—Friends will be pleased to learn that Mrs. John A. Dawson of Bedouque is slowly recovering from her serious illness.—S

—The many friends of Mrs. Howard Wolfe of Summerside are pleased to learn that she is improving, following a severe attack of flu.

### Seeks To Break

(Continued from page 1)

to withdraw to fortified positions atop the hill.

#### HAND-TO-HAND COMBAT

WITH INSURGENTS OUTSIDE MABILCO, April 13—(AP)—Insurgent troops were reported today to have turned back Government soldiers trying to break through fortifications in the University City sector.

General Andres Salique's veteran Insurgent Legionnaires were said to have shattered a big Government attack during the night in bitter hand-to-hand fighting.

Trench knives, glittering in the light of flares and exploding shells, were used to halt Government attacks. Three hundred Government dead were found on one battlefield northwest of the capital.

### Farewell Banquet For Mr. Robert Gordon

A most enjoyable banquet was held on Monday evening at the Clifton Hotel in honour of Mr. Robert Gordon, who leaves this week for St. John, N. B.

The banquet was sponsored by the Board of Trade. Seventy two guests were seated round the festal tables representing the business organizations of the town.

Mayor Robinson and the Town Council were there in a body.

Mr. J. F. Arnett, President of the Board of Trade presided.

After full justice had been given to the sumptuous dinner provided by Mr. M. P. Titus and Mrs. Titus the chairman called for a toast to The King which was responded to by the National Anthem.

Mr. Arnett then gave a short speech in which he expressed his pleasure in presiding over such a jolly gathering to honour Mr. Gordon, who had been the secretary of the Summerside Board of Trade for the past twelve years, doing his duty faithfully and well at all times.

While Summerside rejoices that one of her citizens has been promoted and promoted to a higher office in another city they regret very much that it means parting, as Mr. Gordon has been connected with every worthwhile organization in the town. Mr. Gordon has been associated with the Express Office here for thirteen years and through his painstaking devotion to duty has received his reward in well merited promotion.

Mr. Arnett felt he was expressing the wish of every citizen in Summerside in wishing Mr. Gordon every success in the future.

Mayor Robinson spoke next on behalf of the Town Council and citizens.

Mr. H. T. Holman was then called upon to deliver the address from the Board and make the presentation of a substantial purse. After which all joined in singing "For He's A Good Good Fellow."

Mr. Gordon replied in fitting terms, expressing his thanks for their appreciation of his services to the Board and their tangible expressions of goodwill.

Mr. C. R. Rogers, the only chartered member present, added a few words of congratulations and sincere thanks for Mr. Gordon's services as secretary to the Summerside Board of Trade. Other speakers were W. E. Macdonald, past president of the Board, Rev. L. E. G. Davies, Councilors MacKay and Nicholson, Mr. Donald Baker, chairman of the Agricultural Committee, Mr. John E. Campbell, chairman of the Marine Committee and Mr. E. J. Hallett, who spoke on behalf of the Canadian Legion.

"Auld Lang Syne" and "The King" brought to a close an evening which will remain in the memory of those present for a long time.

Mr. Gordon leaves tomorrow morning to take over his duties as manager of the St. John Branch of the Canadian National Express Company.

Following is the address:

Monday, April 12, 1937.

To Mr. Robert Gordon: It is my privilege on this occasion to express to you the regards of the business interests and citizens of Summerside that you are taking your departure from amongst them. It is a satisfaction, however, to know that the change means to you another step up on the ladder of success, and we will all watch with interest and appreciation your further advancement.

We are confident, knowing you as we do, that you will bring to the present, that the future has in store for you a career that possibly even you haven't visualized. The business world provides wonderful opportunities for advancement and the rewards for conscientious work, initiative, and energy are not to be despised. We all fully realize that you are a conscientious worker, we know that you have initiative and your energy is proverbial. These characteristics will carry you far and will give you that contentment and happiness that is the highest reward that a life well lived can bring.

We will miss you in our daily business activities, in our sporting events and in our social connections. Doing business with the Express Company, with you at the helm, has been a pleasure and we are confident that you are to a very great extent responsible for the outstanding position this office holds in the records of your company. We will always remember your proficiency as a courier and our satisfaction in having you on our side rather than against us. Your social activities are known to all of us and are highly appreciated. In this day of rush and ructions it is downright pleasure to find someone like you, who is not seeking the paths of least resistance but is willing and eager to carry the white man's burden.

