FREDERICTON.—The February meeting of this Institute was held at the home of Mrs. Fred Weeks with fifteen members and two visitors attending. After the usual opening, the Sick Committee submitted their report and the School Committee presented a bill for the articles purchased for the school. The Secretary reported the Dialogue book had not been purchased. It was decided to pay half the cost of the new school stove. An interesting programme was carried out which consisted of piano selections by Misses Irene and Lolita Weeks; Solo by Miss Irene Weeks; Chorus by the Ladies; Recitation by Miss Agnes Arthur and a solo by Miss Lena Hickox. The meeting closed with the National Anthem, the next meeting to be held at the home of Mrs. Phoebe Stewart on March 18th.

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.

Eat No Sweets If You Are Rheumatic

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablesponful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

—WELL KNOWN RESIDENT. —Mrs. Emmeline McKay, wife of the late Capt. George McKay, of Summerside, passed away at the home of her daughter, Mrs. James A. Morrison, Spring Street, Summerside, on Thursday, March 12th, at 2.30 p. m. The deceased only took sick on Sunday evening but rallied and was downstairs. On Wednesday when on retiring she took a weak spell and did not regain consciousness. Of a kind, loving disposition she will be missed by a large host of friends in this community. A member of the Christian Baptist Church, Summerside, she was one of the oldest members. She leaves to mourn her loss the following: One sister, Mrs. Emma P. Reid, of Reid's Corner, Summerside, also three daughters Mrs W. D. Haywood, Vancouver, B. C.; Mrs H. C. Wyand, New York City and Mrs James A. Morrison, Summerside, with whom she has resided for the past eight years. All was done that loving hands and medical attention could do but her life could not be saved. God loving her best He took her to be with Him in a home prepared for those who labor here for Him. The funeral will be held from her late home on Spring St., on Sunday, March 15th, at 2 p. m. to People's Cemetery.

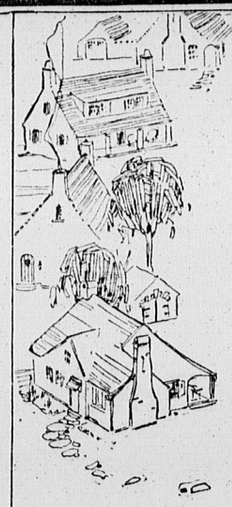
Mr. Dingwell is the owner of several farms and has Mr. J. A. MacDonald, Hermanville, surveying this week.



Transform the attic with a beautiful floor

It's surprising what you can do with an hitherto neglected attic or store-room, once you start. Cleaned and tidied, with freshly tinted walls and curtained windows and a floor covered with cheery Dominion Linoleum, it becomes a real room — a room that compares favorably with any in the house. And the best and brightest feature is the floor.

Dominion Linoleum has a firm, smooth, waterproof surface that takes all the hard work out of cleaning day. All the dirt is on top and is easily and quickly brushed away. Dominion Linoleum wears for years. You could not wish for a finer floor or one that gives you less trouble. There are patterns and colorings suitable for every room and the cost is surprisingly moderate.

Dominion Linoleum Rugs

Dominion Linoleum Rugs possess all the practical features of Dominion Linoleum. They cannot tear or crack and lie smooth and flat without fastening of any kind. Made in all the popular sizes in a wide range of attractive designs and colorings.

Islander Wins Honors In U. S.

In a letter received by "Y" in Kensington from a former citizen of that thriving town are contained many items that might interest the general reader. The writer is Mr. W. W. Ready, who was once a prominent citizen of Kensington. He is a contractor and builder, and many who read the following will easily recall him. Even removed to the distance at which he now is located he has not forgotten his own dear native land, and it may be recalled how, when last he visited the Province, he gave the Guardian the benefit of an interview.

56 Main St., Hull, Mass
March 5. 1925

I though perhaps you might be interested to receive a few news items from this eminently progressive town. Interest has been keen in civic affairs here lately. It might interest you to know that on March 2, at our annual town meeting I was elected to the Board of Overseers of poor for a term of three years. This term makes my third election which, if I live to complete, will make nine years on that Board. The official measure is an appointive office, chosen by the select men which I have held for six years. I have been chairman of the Board of Overseers of Poor for the past seven years. The chairmanship is elective at the first annual meeting of the Board, and I am slated for the chairmanship for the next three years, which carries more compensation than either of the other two members. I also have a clerk of the Board who does much of the work, but I am the one responsible to the Town.

We handle about Twelve Thousand dollars which is annually appropriated on the Saturday following our election day. This is the First Monday in March. The appropriate about Three Hundred Thousand dollars for the Town Running expenses each year. Of this education is the big item. You may think that while considering the amount that my Board spends, we must have a great many poor on our hands, while we have, they are not all the poor of this Town, for since 1913, it matters not who applies for help, or where they belong if they are living in any Massachusetts town and make application for help, and if after being investigated and found deserving they are entitled by the State law, to which all towns in the State are subject to receive help. If those outside have had five years residence in any other town, we collect from the State Treasury. So you see with a floating population, we get back some if out.

Again another state law says that remuneration, when returned must go into the general Town Treasury so we cannot handle it at all. Consequently if we overspend we have another appropriation at a special town meeting. My Board is the only official Board of the town which the State will allow to overrun its annual appropriation. My Board cannot figure very well our probable expenses, from the fact that no one knows what may happen in the year. We are obliged to take care of the bodies of drowned persons if any wash in on our beach. If a conflagration occurs or an epidemic should visit us, I would be called upon, as I was on last Monday, when I had to order a young girl to a hospital after she had her foot almost twisted off at the ankle in an automobile accident. We could not forsee that hospital bill, nor the doctor's bill. This will be included in the expenditure.

To divert. We have had the finest February in fifty years. You will receive the news of the big day in Washington before you receive this letter. Coolidge is nicely placed for the seat four years. He will collect $300,000 for salary alone. He is a good honest fellow, I really think that when he has filled another term he will be a big man among our Presidents. I know Coolidge personally, he lived here one summer near me. He was our Governor for three years. More anon.

MURRAY HARBOUR Institute held their February meeting at the home of Mrs. Jim Herring, fourteen members and three visitors being present. After singing the Ode, roll call was answered with a verse on "Friendship." A letter from Mrs. G. D. Wright was read, asking for donations of fancy work for a sale for the Protestant Orphanage. Further plans were made for holding a play. One new member was welcomed. The next meeting will be at the home of Mrs. Fred Prowse.

Darken Gray Hair By Using Sage Tea

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.
