

THE PRINCE COUNTY GUARDIAN

Offices in Summerside, Miss Amy G. Burrows, Agent, Summer Street, and J. F. Lafferty, Water Street, News Correspondent, and in Alberton, Herbert Clark, Agent.

The latest news, first of all. Mrs. Leslie Stavert of Summerside is visiting in Moncton. Mrs. Fred Schurman, Boston, arrived on Saturday evening last on a visit to her home at Bedeque. Rev. G. D. Ireland, Woodstock, N. B., formerly of Alberton, has returned home from a visit to Halifax. The schooner Annie E., Capt. Olson, from Pictou with coal for Holman, Ltd., arrived in Summerside yesterday afternoon. Rev. J. Burke, of the Church Extension Society of Summerside, is at the Presbytery this week in Bathurst. St. John Telegraph. The schooner Malabar, owned by Jos. Read & Co., Summerside, which sailed the same day as the schooner Sweet Marie from Charlottetown, is reported safe at Gaspe. The death occurred at Summerside yesterday afternoon, after an illness of about three weeks of meningitis, of Otto, only son of W. S. and Mrs. Bearstro, aged three and a half years. The funeral will take place tomorrow afternoon at three o'clock. The S. S. City of Ghent arrived in Summerside early yesterday morning and sailed again for Halifax about six p.m. Her cargo from Summerside consisted of about eight hundred bags of potatoes and oats, ten tons of hay and two hundred empty casks.

Gilbert DesRoches of Miscouche is reported to be seriously ill. Lobster traps for sale. Apply to R. J. McNeill, Tyne Valley, 5-945pdt. Brace, McKay & Co., Ltd., Summerside, have very low prices on flour and cornmeal. 4-29dustr2w. The storm of last week has done much damage to the North shore lobster industry and some of the smaller parties are almost out of business. Practically all the traps had been set on Tuesday last but the fishermen did not even have a regular overhaul before the storm set in which lasted till Friday. Although perhaps the lines and nets which drifted ashore during the storm told of the destruction it was not until late on Saturday that the boats could get out and discover the real state of things. The fishermen found their gear in a wretched and discouraging condition and had to land many of the traps for repair. It will be late in the week before the gear will again be in fishing order and lobstermen landed. The prospects before the storm for a good crop were never better and loss to the fishermen and packers alike is incalculable. Regular monthly meeting of the Summerside Town Council was held in the Council Chamber last evening, Mayor Morrison and all the councillors, excepting Councillor Leard, being present. Bills to the amount of \$56 were read and ordered paid. Councillor Holman for the Property Assessor's Committee submitted the returns of the assessors for the coming year as follows: Personal property \$459,690, an increase of \$950 over last year. Real estate \$987,350, an increase of \$263,345 over last year. Polls \$614, Horses \$61, Dogs \$41. The rate of assessment for civic schools and water and sewerage purposes was placed at \$19 per 1000 and the poll-tax at \$25, both the same as last year. The following taxes on non-resident companies, etc. were imposed: Banks doing business on premises owned by them \$125. Banks doing business in rented premises \$150. Life Insurance Companies \$25. Express and Accident Insurance Companies \$12. Marine, plate glass, and fire insurance companies \$10. Unregistered non-resident physicians and surgeons or people selling patent medicines \$50. Non-resident veterinarians \$25. Agents for all incorporated companies not otherwise specified \$25. Book or paper agents selling to other than local dealers \$10. Non-resident laborers, bill-posters, distributors, etc. \$3. Councillor McLellan of the Finance Committee submitted the estimated revenue and expenditure for the coming year. The estimated revenue is placed at \$213,681 and the estimated expenditure at \$193,226. An estimated surplus of \$68,741. Councillor Brace moved, seconded by Councillor Gallant and carried, that the bye-laws re assessment and poll-tax be published in some newspaper. Before the meeting adjourned, the Mayor and several councillors referred in fitting terms to the sad bereavement which the nation has met with in the death of our beloved King Edward VII., and it was moved by Councillor McLellan that the Mayor convey to His Honor the Lieut-Governor, to be forwarded by him to the proper authorities, the following message of sympathy: To the Honorable the Lieutenant Governor: "Heartfelt grief is the universal sentiment of the people of Summerside at the sad news of the death of our beloved King. His great interest in all his subjects throughout his vast domain makes his death to be deeply felt as a personal loss by all his people. On behalf of our citizens please tender to the Royal Family our profound sympathy." Signed James A. Morrison, Mayor of the Town of Summerside.