In your Board of Trade connections you have been outstanding and you will be sorely missed. We have treasured repeatedly upon your good nature but our excuse will always be that you could rely implicitly upon your accompaniment what you set out to do and when you contracted to do the work was always done. The remembrance of your conscientious efforts will always be with us and will be an incentive to us to continue the good work.

You will be missed by one and all but your character and your pleasing personality will always be remembered by us. It will be a continuing interest to us to watch your progress in your larger sphere of activities and to see you take your place as another successful

### World Faces

(Continued from page 1)

world will move into a crisis at once if Governments begin to accumulate wheat in fear of war.

Meanwhile, the earth itself is in revolt in many of the countries adding to the danger of the situation.

Intensive modern farming has taken all the goodness out of the land in a few short years and it becomes sterile.

It becomes necessary ever to seek new wheatlands to replace the old ones that are "tired out."

#### CRISIS

To sum up this explanation of the world wheat situation:—

We are at a critical stage. No American or Russian wheat. No reserves. Little Canadian, Argentine or Australian wheat.

If we are not at the bottom of the cycle, if the harvests of 1937 are not good, famine conditions may develop in 1938.

That would essentially mean rationing (as in the great war) in some countries. That has never happened before, except in war, but it might happen now.

For the present, however, the public in Britain and abroad are not likely to feel the price of wheat seriously as the price of bread and the cost of milling, baking and labour remain unchanged.

#### PREM. HEPBURN

(Continued from page 1)

ed all the cabinet members in town at the time. "There was no dissenting voice," he maintained.

Hon. David A. Croll, Labor Minister; Attorney General Arthur Robb; and Hon. Dr. L. J. Simpson, education minister, were the cabinet absentees. Both Mr. Croll and the Attorney General today refused any comment whatsoever on the situation.

#### SEEK FEDERAL MEDIATION

OSHAWA, Ont., April 13—(CP)—Mayor Alex Hall tonight dispatched an invitation to Hon. Norman Rogers, Dominion Minister of Labor, to mediate the strike of 3,700 General Motors of Canada workers.

The Mayor telegraphed the minister after failing to receive an answer from General Motors as to whether the Company would welcome federal intervention in the dispute.

His announcement came shortly after he had made it known the Company would be given until 10 p.m. to make its decision and was made by the Mayor more than an hour before the deadline.

It was indicated unofficially there would be no statement from the Company regarding federal intervention.

#### Willing to Assist

Mr. Rogers had informed the Mayor the department was willing to assist if such assistance was asked. A letter from the Minister to the Mayor yesterday invited Oshawa's chief magistrate to seek consent of both parties. The United Automobile Workers' Union already has announced itself agreeable to intervention.

In commenting on Premier Mitchell Heppburn's statement in Toronto regarding possibility of Communist appearing on the strike scene, Mayor Hall declared "Communists would get short shrift here."

#### Islander abroad.

There is a rule coined by I know not whom that a man to be a real man must make some enemies in his course through life and in his business contacts. You, sir, are the exception that proves this rule for you are an enemy to no man and no man is an enemy to you. In the final analysis the merit of a man is not in his material wealth or in some outstanding characteristic but in the esteem and respect in which he is held by his fellow citizens. Judged by this standard you measure 100 per cent for you are held in the highest regard by one and all.

At this particular time it is my pleasure to present to you this token of our esteem. It is emblematic of the feeling for you which pervades your business world. Coupled with this symbol of our regard is the wish of all of us that your path of progress may continue onward and upward and that Health, Wealth, Happiness and Contentment may be the lot of you and yours in the days to come. I do not believe you will forget either Summerside or the citizens of Summerside but I feel that I express the unanimous opinion of our citizens when I say that we hope you and Mrs. Gordon will keep us in mind and that either your duties or your volition will make you constant visitors amongst us. We can assure you of a hearty welcome.

### Lobster Enquiry Opens At Alberton

(Continued from page 1)

in the cookhouse of his father's factory. "I poached only once previously and that was in 1931," he said.

Witness said he was bothered several times by the officers, in fact he said he was chased three times in one day. He stated that while fishing lobsters during the closed season he pretended he was fishing cod fish and remarked "I would throw the line over and make a bluff at it."

He was of the opinion the officers were trying to do their duty and they had justly shown him no favoritism.

Mrs. Bessie Kinch the final witness of the afternoon said the cannery at Goose Harbor operated in her name had been built about four years ago and that last year there had been between two and 65 boxes of lobsters canned illegally there. Boxes constitute a half case.

"Was that about the same amount as you canned on the shore in previous years?"

"Yes."

"How long have you canned lobsters illegally?"

"Twenty or twenty-two years."

"What is your reason for canning illegally?"

