At 83 She Defies Rheumatism

After Suffering Acute Pain for Years

Rheumatism first attacked this old lady in 1921, and gradually spread from her arms to other parts of her body. Then she started to take Kruschen Salts, and now she sends the following letter in her own handwriting:—
"I have suffered from rheumatism since 1921. At first, I felt acute pain in both arms. I could not sleep for pain. It grew worse, and gradually crept down to the tips of my fingers. Next it reached my knees and ankles, which made me quite helpless for a long period. A friend recommended me to take Kruschen Salts. I find they do me more good than any other medicine, liniment or plaster I ever used. This is my own writing, though I am in my 84th year.—(Mrs. H.)
The pains and stiffness of rheumatism are often caused by deposits of uric acid in the joints. Kruschen Salts stimulate your liver and kidneys to healthy, regular action, and assist them to get rid of the excess uric acid which is frequently the cause of your suffering.
