Nov. 15, received by Mr. R. R. Bell, Secretary of the Queen's County Liberal-Conservative Association:

"Dear Mr. Bell: I thank you for your letter of the 7th instant, enclosing a Resolution of Confidence which was passed at the meeting of Queen's County Liberal-Conservative Association on November 3rd. Please convey to the members of your organization my deep appreciation of their action and the generous terms in which they refer to my efforts on behalf of our Dominion. I sincerely trust that I may continue to merit the confidence reposed in me. (Signed) R. B. BENNETT."

Times Are Improving Says Rhodes In Speaking At Winter Fair.

TORONTO, Nov. 22.—(C.P.)—Representative agriculturists from every province, captains of industry, leaders in politics and civic affairs, tonight heard Hon. E. N. Rhodes, Canada's Minister of Finance, in an optimistic address, declare that the characteristics bequeathed by Canadian pioneers would assist the country the sooner to emerge from present conditions. These qualities of initiative, adaptability, courage, foresight, determination industry and thrift constituted a priceless asset which made possible the foundation on which has since been built the economic, political and social structure of today. Those same qualities—and not the least was thrift—would enable the present generation to carry on successfully and entitle it to look to the future with confidence, said the Minister.

GUEST SPEAKER

Mr. Rhodes was guest speaker at the 12th annual dinner of the Royal Agricultural Winter Fair. He was introduced by Hon. T. L. Kennedy, Ontario Minister of Agriculture, in the absence through illness of Hon. Robert Weir, the Dominion Minister. Mr. Rhodes address followed preliminary remarks of Hon. J. A. McDonald, Minister of Agriculture.

Committee Suspends Arms Parley Until January

Offer To Build Scaffold

(Canadian Press) EDMONTON, Nov. 22.—Kenneth McLean, who is to hang Friday with his son, William, for the murder of Walter Parille, offered today on his own behalf and that of his son to help build the scaffold.

William, told that the Cabinet is not interfering in his case, said, "I expected that."

The father, in his separate death cell but within sight and hearing of William's cell, said: "Do you want a couple of good men to build the scaffold?"

The offer was turned down by Warden John McLean.

EARTHQUAKES RECORDED

(Canadian Press) NEW YORK, Nov. 22.—A series of new earthquakes were recorded last night and today on the seismograph at Fordham University here, two of them apparently "after shocks" to the terrific upheaval noted Monday night.

The two "after shocks" were noted at 8:55 p. m. and 11:58 p. m. E.S.T. yesterday. Both were described as of moderate intensity, the latter being placed about 2,000 miles distant.

Today, at 8:04:37 a. m. a shock of moderate intensity was recorded, but this one was apparently on the far side of the world, some 7,500 miles away.

Four additional tremors between last night and this morning were recorded on the seismograph, but all were described as too slight for calculation of distance or intensity.

ADVICE IS UNHEEDED BY U.S. GOV'T.

Criticism of Administration Monetary Policy By Former Treasury Advisor Ignored.

By Richard L. Turner, Associated Press Staff Writer. WASHINGTON, Nov. 22.—(A.P.)—Disregarding the verbal blast set off by Dr. O. M. W. Sprague's criticism of the government's monetary policy, the administration held to its gold buying programme today and, simultaneously, disclosed that the Treasury was supporting the bond market. Funds turned over to the treasury for investment by various governmental agencies, including the postal savings, farm credit administration, the debt sinking fund and federal deposit insurance were described as going toward the purchase of government bonds. Acting Secretary Henry Morgenthau said tonight he would make an announcement each Monday of the amount so invested during the preceding week. He declined to disclose

CONDITION SERIOUS

Sir Arthur Currie Suffers Relapse, Condition "Very Serious."

(Canadian Press) MONTREAL, Nov. 22.—Sir Arthur Currie's condition is "very serious," Dr. C. F. Martin, Dean of the Medical Faculty of McGill University and one of four physicians attending the Commander-in-Chief of the Canadian Corps in France, stated in a second bulletin issued tonight.

"Generalized bronchitis has developed and Sir Arthur still has some fever," the official bulletin stated, adding: "His condition is very serious but slightly improved as compared to noon today."

A severe chill suffered early today resulted in a recurrence more severely, of a bronchial condition which was believed yesterday to have been cleared up. Until this morning the distinguished soldier and Principal of McGill University had maintained normal temperature, pulse and respiration. Sir Arthur has spent 16 days in Royal Victoria Hospital since he suffered a blockage of a small brain vessel.

