SUPREME COUNCIL DISAGREES ON TERMS WITH GERMANY

British Delegates Regard France's Demands as Impossible of Fulfilment. Council Adjourned to give Further Opportunity for Explanations.

(Special to The Guardian)
PARIS, Jan. 27.—It was understood this morning that the British delegation attending the session of the Supreme Allied Council considered it impossible to agree to the French view regarding German reparations. The morning's sitting of the council was cancelled in order that Mr. Lloyd George might have an opportunity to talk privately with members of the council regarding the French position as set forth yesterday by Raoul Doumer, French Minister of Finance. M. Doumer said that Germany would easily pay twelve billion gold marks on her exports. Lloyd George remarked that M. Doumer's statement contained indications of very different estimates from those given so far. He recalled that the Brussels financial conference only recommended that the supreme council claim three billion gold marks in money and goods from Germany for a period of five years. Lloyd George, although showing the greatest sympathy for the sacrifices and needs of France maintained that the problem had to be considered as a whole. It was a question not merely of setting France on her feet but of establishing the economic system of the whole of Europe. In addition to fixing the time limits in the disarmament clause, Marshal Foch's report demands as indispensable the adoption of penalties for non-compliance notably the occupation of further German territory, such as the Ruhr, and the extension of the Brussels fir-line land.

BRITISH LABOR DISCUSSES QUESTION OF DIRECT ACTION

Union Conference Presents Resolution Embodying their Idea of a Solution of Unemployment Problem.

(Special to The Guardian)
LONDON, Jan. 27.—The question of direct action by British labor in connection with the unemployment situation was brought to the fore today at the National conference of the labor party and the Trades Union Congress here. Discussing the policy of labor towards unemployment, J. H. Thomas, M. P., Secretary of the National Union of Railwaymen, said that if the government failed to accept the proposals of labor the question of direct action would be discussed and a decision regarding it reached on February 23. The conference unanimously adopted a joint resolution embodying its suggestions for a solution of the unemployment situation. The resolution states that the resources of the nation should be concentrated on affording complete security against destitution. It declared the government's foremost objection is to find productive work at standard rates for every willing worker.

ANOTHER BIG PROPOSAL IN SHIPPING CIRCLES

A Line of 8,000 ton Passenger and Freight Steamers to ply Between Boston and St. John's and Montreal with Halifax and Charlottetown as Ports of Call.

HALIFAX, Jan. 26.—It was reported here today that 18,000 ton passenger and freight boats are to be established by the Canada Steamship Lines between the ports of Boston, Halifax, St. John's, Newfoundland, and Montreal, Quebec and Charlottetown to be ports of call. That there are excellent possibilities for such a line to be established, the Halifax Chronicle is apparent to all who remember the splendid service which this port enjoyed in former years between New York and Montreal, with Halifax and Charlottetown as ports of call. It is considered that the line would attract heavy patronage from summer vacationists. The support of freight shippers would likewise be necessary. The Steamship Line which the company is organizing has in mind a modern passenger and freight carriers, with accommodation for about two hundred passengers each and 4,000 tons of cargo. They are now employed in the trans-Atlantic trade, operating in the summer between Montreal, Plymouth, England, Havre and Bordeaux and between the two ports and St. John's in the winter season.

P. E. I. SCHOOL OF NAVIGATION NOW IN FULL SWING

Admittedly the best Equipped School of Navigation in Canada and Equal to the best in the Old Country. Prospects Good for Large Attendance in near Future.

It is a distinct credit to this province that it now has in the city of Charlottetown what is admittedly the best School of Navigation in Canada and one that is unsurpassed even in the Old Country, the home of navigation schools. A representative of the Guardian had the pleasure yesterday of visiting this school and being shown through its various departments by the instructor, Commander W. G. Lewin, R. N., seeing the students at work, the equipment and facilities provided for the training and teaching of masters and mates on the second floor of the Sailors' Home on the Esplanade. The rooms are bright, large and airy, the windows overlooking the harbor and the shipping, the tang of the sea making an ideal atmosphere for the work in hand.

CITY COUNCIL SUBMITS FINANCIAL STATEMENT

The Transactions of the Past Year Show a Small Deficit.

The City Council held a special meeting last evening when the annual statement of receipts and expenditure was submitted by Councilor Webster, chairman of the Finance Committee. The report shows that taxes have been well paid and the finances of the city in excellent shape. While the statement shows a deficit of \$767.66 on the year's transactions this amount has been largely reduced by the receipt of outstanding taxes due for 1920. In presenting the statement the chairman of the Finance Committee stated that it was not at all pleasant to show a deficit yet at the same time it was explained by several items in the expenditure.

Rev. Dr. Manning Bishop of New York

(Special to The Guardian)
NEW YORK, Jan. 27.—Rev. Dr. William T. Manning, rector of Trinity Church was elected Bishop of the Protestant Episcopal Diocese of New York at a convention called here today to choose a successor to the late Bishop Charles Sumner Burch. The choice was made on the third ballot and the vote as made unanimously but the New York American owned by Hearst, comments on election of the Bishop by publishing this morning an editorial denouncing Dr. Manning on the ground that he was born in England. "Is it the Church or England or Protestant Episcopal Church of the United States who is selecting a Bishop for this diocese, asked Hearst. Will the Protestant Episcopal clergymen of New York at the gathering today say to Dr. Manning? We are only Americans poor second class creatures, not fit to rule ourselves. We need an Englishman to hold the reins and fasten tight the bit on us. Please climb up on our backs, drive us and curb us."

Liberals Reject Captain Evans

(Special to The Guardian)
LONDON, Jan. 27.—The action of the Liberal Association of Cardiganshire in rejecting the Premier's Secretary, Captain Evans and deciding to nominate Mr. Llewellyn Williams an uncompromising critic of the coalition is admitted by Government organs as a preliminary victory for the Government's enemies and a severe blow to the prestige of Mr. Lloyd George.

Sold the Ships That Watched Subs

(Special to The Guardian)
OTTAWA, Jan. 27.—An indication of the number of small craft engaged in holding the German submarine menace in check during the last year of the war is indicated in the annual report of the Department of Naval Service issued to-day. The report states that as no vessels could be found for these vessels that they should be disposed of. All old seventeen trawlers and other ships and eleven motor launches belonging to the Canadian service were sold, for which over three hundred thousand dollars was realized.

P. W. College Again Faces a Crisis

The Guardian understands that the Prince of Wales College matter was again assumed the same aspect. Mr. Rattenbury and other intermediaries have intimated to College staff that they have failed to persuade the Government to implement the promise made to them by Mr. Rattenbury last fall and negotiations with this end in view have ceased. The College staff is now in the position it was in before the College was summarily closed last October and the Government evidently does not care whether school keeps on or not.

Military Experts Furnish Reports

(Special to The Guardian)
PARIS, Jan. 27.—The Allied military experts today handed the Supreme Allied Council their report on a plan for disbandment of German Military units. The reports give satisfaction from a French viewpoint on the question providing for full compliance with all disarmament clauses of the Versailles Treaty. It concedes Great Britain's view as to granting further delay which was suggested Monday before the Supreme Council by Premier Lloyd George. Two thirds of the operation disbandment must be completed by March 1, and work must be finished by July 1.
