—PRODUCE.—Very little produce has been marketed in town during the last few days, due to the muddy condition of the roads. There is a scarcity of butter and eggs in town, barely enough offering to fill the demand; this will in all likelihood cause an advance in price, until colder weather sets in, poultry, except for canning purposes, will be rather dull.—H.

—SCHOOL WORK.—The following is the standing of the Martinvale School for the month of November: Grade VI.—1, Margaret J. Riley; 2, Marion McDonald. Grade V.—1, Sybil Nicholson; 2, Lilla McDonald; 3, Alex. McDonald. Grade IV.—1, Aliah Collins. Grade III.—1, May Myers; 2, Emma Myers. Grade II.—1, Spurgeon McDonald. Grade I.—1, Walter Myers; 2, Arthur Myers; 3, Jessie McInnis.—Katie Mathieson, teacher.

—WHIST PARTY.—On Wednesday, Nov. 29th an enjoyable whist party was witnessed by a large number of guests at the home of Mr. John C. Arsenault, Mont Carmel. Nine tables were set up to the satisfaction of the players. The prize winners were as follows: Highest for ladies won by Miss Bridget Arsenault. Highest for men awarded to Mr. Joseph A. Arsenault. Consolation prize was won by Miss Beatrice Peters. At eleven o'clock whist playing was dissolved and all expressed their gratitude for ample enjoyment received at the occasion.—H.

—WHIST PARTY.—A large number of guests have been invited by Mr. John C. Arsenault, on November 30th to form a whist party. All invitations were responded to and enough to occupy eleven tables gathered at an early hour on the evening. Playing was carried on until ten o'clock when the prizes were awarded as follows: First prize for ladies, Rosina Richard; 2nd prize for ladies, Mrs. John C. Arsenault. Consolation prize for ladies, Mrs. Annie Richard. For gentlemen as follows: 1st prize, Jadius Arsenault; 2nd prize, Ben. Poirier. Consolation, Arthur Gallant. The guests departed with a sense of gratitude towards their host and hostess for the rare enjoyment that was thus given.—H.

—THE OUTLET.—It is really amazing to witness the amount of water rolling toward the shore through the farmers' outlet for the purpose of surface drainage in Mont Carmel. When one considers that this surplus amount of water had been year after year remaining stagnant in the hollow it remains obvious as to the great benefit that can be derived from open drains alone, and yet, the farmers although cognizant of this fact, have thus delayed. But it is never too late. The awakening has come at last to the fact that drainage whether underground or on the surface, is imperative, especially in these sections, where the farmers have not been blessed with the possession of land such as on the more hilly part of this province.—H.