Locations For Settlers Chosen

CALGARY, Nov. 22.—(C.P.)—Ten locations in eastern Canada for settlements have been chosen for Old Country settlers, according to Brig.-Gen. M. L. Hornby, of Lethbridge in Calgary today in connection with his land settlement plan. Two locations in each of the provinces of Nova Scotia, New Brunswick and Quebec have been selected and four in Ontario, he said.

Italy To Leave Arms Parley

(Canadian Press) GENEVA, Nov. 22.—In diplomatic circles it was said today that several Italian delegates may withdraw completely from the Disarmament Conference if parley leaders insist upon complete technical activities during the projected suspension until January. The same circles indicated that Italy wants a genuine suspension of activities and a concentration of conversations with Germany.

Police Called To State Pen.

PHILADELPHIA, Nov. 22.—(A.P.)—Calls were put in for additional state and local police to go to the Eastern State Penitentiary when another disorder broke out in the institution tonight. No details were immediately available, but prison authorities asked for policemen to augment the force of guards that has been on duty since yesterday's riot in which 75 convicts burned two prison buildings and smashed machinery in the workshops. Shouting in the institution could be heard outside the grim walls.

HITLER READY TO NEGOTIATE WITH FRANCE

Offers Peace And Security to France For Equality.

PARIS, Nov. 22.—(A.P.)—The French eyed suspiciously today the olive branch Chancellor Hitler was quoted in an interview as offering to France in return for equality. Skepticism was expressed in the government press. This comment was epitomized by the remark of the Paris Soir which said that "France still doubts German sincerity" and suggested that the German Chancellor's words might be an "alibi."

Programme Published

Officials and newspapers maintained that it was difficult to reconcile Hitler's words as quoted in the interview by Fernand De Brinon, published in the newspaper Le Matin, with his programme.

The article quoted Hitler as offering peace and security to France in return for equality to be realized "by stages and details talked over."

Peace Door Open

One government spokesman said the door to peace is wide open if Hitler cares to enter.

"We are ready to talk through ambassadors," the spokesman declared. "But we do not see that a meeting of Hitler and (Premier) Sarraut could clear the atmosphere. Germany has a clean cut programme which needs military force to execute and she rapidly is getting this force."

"If Hitler does not want Alsace-Lorraine (as Le Matin stated), why is it included in this programme? The newspaper interviewer did not ask the Chancellor about arms supervision, but we are willing to learn the answer through diplomatic channels."

Lindberghs Will Return To Continent

(Canadian Press) HORTA, Azores, Nov. 22.—Col. and Mrs. Charles A. Lindbergh, who flew here yesterday from Lisbon, plan to take off tomorrow for a return flight to the continent by way of the island of Saint Michael.

The plans for the flight, it was said, depend on the weather. The exact destination was not announced.

Although there had been previous indications that the flying couple, who are conducting a survey of air routes across the Atlantic, intended to make several side trips around the Azores, the new project was regarded as altering this programme. Whether the return to the continent would preclude a projected flight back to the United States by way of Bermuda was not indicated.

SEVEN PERSONS LINKED IN MURDER CASE

Chicago Police Are Baffled By Mysterious Shooting of Young Wife.

(Associated Press) CHICAGO, Nov. 22.—The baffling murder of Mrs. Rheta Gardner Wynekoop, slain with a single bullet as she lay nearly nude on an operating table, brought seven persons into custody tonight.

Those seven were members of the household of her mother-in-law, Dr. Alice Lindsay Wynekoop, in whose home-office the 23-year-old wife of her son met death.

"We suspect no one—and everyone," said Police Capt. John Stege as he ordered their detention.

Perplexing Case

Suggestive and perplexing elements of the tragic melodrama followed each other swiftly as detectives, coroner's physicians and the father of the slain girl, B. H. Gardner of Indianapolis, gathered at the home of Dr. Wynekoop to search for a motive for the crime. A major development was today's disclosure that the mother-in-law had taken out a \$5,000 policy on the victim herself eight days ago.

Walter W. J. Brown, representative of the New York Life Insurance Company, informed Coroner Frank J. Walsh that Dr. Wynekoop had paid the first premium of \$42.50 on the policy, of which she was the beneficiary, and which carried a double indemnity clause. Brown said the physician first had asked for a \$10,000 policy.

ARREST EYE "DOCTOR"

(Canadian Press) LUNENBURG, N. S., Nov. 22.—Charged with fleeing a Lunenburg County farmer of his life savings for a fictitious eye operation, Charles McCumber who described himself as a Montreal eye specialist, appeared in police court here today and at request of his counsel was remanded to Nov. 28.

