MEIGHEN CONFIDENT OF VICTORY ON SEPT. 14

Premier Ended His Western Tour on Saturday And is Now Enroute East For the Conclusion of the Campaign.

WINNIPEG, Aug. 30.—(Rt. Hon. Arthur Meighen, Prime Minister of Canada, completed his western tour on Saturday with the most picturesque meeting of his campaign. It had been a day of many speeches. Leaving Winnipeg by special train at an early hour, Mr. Meighen proceeded north by a line once regarded as a possible route to the Hudson's Bay, east of Lake Manitoba, through community after community. At almost every point there was a meeting, generally on the platform, on several occasions in a hall. At each point, the crowd on the special train received new additions until by the end of the long lay seven coaches were filled and a baggage car had to be equipped with temporary seats. On the outside of the train hung political mottoes which Mr. Meighen spoke before had decorated the hall in which Mr. Meighen spoke in Winnipeg.

The end of the journey came well into the evening at Gypsumville. There for lack of a hall large enough, Mr. Meighen spoke outside. A few flickering spot lamps and a bonfire cast odd eerie shadows over the faces of the crowd scarcely visible in the darkness. As Mr. Meighen spoke there would be occasional half-muttered comment in Icelandic or other foreign tongue. A curious picture of fusing races faced with problems of the new land.

Mr. Meighen at his various meetings, passed in review the political issues he has discussed in detail during his western tour. He was confident that the Conservative party would be victorious on election day. He thought Conservative would gain in Quebec and in the three western provinces, taken together, there would also be Conservative gains.

He described Robert Forke, former Progressive leader, as having done chores for the Liberal party, as having been ready to whitewash the whole "black record" of the King government.

The Premier left for the east Sunday morning where he will conclude his campaign with meetings in Quebec and Ontario.

Premier Meighen speaking four days in Quebec this week.

TORONTO, August 30.—On his return from his speaking tour of the Province of Quebec, where he will deliver addresses from Tuesday until Friday of this week, Rt. Hon. Arthur Meighen will tour the Province of Ontario until election day, with the exception of September 13, when he will be in Montreal for the final night of the campaign. The Prime Minister will re-

enter Ontario on Saturday with addresses in the eastern part of the province, and then will proceed westward for the next eight days, winding up in Chatham and Windsor on September 11th.

Customs Commission Concludes Halifax Sittings

(Canadian Press)
HALIFAX, N. S., Aug. 30.—The Customs Commission concluded its Halifax sittings for the present at least, shortly before noon today. Tomorrow the Commission will move to Saint John, N. B., where sittings will open on Wednesday and Thursday.

While rum-smuggling will probably form a basis for some of the investigation in New Brunswick, the Commission will also investigate the illicit traffic in other commodities across the Maine border which will be gone into.

Germany Warned by Allied Council

LONDON, Aug. 30.—Military activity of nationalist organizations in Germany is among the subjects brought to the attention of the British Government by the Council of Allied Ambassadors in Paris, the British Foreign Office stated Friday.

Other matters taken up in the note were alleged illegal recruiting of Reichswehr organization in Germany and ostentatious delay by Germany in granting requests of the inter-allied control commission.

Remarkable Feat of Two Children

(Special to the Guardian)
JASPER PARK LODGE, Alta., Aug. 30.—Unknown in the annals of Canadian mountain climbing is the feat of two little children of Victoria, B. C., who taking advantage of the favorable conditions that prevailed this year, climbed Mount Edith Cavell, one of the highest peaks in the Canadian Rockies. They are Pasty and Billy, aged 10 and 12, children of Mrs. W. A. Agnew.

Leaving Jasper Park Lodge with two Swiss guides on the morning of August 29, they made a base camp on the edge of the mountain where they slept, until the start of the next morning, when they carried their own pack, showed remarkable nerve and skill on the more difficult parts of the ascent and climbed steadily until the peak was reached. Here they rested for an hour before the descent was made. They returned to the Lodge the same evening appearing quite fresh upon their arrival.

Intellectual War Through Book Stores

LONDON, Aug. 30.—London's Socialist book store is to have an anti-Socialist competitor. It is a shop, "Back to Herbert Spencer" and its moving spirit is Sir Ernest Benn, the publisher. His associates in the enterprise include a ship owner, a Liverpool banker, a member of Parliament and an ironmaster.

"We shall certainly not stock Marx," Sir Ernest said, "but it is difficult to give offhand a list of sound thinkers."

Defining "sound literature," Sir Ernest said, "it is literature which seeks to explain the present economic system and show how it works, rather than advocate new systems."

"We shall sell," he said, "the sound economic and social writers of an earlier generation before so many economist went off on the wrong track. Cannan is sound enough in the present generation, and so, I suppose, was Marshall, but we want to get back, especially to Herbert Spencer. No doubt we shall go in to some extent like our Socialist rivals for a drama and poetry section, but the main purpose of our bookshop will be to organize individualists against the collectivist mania."

THE DIWAN OPENS TORONTO EXHIBITION

Makes Plea For Closer Trade Relations Between Canada and India.

101,000 VISITORS

Greatest Opening Day Attendance in History of C.N.E.