The Morning Daily Guardian can be obtained at Lafferty's Tonsorial Parlors, Summerside, 12-16drtf. Wanted at once, two house maids. Best of wages paid. Apply at Clifton House, Summerside. 4-25drtf

EXTRACTS

From Reports of A. McGill Chief Analyst of the Inland Revenue Department, Ottawa, Canada, (Bulletin No. 198, February 28, 1910.) ON Lemon Flavoring Extract I have the honor to present herewith a report upon seventy-five (75) samples, purchased throughout Canada in December last, as Lemon Flavoring Extract. Lemon Extract is probably more largely used in the household than any other kindred preparation for the flavouring of pastry, &c. It is, of course valued, proportionately to its strength as a flavouring material, and to the quality of the flavour which gives it its name. No legalized standard for Lemon Extracts exists in Canada; and in view of the large consumption of the article, it is of importance that it should be defined and legally recognized. The results now placed in your hands, together with those published in Bulletin No. 114, will suffice to show the character of Lemon Extract as sold in Canada. The United States standard for Lemon Extract is as follows: Lemon Extract is the flavoured extract prepared from oil of lemon, or from lemon peel, or both, and contains not less than five (5) per cent. by volume of oil of lemon. Of the 75 samples covered by the present report, only 13 contain above 1 per cent. of lemon oil, 62 samples contain less than 1 per cent. of lemon oil and 60 samples contain less than 0.5 per cent. lemon oil. Below is a tabulated report of the extracts being arranged in order of their lemon oil content. This should be of interest to every user of Flavouring Extracts. Proportion of Lemon oil THE BAIRD COMPANY, Limited Woodstock, N. B. Nat. Drug & Chemical Co., 5.0 Gold Standard Mfg., 4.4 W. A. Goussion Co., Calgary, 3.6 F. E. B., leads the list for the Dominion of Canada for quality of Flavouring Extracts.

BRADSTREET'S SUMMARY OF TRADE CONDITIONS NEW YORK, May 8.—Bradstreet's state of trade tomorrow will say: Trade - as a whole is still quite pending clearer views of crop and price outcome, but there is evidence of rather a more cheerful feeling in agricultural sections where injury from the recent cold wave proves to have been rather exaggerated, and the securities markets are also stronger on the evidence of enlarging demand for the American bonds abroad. Eastern trade reports are of a slight improvement at some large markets but of trade as a whole being quiet and spring results being not up to expectations. The reports from the industries vary quite widely. There is a slightly bitter feeling in cotton goods, though the price situation there is a bar to active trade. The woolen goods manufacturing trades are irregular, partly because of changes of fashion, and raw wool is easier, with some foreign wools being exported to take advantage of higher prices abroad. Prices of commodities showed a very general weakening in April, this being most manifest in food products and metals which will probably be reflected in a lower Indies. Fewer failures but larger liabilities are the features of the April failure report to Bradstreet's. Pig iron remains quiet but production is being sharply curtailed. Copper is weaker and consumers still remain out of the market. Wheat

including flour, exports from the United States and Canada for the week ending May 5, as reported by telegraph to Bradstreet's, aggregate 1,854,070 bushels, against 1,452,969 this week last year. For the forty-four weeks ended May 5, exports are 124,085,507 bushels, against 151,987,264 last year. Corn exports for the week are 205,973 bushels, against 268,734 in 1909. For the forty-four weeks ended May 5, corn exports are 25,498,504 bushels, against 28,542,278 last year. Business failures for the week ended with May 5 were 191, against 214 in the like week of 1909, 288 in 1908, 154 in 1907 and 142 in 1906. In eastern Canada, wholesale trade is fair, and the general outlook is more encouraging. In Ontario and throughout the western province trade remains good. Business failures for the week terminated Thursday number 18, which compares with 29 in the like week of last year.

and the selected cow. We have plenty of good cows in Canada, some that give 10,000, 15,000 and 20,000 pounds of milk in a year. One or two big records were made in March by excellent cows, one lot of six in one herd giving a total yield of 9,388 pounds milk, and some giving as much as seventy pounds of milk in one day; think of it, enough to supply the needs of 56 ordinary people at the rate of one pint each. Such cows are not picked up every day, they are not average cows, but they are an indication of what is being accomplished by brain work, applied intelligence in dairying. We need to realize that it is perfectly feasible to do a good deal more raising, not only the much needed raising of the general standard of the average cow so that the 3,000 pounder is no longer "in our midst," but the raising of a good many more cows of at least the 10,000 lb. type. Dairy records of milk produced and feed consumed, will soon show which cow in the stable of the average dairyman is not worth keeping, and which will respond to more liberal feeding so as to produce milk in abundance. Cow testing associations will help every dairyman to success; join the nearest to you or assist in forming a new one.

COW GIVES MILK FOR SIXTY-SIX PEOPLE.

ONTARIO, May 7.—In this busy age when Canada is making a name for herself with big things, water power, timber limits, railroads, real estate, and so on, it is perhaps a little hard to remind ourselves that as well as our big operations occasional ordinary farm things are being done. We hear now and then of poor cows and low yields of milk, so we need constantly to bear in mind that huge things are accomplished by the proper combination of the brainy dairyman, good

Remember this! We are selling a four piece split bamboo fishing rod in case for \$1.00 and a three piece bamboo rod for 85c. We can save you money if you buy your tackle here. Geo. E. Hughes, The People's Druggist.