"We have to do something. We have a big family—15 children. Our oldest son is married and he has five children and that is our only source of income. What he makes from the fishing and canning of lobsters has to maintain the two families and it is pretty hard to make enough in two months to do that. Mrs. Kinch told Counsel she was of the opinion that they had received more for their illegally packed lobsters last year than they did from their legally packed and as far as she knew the illegally packed had been sold to Arthur Clark, Alberton.

"Do you think the illegal packed is as good as the legally packed?"

"Yes."

"Did you buy any lobsters from any other persons to can illegally?"

"No, only what the family fished."

"Why did you start canning in the factory last year?"

"Well Mr. Kinch has been sick and under medical care now for some time and it was easier for him to work inside, but we took a big chance. However, we usually kept somebody on the lookout for the officers."

She said she did not know of a fisherman at Alberton who did not poach lobsters and said that lobsters were even canned in fox ranches, remarking, "I think our factory on the shore would be cleaner than that."

The witness was somewhat critical of patrol boat Capt. Arsenault and his assistant, Mr. Proffitt. Last year she contended the officers had left Alberton wharf and proceeded south towards Goose Harbor while boats were off this town fishing lobsters during the closed season. She also charged she saw Mr. Arsenault talking with a man while smoke was coming from the fox ranch where apparently lobsters were being boiled.

"When was that?"

"Last year."

"Where were you when you saw Mr. Arsenault talking to that man?"

"I was in my own home."

"Who was the man he was talking to?"

"Herbert Frazer."

Mrs. Kinch said that pretty nearly every house in Alberton South canned lobsters last year and that smoke could be seen from behind almost every building.

She further said she had seen persons carrying lobsters from one house to another to be sealed.

### Shipping Is Cautioned By Rebel Leader

(C. P. by Guardian's Special Wire)

LONDON, April 13—Gen. Francisco Franco tonight sent to Great Britain a warning that the Spanish insurgents are intensifying military operations in Spanish waters along the Biscay and Mediterranean coasts.

A formal communication from the insurgent leader to the Board of Trade warned that navigation would prove dangerous between Cape Sacratif and Cape Falco in the Mediterranean and Cape Machichaco in the Bay of Biscay.

(The insurgent naval command issued a San Sebastian also issued a warning to navigators that it would be "very perilous" to ply in Spanish waters adjacent to Bay of Biscay ports. The insurgent Junta declines all responsibility for "accidents" resulting from failure to heed the warning, the naval command said.)

The Government meanwhile faced Labor and Liberal protest over Prime Minister Baldwin's House of Commons statement that Britain would forego its right to force a passage for British ships through the insurgent blockade.

Opposition leaders marshalled their forces for tomorrow's debate in the House of Commons on the Labor motion of censure against the Prime Minister's stand.

The motion will be introduced by Clement Attlee, leader of the opposition. It "deplores the failure of His Majesty's Government to give protection to British merchant shipping."

Foreign Secretary Eden disclosed in the House today the British Consul at Malaga had informed insurgent authorities the London Government was "interested in the welfare" of Arthur Koestler, correspondent of the London News Chronicle who was arrested by the insurgents.

Koestler is not a British subject, Eden said, but the Government decided to take up the question because he was correspondent of a British newspaper at the time of his arrest.

### PUBLIC FORUM

This column is open for the discussion by correspondents of questions of interest. The *Summerside Guardian* does not necessarily endorse the opinions of correspondents.

Continued from page 4

sale of farms by mortgage foreclosure. I counted nine such sales in one issue of our local press. What is the end of it—abandoned farms or a reversal to the system of landlordism? Our farmers have always been, as a class, an honest people. The majority of them have had no wish to default on their obligations, as per the F. O. C. Act. May I suggest that, instead of instituting them into the time-worn practice of making money by going bankrupt, we should increase and intensify and make strenuous our efforts to help our farm people to help themselves, to teach them the most recent and most efficient methods of farm practice, to make them thoroughly familiar with the direct relation that exists between feeds and the foods and with the application of this principle to the production of the latter. Above all we should strive to make clear to them that farming is a business and that to be successful a farmer must apply, as fully as possible, sound and efficient business practices and the foods and with the application of this principle to the production of the latter. Above all we should strive to make clear to them that farming is a business and that to be successful a farmer must apply, as fully as possible, sound and efficient business practices and the foods and with the application of this principle to the production of the latter. Above all we should strive to make clear to them that farming is a business and that to be successful a farmer must apply, as fully as possible, sound and efficient business practices and the foods and with the application of this principle to the production of the latter.