(Special to the Guardian)
TORONTO, Aug. 30.—The Diwan who opened the forty-fourth annual Canadian National Exhibition, captured the hearts of the thousands who heard his message. He said, "The majority of my countrymen believe that the true destiny of India is co-operation with Britain." He made a plea for closer trade relations between India and Canada, remarking that the sister dominions of the Empire should "stand together in peace as well as in war."

Off to one of the finest starts in the forty eight years of its existence. The Canadian National Exhibition, on Saturday, had its greatest opening day attendance. With ideal weather conditions prevailing the clicking turnstiles recorded a total of 101,000 visitors to the big fair, an increase of 11,000 over last year's opening day, when 90,000 people established a record up to that time.

Hon. Narcisse Poiré, Lt. Governor of Quebec, today opened the exhibition of wool, woolen and knit goods at the exhibition clad in a coat of which the wool was spun from the lambs at Brantford, Ont., only Saturday morning. The finished coat being brought to Toronto by airplane that night constituting a record for speedy manufacture of a woolen coat.

A Banker's Comments About The Province

Mr. D. MacGillivray, Superintendent of the Canadian Bank of Commerce, was seen by a representative of The Guardian at the Victoria Hotel on Saturday. Mr. MacGillivray had just arrived from the eastern portion of the province having completed an inspection of the branches of the bank, begun on Wednesday at Summerside. He was thus able to visit every portion of the Province and in every district. Mr. MacGillivray said that a motor tour of Prince Edward Island in the summer time is always a peculiar pleasure, and when in addition to the natural charm of the countryside there is found so abundant a yield of the crops of the field, the pleasure of the trip is vastly increased. He thought the crops looked splendid, and if in some localities the seeding and planting were late, he thought there need be no fear that the harvest would be completed in good time. Mr. MacGillivray thought the proportion of unproductive land was less than on any former visit, and that possibly the season of the year and location of pasture lands would explain an apparent decrease in the number of live stock. He hoped this was actually the case because he was convinced that conditions in the near future would sustain a more regular and better demand for native meats of all kinds. Indeed, improvement in Mr. MacGillivray's opinion was all that was needed, as this Province could always produce to supply any demand. He therefore, hoped that the signs of increasing industrial activities in Nova Scotia and New Brunswick would prove real and permanent so as to afford a better market for many of the products of Prince Edward Island.

Mr. MacGillivray said that the operations of the Potato Growers' Association last year, both with respect to marketing the crop and the purchase of fertilizers, was one of the finest pieces of co-operative work ever done in any part of Canada, and established a precedent for that class of transaction.

Asked about the highways, Mr. MacGillivray said he saw the effects of recent rains, and that in some districts, where the traffic was heavy, some repair work was urgently required. He paid special tribute to the Motor League for marking the different routes so clearly and thoroughly. He was impressed by the greatly increased number of tourists which he met and by the enthusiasm with which they enumerated the attractions of this wonderfully beautiful province.

Mr. MacGillivray visited a number of Fox Ranches and was firm in his conviction that the Island breeders were in no danger of losing their leading world position in this important industry. Mr. MacGillivray left Saturday by train for St. John.

HON. MR. KING DID NOT SCORN TOURISTS STIR THE SUPPORT OF BOOTLEGGERS UP THE FRENCH TO ILL FEELING

French Hostility Awakened by Sight-seers throwing Coppers to Small Tradesmen.

PARIS, Aug. 30.—The actions of thoughtless tourists who forget to respect the dignity of their hosts have sometimes had a lot to do with anti-foreign feelings which have developed in France during the recent financial difficulties.

One instance that is cited as an example of what has helped to cause French hostility was the action of tourists in one sight-seeing bus in throwing coppers to Frenchmen and women along a small street as alms. The French recipi-
sitting outside their doors with their families after dinner, promptly hurled insults after the bus.

Incidents such as this, the French claim, are numerous. Sometimes, however, American tourists, hurled at them take it for friendly greetings and respond with smiles and hand-waving.

Anti-American demonstrations in Paris and hostility shown Americans on the Riviera and in Central France are worrying tourists, falling to produce the most celebrated nose of modern times is to be soaked daily in an ill-smelling pickle brine to make it as tough as leather.

The heavy weight revealed today that he has been brining his face long as he had been boxing. He says all the timers of the ring used the stuff and that it minimizes the possibility of cuts from rasping blows. He boasts that his face never had been cut by a blow—all because of the brining business.

Dempsey gets both hands full of the stuff and rubs it into his face every morning — It smells—well, not like attar of roses.

BANDITS SURPRISED BY POLICEMEN

(Special to the Guardian)
CHICAGO, Aug. 30.—One bandit was killed by his confederate, one probably will die, and three policemen were wounded when three masked men were met by a fusillade of more than one hundred shots from ambushed officers when they attempted to rob the cashier of a Chicago surface street car barn of \$5,300 during the night.

Attempt to Rob Cashier Frustrated.

The slain bandit was Ernest Delaverne who died shortly after being taken to the hospital. Two girls, waiting outside in the bandits car were seized by an officer but one wriggled free and has not been recaptured.

The captured girl Frances Vaughn, a cabaret singer, told police her companion was Marie Nolan, who planned the hold up. Police later found Miss Nolan at the home of Delaverne's mother, where they had traced her.
