Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—"exercise." Today it is "Take Marmola Prescription Tablets." Friends tell friends—these friends tell others. They eat substantial food, live as they like and still reduce steadily and easily without going through long sieges of tiresome exercise, starvation diet, and absurd greens and saives. Marmola Prescription Tablets are sold by all druggists the world over at one dollar for a case, or if you prefer you can order direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich.

Increasing Premiums Decreasing Claims

The experience of American Life Companies is typical. Canadian and typical of what the Maritime Life may expect. The amount of assurance in force with these Companies was \$14,600,000,000 in 1911; it had grown to \$38,000,000,000 in 1921. Death benefits were \$194,119,000 in 1911; they were \$338,862,000 in 1921. Note that while total business was increasing at the rate of 160 p. c., death claims only increased at the rate of 74 p. c.

This reflects the improvement made in examinations, as well as in disease prevention, and is one great reason why the business of life insurance is extremely profitable to the companies at the same time as it is such a service to the public.

Indeed there is no other business so safe, so scientifically planned to produce certain results to the investor and the assured.

You have an opportunity, through the formation of The Maritime Life Assurance Company, to share in the growth of this great business. It is important in your own interest that you should send for prospectus.

The Maritime Life Assurance Co., Home Office: Dennis Building, Halifax.

Gentlemen:— I am interested in your securities and would appreciate additional information, including prospectus.

Quality All-round

There are two sides to the drug business, the professional and the commercial side.

The first has to do with the preparation and sale of remedies for the cure of disease, the second with all the miscellaneous goods that drug stores must carry.

Both sides of the business have equal attention here. Goods and service are alike perfect.