In a timid voice, Enos Dares, 58, told the court a pathetic story of how he paid over to accused his entire savings of \$987.50 for removing from his eye what turned out to be the inner skin of a hard-boiled egg. McCumber, assisted by a confederate, performed the "operation" in Dares' little farm home and after obtaining payment left with a promise to return with a pair of spectacles, witness said.

The "doctor" was arrested in Moncton, N. B., after an extensive search through the Maritime Provinces by Royal Canadian Mounted Police.

Bankers Make Huge Profits

(Associated Press) WASHINGTON, Nov. 22.—Evidence of huge profits to bankers in the initial financing of General Theatres Equipment, Inc., and a loss of nearly \$70,000,000 later to the Chase National Bank and its affiliate, the Chase Securities Corporation, was presented today to Senate investigators.

Ferdinand Pecora, counsel for the stock market investigating committee, developed the evidence through testimony by Murray W. Dodge, former Vice President of the Chase affiliate, and a director of General Theatres; Harley Clarke, former President of General Theatres, and a balance sheet submitted by Winthrop W. Aldrich, President of the Chase Bank.

Disaster Occurs As Huge Craft Makes Trial Run

Many Ranking Soviet Air Officials Killed When Tragedy Overtakes World's Largest Overland Flying Airplane.

(By Stanley P. Richardson, Associated Press Foreign Staff)

MOSCOW, Nov. 22.—The death of 14 Soviet aviation workers in a crash of the newly-commissioned airliner K-7, the largest plane for overland flying in the world, was announced today.

The accident occurred at 3 p.m. Tuesday while the giant craft, a six-motored monoplane designed to carry 128 persons, apparently was making a trial run from Kharkov, site of an important Soviet aviation plant.

Among those killed were the chief pilot named Snegireff; the manager of the assembly branch of the Kharkov aviation factory; engine constructors, workers in the aviation plant, mechanics, and the Communist secretary at the factory.

A Soviet Government Commission was named to investigate the cause of the disaster and to fix responsibility, pending which full details were withheld.

Pride of Soviet

The plane was called "the pride of the Soviet air fleet" and hailed as a "new victory for the Soviet aviation industry" when it was commissioned just a week ago. It was built at the Kharkov plant in seven months with Russian materials and labor, according to the designs of Constantine A. Kalinin, one of the most prominent Soviet air technicians but no relative of the Soviet President, Mikhail Kalinin.

Second Major Accident

The crash was the second major air accident in Russia in the past few months. Eight executives of the aviation industry were killed Sept. 5 in a crash at Podolsk. Among them were three of Russia's leading aviation figures.

The K-7 had made a total of 20 previous test flights and news of the catastrophe brought out how, on its initial ascension Aug. 21, 40 workers in the Kharkov plant stowed away in it in order to have the honor of being the first passengers. Their presence was not discovered until the great ship alighted, when all the stowaways scurried out, only to be quickly surrounded by guards.

Because of their "great enthusiasm for the steel giant"—the published explanation of their escapade—they were not punished. The K-7 lacked the orthodox fuselage, having accommodations for luggage and fuel, as well as the controls, in the wings, with the rudder anchored to a slight framework of steel.

N.S. Mourns Loss Of Benefactor

(Canadian Press)

WOLFVILLE, N. S., Nov. 22.—W. H. Chase, one of Canada's outstanding fruitgrowers, died at his home here today.

He played a prominent part in developing overseas markets for the Nova Scotia apples and shipped hundreds of thousands of barrels annually from his own orchards.

One of the wealthiest men in the Annapolis Valley, he donated the beautiful archives building at Halifax which gave Nova Scotia the distinction of having the first provincial institution of the kind in Canada.

He promoted the Avon River Power Company and was director of several financial organizations. A few years ago Mr. Chase switched his apple shipments from Halifax to Port Williams with the result the latter harbor is rapidly becoming an important shipping centre.

Butcher Defies De Valera

(By George Hambleton, Canadian Press Staff Writer)

NEWRY, Northern Ireland, Nov. 22.—(C. P. Cable)—Thomas McGrath, who runs a small butcher's shop here, has challenged President Eamon De Valera on the broad issue of a Republic for Ireland. He is fighting De Valera in the Northern Ireland election campaign because he doubts the sincerity of the Free State President Republicanism.

The two are candidates for the South Down seat in the polling on Nov. 30, which cannot affect the result of the election at large as the Government already has a majority, gained through acclamation.
