THURSDAY, JANUARY 16, 1913.

TOO SWEEPING.

The statement credited in "The Christian" to Rev. John Lord, Christian Church minister at Montague, and quoted in Wednesday's Morning Guardian is, with all due deference to the reverend gentlemen, a little too sweeping and, we have no hesitation in saying, covers too much territory. It is not true of the whole province, and, if true of Montague—which we have no authority to question—the people of Montague are submitting very quietly and very tamely to the injustice, if injustice they regard it. If, with a prosecutor whose duty it is to enforce the Prohibition Act, a government which has reiterated over and over again its determination to enforce the Act and a people anxious to enforce it, the conditions in Montague are as stated, "we might just as well have the open saloon," then there is certainly something wrong.

With liquor sold as openly as b the open licensed saloon there should be no difficulty in procuring sufficient evidence to convict the offenders. If the prosecutor fails in his duty after necessary information has been given him upon which to proceed, and he fails to act upon it, why not report to the Attorney General who has openly and repeatedly declared that the government's instructions to the prosecutors are to proceed against all offenders, without fear or favor. Surely no better opportunity could be desired to test the calibre of the prosecutor or the honesty of the government.

It would appear to an outsider that there is too much emphasis laid upon the active and too little upon the passive sinners. The men who, contrary to law, contrary to the wisher of the citizens, contrary to all moral and religious obligations, run open saloons in a law abiding community like Montague are, to all intents and purposes, active sinners. There is no gainsaying that. The law abiding citizens who permit it without a stronger protest than ...a general complaint in a newspaper, may very well be regarded as passive sinners, if our theology will admit of such a term.

The general statement that "though Prince Edward Island is a prohibition province it is apparently easy for anyone to procure all the strong drink they wish for," will not apply to Queen's or Prince Counties; nor, we hope to the whole of King's. There are spots, plague spots, in each of the counties. They are fewer today in the province than ever before. They are confined to small areas. Even in the city of Charlottetown, the spots are so few that only the initiated can find them and through the persistent efforts of the Prosecutor their geography is changing so often that even the initiated fail quite frequently to locate them.

This is true of Prince County as well. It is true there are the few sore spots but generally speaking they are so far apart that they affect only the immediate community in which they exist.

With all due reference again, it is not fair to the province to brand the Prohibition Act as a failure. The fact that it has failed, as it apparently has, in certain localities, must be attributed to other causes than the weakness of the Act. The localities suffering from the curse must adopt strong measures if they would be purged and we do not admit that all the means have yet been exhausted.

REMEDY WANTED.

It is no use disguising the fact that there is general disappointment with the present single trip running of the Earl Grey and an equally general desire that either a satisfactory explanation or a more satisfactory service be given.

The Earl Grey is one of the very few most powerful icebreakers in the world today. Her sister ship, the Minto, is making daily return trips between Tormentine and Summerside without having missed a single trip on account of ice or weather conditions since the opening of the service. The Minto is by no means as powerful a ship as the Earl Grey. True she is on a shorter route, True also she is carrying less freight, but is, we understand, carrying all the freight offering and could carry more. The Earl Grey, neither on the Charlottetown, route, since winter conditions began, nor since her recent flit to the Georgetown route, has been able to do more than a one way trip. There is certainly something wrong.

Various excuses, for they must be regarded as only excuses—not reasons, have been given for this half service. It is said there are large quantities of freight to be handled. If this is all, why not put on more men and handle it? Our railways and our company carriers do not hold up when a surplus of freight offers; they increase their handling facilities and encourage the increase of trade. And it pays.

If the Earl Grey were on the longer route, Charlottetown-Pictou, and contending with difficult ice conditions, a one way daily service might be excusable. On the shorter Georgetown-Pictou route, with no ice difficulties in the way there is no legitimate reason that the public is aware of why daily round trips should not be made. If there is, the public have a right to know it. And in that case the public would have the right to demand that the longer route and the large ship both be abandoned and the service placed where it can be carried on with more regularity and with a more reasonable measure of convenience to the public.

The present service-and-a-half system is simply demoralizing both mail and passenger traffic and should be remedied. It is useless to argue that the Earl Grey cannot make daily round trips on the Georgetown-Pictou route with ice conditions as at present, and the Board of Trade and our representatives should see to it that, at least as long as the conditions warrant it, she make some reasonable showing for her size and her well known power by making daily round trips.

The Best Cough Syrup is Easily Made at Home

Costs Little and Acts Quickly. Money Refunded If It Fails.

This recipe makes 16 ounces of cough syrup, and saves you about $2.00 as compared with ordinary cough remedies. It stops obstinate coughs—even whooping cough—in a hurry, and is splendid for sore lungs, asthma, croup, hoarseness and other throat troubles.

Mix two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, and add the Sugar Syrup. Take a teaspoonful every one, two or three hours. Tastes good.

This takes right hold of a cough and gives almost instant relief. It stimulates the appetite, and is slightly laxative—both excellent features.

Pinex, as perhaps you know, is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and the other natural healing pine elements.

No other preparation will do the work of Pinex in this recipe, although strained honey can be used instead of the sugar syrup, if desired.

Thousands of housewives in the United States and Canada now use this Pinex and Sugar Syrup recipe. This plan has often been imitated, but the old successful formula has never been equaled. Its low cost and quick results have made it immensely popular.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

NOTES.

In England a hundred years ago three inhabitants out of four were born in the country; today three out of four are born in towns or urban districts. Fifty years ago there were fever towns of a million inhabitants in the whole civilized world than there are today in America. What makes this the more remarkable is that we can trace the process where we should least expect to find evidence of it, in countries like Poland and Brazil. The great problems of the world today are—overcrowding, unemployment, physical degeneration, problems of the city, rather than of the country.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

THAT EXASPERATING TICKLING IN THE THROAT

which keeps you coughing away, night and day, will quickly disappear if you take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne.

Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne quiets the throat-tickling almost instantly, loosens the phlegm, promotes expectoration, and cures the inflammation of the mucus membrane.

Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne has the great advantage of being absolutely free from harmful drugs of any kind. In support of this statement we are willing to give to any physician or druggist in Canada a full list of its ingredients.

You can therefore give Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne to any member of your family, with perfect confidence that it will be altogether beneficial.

Your druggist can supply you with either 25c. or 50c. bottles. The National Drug and Chemical Co. of Canada, Limited. 31i

NEW BATTLESHIPS FOR BRITISH NAVY

LONDON, Jan. 15.—According to the "Daily Mail" the work of framing the British navy for the coming year is nearly completed. The one point remaining for decision, namely, whether five or six battleships shall be laid down, depends upon the Austrian naval program.

If the admiralty decides to wait before taking action till the Austrian ships are laid down, it may be expected to be five battleships this year. The naval program will then, according to the present information involve an expenditure of $240,000,000 and will include five battleships, six light armoured cruisers, twenty destroyers, several submarines, and an addition of 5,000 men to the personnel, making a total of 142,500 officers and men.

The battleships will be of a new type, the largest and strongest which science can build or money supply. They will be intermediate between the present dreadnought battleship and battle cruiser. They will be armed in all probability with eight 16½-inch guns, each firing 2,200-pound shells or, if the 16½-inch gun is not adopted, with 15-inch guns firing shells that weigh about 1,800 pounds.

SCOTT ACT FOR ONTARIO AGAIN

TORONTO, Jan. 15.—Arrangements are being made for a big provincial prohibition convention in Toronto next month. Owing to the adoption of the "banish the bar" plank by the Ontario Liberal party caucus, the convention will face an entirely new situation as contrasted with last year.

The coming convention will have a lively time over the political aspect of the matter. A new feature in the program will be the re-introduction of the Scott Act into Ontario in connection with local option.

A number of temperance people take the view that, instead of adopting N. W. Rowell's provincial "banish the bar" the best policy for the drys would be a provincial campaign for the enactment of the Scott Act.

Those that favor this argument that the Scott Act is a much more effective measure than when it was tried in Ontario in the eighties. The proposition for a Scott Act campaign will be opposed by the Rowell men in the prohibition convention, who fear that it would prove a substitute for the provincial "banish the bar" issue at the next general elections. They will endeavor to pave the way for a solid organized temperance support for the Rowell candidates.

How He Escaped An Operation

And Was Completely Cured of Piles of 14 Years' Standing by Dr. Chase's Ointment.

Mr. Chas. Beauvais.

Doctors say that about one person in every four suffers more or less from piles, and who can imagine a more annoying, torturing, disagreeable ailment?

After trying a few treatments without success, and as the ailment grows worse, the medical doctor is consulted. An operation, he says, is necessary. You think of the suffering, expense and risk to life itself, and hesitate before taking such a step.

In many thousands of such cases Dr. Chase's Ointment has made thorough and lasting cures. Read this letter for the proof.

Mr. Charles Beauvais, a well-known citizen of St. Jean, Que., writes:—"For 14 years I suffered from chronic piles, and considered my case very serious. I was treated by a celebrated doctor who could not help me and ordered a surgical operation as the only means of relief.

"However, I decided to try Dr. Chase's Ointment, and obtained great relief from the first box. By the use of three boxes I was entirely cured. This is why it gives me great pleasure to recommend Dr. Chase's Ointment to all who suffer from piles as a treatment of the greatest value."

Dr. Chase's Ointment, 60 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto.

Young Man, Now Is The Time To Insure

The proper time to insure is now, when you are young, for responsibility rests easily on your shoulders and your obligations are few and light. The premium cost of an insurance policy is at its lowest point and the cost of insurance will never be lower.

And by insuring now you are sure to have a good sized nest-egg stored up for use at middle age—just when you need it and it will prove most valuable. A young man has everything to gain and nothing to lose by insurance.

Call in today and talk over the matter with us.

Farms for Sale AT Victoria, Lot 29.

I offer for sale my farm of 150 acres situated on the Tryon Road near Victoria.

This farm won silver medal in season 1912; is one of the most fertile farms in the province. All crop and large quantity of mill feed has been fed on the place for years; good orchard fenced with wire and cedar. All buildings up-to-date and in good repair including one of the best barns in the Maritime Provinces, with conerete floors throughout, silo, root house and a complete water system on taps making it one of the most desirable properties for dairying or mixed farming in the province.

Also that farm known as the Dawson farm within a mile of Victoria Harbor, consisting of 55 acres. This is one of the oldest dairy farms in the vicinity, is in high state of cultivation, buildings are in good repair and include all necessary outbuildings with silo and root house. The balance of the Dawson farm comprising 45 acres can be purchased also, making a total of 100 acres. This farm has one of the best stores in the Province where plenty of seaweed is always at hand.

Apply to FRED. C. CLARK,
Victoria P. O., Lot 29.

Farms for Sale AT Victoria, Lot 29.

The undersigned offers by private sale his shore farm situated in Lower Tryon, one mile from Victoria, containing 180 acres, with dwelling and outbuildings all in good repair. In connection with this sale, a block of land containing 45 acres with shore frontage, can also be purchased making a total of 225 acres.

For full particulars apply to
HOWARD CLARK,
Victoria, Lot 29.