Fifteen Dollar Suits. Is fifteen dollar suits our price? Most men have a certain price they think of first in connection with a suit purchase - with many it's \$15.00. Our spring and summer suits at this price are excellent values. Take a look at our new suits - see the handsome fabrics, the artistic tailoring, the new cut. Note the linings, button holes, padding, &c. We pay special attention to those points. If you wish to invest just Fifteen Dollars in a spring suit - keep your dollars until you see what is doing here, and then we think we can suit you. D. A. BRUCE The Clothier and Furnisher dtstrufft Victoria Row

Coffee. That is good, Coffee that is better than the average, Coffee superior to many others. Coffee with a flavor all its own; this is the kind we sell at 40c. per lb. Jas Kelly & Co 5-4drtf. AUCTION At Kensington Physician's Stand to be Sold by Auction on THURSDAY, MAY 12TH, 1910, AT ONE O'CLOCK P. M. House, outbuildings and large lot, with orchard, the property of Dr. D. T. McKay. The house is well appointed, being heated with hot water and convenient in every respect. The grounds rank with the best in the village, being both useful and beautiful. In every way it is an excellent stand for a physician. Also, at same time, will be sold household effects. For particulars see posters. Terms made known at sale. The premises are open for inspection at any time before the sale. For further particulars apply to Dr. McKay, on the premises, or to CHARLES E. MACDONALD, Auctioneer. Kensington, May 2nd, 1910. 5-14dtf.

Would You Increase Your Crops If You Could? That's all We Want to Know. For Orchardists (continued) Sulphate of Ammonia is also used as a source of Nitrogen but it is a little more expensive and not so quick in its action, and under average conditions does not give any better, if as good results as Nitrate of Soda. Both Acid Phosphate and Basic Slag are largely used to supply the necessary Phosphate Acid to the orchard. The action of the former is somewhat quicker, which necessitates Basic Slag being applied in the fall, otherwise they seem to give good results. The high percentage of Lime contained in Basic Slag has a very beneficial effect on fruit trees. The prevailing practice in the world famous Annapolis Valley is to apply Bone meal and Murate of Potash at the rate of 500 lbs of the former and 300 lbs. of the latter per acre in the fall. The Nitrogen and valuable humus are supplied by ploughing in clover crops of clover and other leguminous plants. We Can Show by Facts and Figures that You Can't Afford Not to use Fertilizers. These mixed fertilizers contain the highest percentage of soluble and available plant foods known to the Agricultural science - they are applicable to any soil. Now you know and we know that you can't afford to overlook the wonderful improvements brought about by these mixed fertilizers. We know that they are just what you want. Can't we send you some interesting new ideas on farming? - send your request on a post card and we'll send them - there's numerous practical points that you can't afford to miss - so write now. AULD BROS Charlottetown P. E. Island

The Phone is the Farmer's Friend. The true value of a telephone on a farm cannot be counted in dollars and cents. Imagine in the event of your wife taking seriously ill - you can't leave her - and you must travel miles for a doctor. In such an event you'd pay the telephone for a whole year for just a few seconds use - it's a case of life or death. Isn't this just another proof that the farmer needs the telephone even worse than the city man - of course it is. This is just one instance of the use of a phone on a farm, and it's a point no conscientious farmer can overlook. Think of the protection it offers your family when you are at home or away - in city or country - over mountain and dale. The phone will offer the assistance you want - when you want it. We want to place a phone in every up-to-date country house in this province - and we have a plan by which it can be done. Will you allow us to tell you about it? Write or phone Contract Department for particulars. The Telephone Co. of P. E. Island

McFarlane Shoes for Children. These shoes are shaped to suit the delicate little feet of infants and children. Made so that they will cultivate the proper growth of a well-shaped foot. Sizes 8 to 10 1-2 65c to \$2.00 MORRIS & SMITH 127 Queen St. drwtf.

WITH THE ADVENT OF SPRING A NEW RANGE IS THE THING you may need when you houseclean the kitchen. If so, it will pay you to purchase a good one - in fact, the best obtainable and that's an ENTERPRISE MONARCH STEEL RANGE. This is not a mere statement to be taken "with salt." The proof is in the fact that there are thousands of Monarchs in daily use throughout Canada from P. E. I. to the West and each one is giving satisfaction in operation and wear. Every Monarch sold is backed by our guarantee. You are therefore safeguarded in purchasing. The MONARCH is sold by leading stove dealers throughout P. E. I. If yours does not handle it, write direct for circular to The Enterprise Foundry Co Sole Manufacturers. Sackville, N. B. dtst

SPECIAL SALE. Visit Our 10 and 15 Cent Counters To-day Egg beaters, flour sifters, dish pans, sauce pans. Cameron & Co, London House

Our Suits Combine Style and Quality. When we emphasize QUALITY, for which our suits are noted, we refer not only to the cloth and the trimmings, but to the character of the tailoring, which really decides the true value of a garment. We spare no effort to put into our clothes the very highest class of workmanship, which is evidenced by the wear our garments afford. If you will give our suit a reasonable test, you will appreciate the meaning of quality from our standpoint. We make suits from \$18.00 to 30.00. Every suit, no matter at what price, receives the same careful attention and before it leaves our workroom it must be up to a certain standard. That standard on which reputation has been built. MacLellan Bros. Bank of Commerce Building High Class Tailors
